ANARCHISTS NOT TO DISTURB VETERANS

Emma Goldman Won't Speak in Hall Used by Old Soldiers.

TAR DOESN'T QUELL 'REDS'

Odor of San Diego Sticky Bath Still Clings to Reitman, Who Says He Will Return to California and Invade Scattle.

Peace was restored in the circles of the George Wright Post, Grand Army of the Republic, yesterday when announcement was made by E. W. Shaver, proprietor of Alissy Hall, that the meeting of Emma Goldman, anarchist leader, scheduled for the G. A. R. headquarters, had been called off. The veterans were much annoyed when they learned of the meeting and had threatened to prevent it on their own account if the police failed to do so.

An expression of relief went the rounds of veteran circles when Mr. Shaver announced that the meeting would not be held in the hall, which is decorated with American flags, pictures of heroes of the Civil War and other emblems out of harmony with the ideas of the anarchists. Peace was restored in the circles of of the anarchists.

Tar Doesn't Suppress "Red."

Tar and feathers as a means of crushing anarchism is not wholly successful, according to Emma Goldman and her manager, Ben Reitman, who reached Portland yesterday from California, where they met with all kinds of bad luck in their endeavors to hold anarchistic meetings. Manager Reitman, his hair still smelling of tar which was poured on him by the "vigilantes" of San Diego, related the stirring incidents leading up to his being stripped of his ciothes and decorated with a thick coat of tar and feathers.

"When we arrived in San Diego," said Mr. Reitman last night, "there was a Tar and feathers as a means of crush-

"When we arrived in San Diego," said
Mr. Reitman last night, "there was a
howling mob at the depot. They
hurled all kinds of abuse at us, but we
slipped by them and got to one of the
leading hotels of the city, where we
were assigned to rooms. We had not
been there more than an hour when a
mob, waving a flag, came marching
into the hotel. They demanded the
proprietor to deliver us. This he refused to do, so the mob took the proposition in their own hands. We were
called from our room to a lower floor
on the pretense that we were wanted
by the Chief of Police. We obeyed
the summons and Mrs. Goldman was
taken into an adjoining room, leaving
me standing in another room with six
men.

The Government teaches violence, is based on violence, and hence is wrong and harmful, as well as unnecessary, ahe said. "Liberty should be unrestricted by man-made law. The cause of violence in every form is the existing inequality along economical lines. When a man of means protects his property he is right in the eyes of the law, but when a workingman attempts to protect the products of his toil he is an anarchist. is an anarchist, Religion in every form is a positive

"Religion in every form is a positive failure, because it has failed to lift the burden from man. The religious system holds out a promise of Heaven and at the same time polutes the earth. Marriage according to the present system is not scientific nor right because it does not give security to the home. This is shown by the large number of divorces. Women sell themselves for a home. Motherhood is a universal force and is right whether the child is begotten with or without wediock. Poverty and ignorance are the cause of all social evil and the existing injustices of society.

"A sort of hysterical patriotic insanity wave is sweeping the country, causing so-called patriots to commit all kinds of deeds of violence to force the reverence of unbelievers to their emblem or flag or whatever you want to call it. God save us from the patriots."

Holbrook Youth Drowns.

HOLBROOK, Or., June 1. — Willie Komming, aged 16 years, was drowned in the back water of one of the sloughs two and a half miles west of this place two and a half miles west of this place on Thursday afternbon, and up to noon today the search for his body has been fruitiess. A boat belonging to the boy had drifted away across the slough near his home and endeavoring to secure it Willie rode a horse through the water to the point where the skiff had stranded. It is believed he fell off and the horse, at this moment, struck the youth with his fore feet, knocking him senseless.

Gooseberry Crop Heavy.

AMITY, Or., Juno 1.— (Special.)—
Twenty-one gallons of gooseberries were picked yesterday from four gooseberry bushes on the D. C. Bennett place, a mile cast of Amity, making an average of more than five gallons on average of more than five gallons on each bush. Mr. Bennett has been making a specialty of gooseberry cuitivating a specialty of gooseberry cuitivation for the last year.

Tar Oder Lingers.

"With a suddenness that took my breath the men all whipped out revolvers and with a jeer dragged me out of the place, stripped off my clothes, poured far and feathers on me and turned me loose without any clothes, I have been scraping off tar ever since. I have used a great many different hings, including gasoline, turpentiles and acids, but I still smell of tur.

"Things are in a deplorable condition in San Diego. It is almost too bad to describe. The people are raving maniazes. I never saw such a display of disbolical-haired as on the occasion of the tar and feather party.

"But we are not conquered. They are talking violence in Seattle, but we are going back to San Diego also as soon as the people regain their senses."

Mrs. Goldman will begin a series of lectures in Portland this afternoon at a o'clock at Christonsen's Hall. In an interview last night she outlined her amarchistic ideas at some length, deciaring herself against religion, government, marriage and everything, deciaring herself against religion, government, marriage and everything deciaring herself against religion, government, marriage and everything deciaring herself against religion, government teaches violence, is based on violence, and hence is wrong and harmful, as well as unnecessary, who said "Liberty should be unrestricted by man-made law. The cause of violence in a devery form is the extension of violence and hence is wrong and narmful, as well as unnecessary, who said "Liberty should be unrestricted by man-made law. Astoria Sues for Water Bill.

Astoria Con., June 1.—(Special.)—
A suit was filed in the Circuit Court today by the Board of Water Commissioners of the City of Assoria against the Astoria Centennial committee, incorporated, to recover \$157.20 alleged to be due for water furnished at the exposition grounds during August and September, 1911, and for tapping the main to supply the soldlers' camp on the hill. Money in the local banks to the credit of the committee is to be attached, pending the hearing of the case.

ber for the last two months. During this time more than 200 trees have been cut down and the bark peeled from them and burned to destroy the two species of beetle found attacking the timber in this beit.

"Millions of the larvae has been destroyed and hundreds of trees saved by this work," said Mr. Hill, "but the work is now ended for the season as the eggs have hatched and the bugs crawled out of the bark to congregate on other trees where they will again deposit their eggs. The siege will be resumed next Fall and Winter.

"We found the beetle in large numbers on the Hopkins timber. When we first went into the timber to investigate the ravages of the beetle I scouted the theory advanced by the Government experts here last Winter who would point out a big sugar pine tree and say it was doomed by this bug. The leaves would look perfectly healthy and green and with casual inspection no signs of anything working on such a tree could be found. Upon cutting into the bark it would be found to be alive with the grubs hatched from the larvae of the beetle.

"These beetles attack the trees in colonies. Once they get a foothold the These beetles attack the trees in colonies. Once they get a footbold the big yellow pine stands little show of

withstanding the onslaught.

"The grubs honeycomb the bark untill it is ready to peel from the trunk.
They remain in the tree all Winter and
in the Spring they become beetles
which bore out and fly to another tree
to deposit their millions of eggs in the
bark.

"In some places the beetle has gained such a foothold that it threatens the destruction of thousands of trees in Klamath County."

CHURCH EFFICIENCY TOPIC

Baptists of Umpqua District Discuss Methods of Improvement.

SPRINGFIELD, Or., June 1.—(Spectal.)—Two score representatives of the Baptist churches of the Umpqua district today transacted the last of the business of the meetings, and will close the convention tomorrow afternoon with a young people's rally. Jefferson H. Irish, of Eugene, was elected moderator for the coming year, and Professor W. P. Boynton, of the same place, was named clerk-treasurer. Developing the efficiency of the convention, and separate sessions have been devoted to each of the six objectives as adopted by the of the six objectives as adopted to each of the six objectives as adopted by the Philadelphia convention last year.

Rev. H. W. Davis, of Eugene, preached the annual doctrinal sermon this morning, and the principal sermon tomorrow will be by L. W. Riley, president of McMinnville College.

TEN NEIGHBORS TESTIFY

Oregon City Doctor Tells of Ante-Mortem Statement Made by Lindley in Which He Said He Start-

his neighbors testified to Geb- lated by the defendant and hi

hardt's good character.

The most favorable testimony for the defendant was that of Dr. Hugh S. Mount, who attended the wounded man. The witness told of an ante-mortem statement made by Lindley, in which he said he started the fight which re-sulted in his being shot. Although the builet pierced his heart. Lindley lived 17 hours after being shot.

Gebhardt Meets Lindley.

Gebhardt testified that he went to the front gate with Ryan DeNeul, the last of his guests to depart. Upon his re-turn to the house his wife and Lind-ley were standing in the kitchen door. The witness said Lindley made a remark about him carrying a pistol, Geb-hardt replying that he had a right to carry a pistol. Gebbardt then informed

carry a pistol. Gebbardt then informed Lindley that he wished to pay him off and asked what was due.

"Lindley said I owed him for three and three-quarter days" work," said the witness. "We walked into the kitchen and he struck me knocking me down. I arose and he struck me again." again.'

again."

The witness said he could not remember everything that transpired but he thought he was struck three times or more. One blow knocked out one of his teeth. According to Gebhardt, Lindley struck Mrs. Gebhardt several times, and the witness and Lindley. times, and the witness and Lindley again came together, the pistol being discharged while Lindley held to it. This testimony was in the main corroborated by Mrs. Gebhardt. Both of them, athough not remembering all the details of the tragedy, told straightforward stories which impressed those present as being true.

times, and the witness and Lindley again came together, the pistol being discharged while Lindley held to it. This testimony was in the main corroborated by Mrs. Gebhardt. Both of them, athough not remembering all the details of the tragedy, told straightforward stories which impressed those present as being true.

Disposition is Probed.

Harry Petters, who lives near the Gebhardt home and was one of the guests at the party, testified as to Lindley's disposition. He said some time before the shooting. Lindley, with a 22-caliber rifle, threatened to shoot a bottle in the back yard. Harry Gebhardt, a 17-year-old son of August Gebhardt, told the man not to shoot at the bottle as it contained vinegar. The witness declared that Lindley declared he would shoot anyway, Gebbardt stepped between Lindley and the bottle. Lindley warning the lad if he did not get out of the way. Till put a hole through you." Peters says he took the gun, Isindley offering no objection.

George C. Brownell and Gordon E. Hayes, counsel for the defendant, in summing up, declared that the shooting was in self-defense. Both made strong and convincing arguments, and
