## REPORTS FAIL TO HALT HARBOR PLAN

Major McIndoe Starts Work Despite Talk of Lower Appropriations.

EQUIPMENT IS SPECIFIED

Tugs, Barges and Other Machinery Recommended and Proposals Will Be Invited Probably Within Next 30 Days.

Washington reports that there will be further reductions in the rivers and barbors bill affecting appropriations for the lower Willamette and Columbia have not deterred Major Moindoe, Corps of Engineers, U.S. A., from proceeding with the preliminary details of assembling equipment for the two 24-inch suction dredges to be built, and yesterday he forwarded specifications to the Chief of Engineers for floating property which will necessitate an expenditure of many thousands of dollars.

First of the items are two steam tugs, which will be used as tenders for the dredges. They will be christened J. C. Post and H. M. Adams, in memory of deceased engineer officers, and will be 65 feet long, with beams of 17 feet and depth of hold of 7.6 feet. Besides there will be six fuel barges, three for each dredge, which will be 124 feet

each dredge, which will be 124 feet long, 32 feet wide and 5.10% feet deep Derrick Barges Provided For.

Provision is also made for derrick barges, four in all, to be 51 feet long.

22.5 feet wide and 2.11½ feet deep. To float the 24-inch pipe lines from each dredge to shore there will be 100 pontions, each 26.4 feet long, 12 feet wide and 2.6 feet deep.

Specifications for the dredges were forwarded to Washington a few weeks ago for approval, and on being returned maturally

ago for approval, and on being returned naturally exporters look for an addi-minor changes were ordered, which tional advance, but at the same time baye been carried out, and the papers are loth to charter. final inspection. When they are re-ceived here bids will be advertised for and the dredges are expected to be ready for service next year.

Specifications for the tugs, fuel barges, derrick barges and pencold, being probably will be returned to Though the lighthouse tender that the proposals will be invited. There will be no haste displayed in getting contracts as there is no reason for any of the equipment being completed in advance of the dredges.

Coming from Iquique, the barkentine Amaranth entered at the Custom-House vesterday. The vessel berthed at the vesterday. Return Expected in 30 Days.

dredges.

Unless some provision is made in the sundry civic bill so that more of the funds originally asked for are placed at the disposal of Major McIndoe, successful bidders on the tugs and barges will not receive all of their money promptly, as it will be arranged for in the next apportionments, Congress having pledge itself to take care of the expenditures.

DOLLAR IS OFF FOR ORIENT

Steamer Has California and Oregon

ent sacks for that port.

Receipts of gunny bags and burlap in this city Friday neted duties of \$10,000 at the custom house. There were about 500 bales of the material. which is used in sacking grain, and because of the approaching harvest shipments are being made frequently from Calcutta. Several years ago most of the bags were transported on sailing vessels to Portland, but now they move in steamers and are largely transshipped here.

shipped here.

The duty on gunnies and burlap is 7-8 cents a pound and 15 per cent of the market value. The quotations fuctuate at Calcutta and for that reason the duty on each sack runs from 1½ to 2 cents. There is a stiff demand every season for bags, as only the cleanest and best are used, and with wheat being exported and sent to domestic ports in sacks there are few used. mestic ports in sacks there are few used mestic ports in sacks there are few used a second time. Besides in shipping from interior warehouses to tidewater the sacks frequently are damaged and unless they can be easily repaired it is necessary to resack the cereal.

BRIDGE TIMBERS GO SOUTH

Carlos Will Load Material From New Railroad Crossing.

Approximately 180,000 feet of timbers that were used on the falsework of the new Harriman bridge, and which were torn down and placed in a boom on the East Side, will be loaded aboard the steamer Carlos and sent to San

MARSHFIELD, Or., June 15.—(Spe-al.)—Operator William Moe, who has en in charge of the Wireless sta-on on Coos Bay for the United Wire-tes Company, has accepted a position wireless man and purser on the camer Breakwater, running between loss Bay and Portland. Mr. Moe will

for a time at least and perhaps per-manently. He has been in charge of the Coox Bay station for nine months and on a number of occasions has done some hard work, as he had no relief, and as there are no other wireless op-erators in the city he often found it necessary to put in long hours. The local wireless station is on a high hill in the city, and the operator has his residence at the station.

MORE VESSELS ARE TAKEN

Balfour-Guthrie to Load Steamer and Bark in Europe.

In two days news has been received of three new vessels that will head for the Coast, one under charter for grain and the others will be available. The fixtures of the German bark Hera by M. H. Houser became known Thursday, she being taken to load in October-November, while Balfour, Guthrie & Co. have chartered the British steamer Crown of Galicia to load general cargo at Antwerp for Pacific Coast harbors, and she will probably return with wheat. The same firm has taken the French bark Bayard to load general

ALBANY GETS NEW COURSES

Manual Training and Domestic Science Established in Schools.

Francisco. Arrangements were made yesterday with Captain Peterson, skipper of the Carlos, to place the timbers on deck. She will load grain in the hold and finish her deckload with lumber at the Portland mill.

There are more timbers to be lowered from the bridge. Owing to the delay in getting electricity the draw cannot be operated until tomorrow or Tuesday and during the week it will be raised and lowered frequently so that adjustment of weights can be made. As soon as possible the lower draw or railroad section will be started.

ALBANY, Or., June 15.—(Special.)—(Courses in manual training and domestic science will be established in the Albany High School at the beginning of the school year next Fall. This decision has been reached by the Albany school board and arrangements have been made to procure the necessary equipment. Professor A. E. Hudston, who has been instructor in science in the high school, has been placed in the high school for an arrangement of the high school for an arrangement of the high school board and arrangements have been made to procure the necessary equipment. House Would Do Away With Land Office Receivers.

WORK IS GIVEN TO CLERK

Action Accords With Recomtion of General Land Office, but Senate Heretofore Has Defeated Measure.

OREGONIAN NEWS BUREAU, Washington, June 15.—Unless the Senate amends the sundry civil bill and restores the old order of things, receivers of local land offices will pass into history June 25. The House committee on appropriations, in framing the sundry civil bill, abolished the office of receiver and transferred the duties of that office to the register. This was in accordance with the recommendation that has many times been made by the General Land Office, but heretofore always defeated by the Senate because Western Senators objected to taking away this much of their patronage. The change which would be wrought by the adoption of the House provision is easily understood from

wrought by the adoption of the House provision is easily understood from reading the bill, which provides:

"The office of receiver of public moneys for land districts, from and after June 30, 1912, is abolished, and all the powers, duties, obligations, and penalties at that time lawfully imposed upon such receivers and upon posed upon such receivers and upon registers of land offices shall, from and

posed upon such receivers and upon registers of land offices shall, from and after that date, be exercised by and imposed upon such registers. Such registers shall, in addition to the duties thus imposed, have charge of and attend to the sale of public and Indian lands within their respective districts, and shall be accountable for the proceeds of such sales, and for all fees, commissions, and other moneys received by them under any provision of law or official regulation.

"Instead of the office of receiver of public moneys hereby and herein abolished, the Secretary of the Interior may appoint or designate a chief clerk for any land office, who shall receive such salary, not exceeding \$2000 per annum, as the Commissioner of the General Land Office may authorize. Such clerk shall execute to the United States a bond in such penal sum as the said secretary may prescribe, for the faithful performance of his official duties, and such clerk shall be accountable for such proceeds arising from the sale of public or Indian lands within his district, and for such fees, commissions, and other moneys as may come into his hands under any law or official regulation or direction.

"The compensation of registors shall in no case exceed \$3000 per annum, as now provided by law."

DAILY METEOROLOGICAL REPORT.

Lumber Aboard.

Movements among the lumber carriers yesterday included the clearance of the British steamer M. S. Dollar for Oriental ports and Manila. She left down about noon and had aboard 150,000 feet of redwood that was loaded at San Francisco, and one lot of 1,150,000 feet, worth \$21,280, that was loaded here for Manils on arrival. On returning from Prescott, where she took on 400,000 feet, vaued at \$3500, which is destined for Hongkong, the Dollar worked 1,190,883 feet, appraised at \$14,298, which goes to Manila and Robe.

The French bark Bossuet, Captain Dimont, cleared for the lower river yesterday and will load for Australia. The barkentine Amaranth, which halls from Iquique, arrived up and will load for Australia. 2500 Kites in the Air.

Christian Herald.

Christian Herald.

The public school boys, especially those in the fifth and sixth grades, which include manual training in the year's work, are very much excited over approaching tournaments, which are to take place simultaneously during the last week of school in several cities in Ohio and Illinois. Prizes will be awarded for the construction of kites, for speed based on the number of feet of string unwound in a given time, and for high flying. In Columbus, 2500 kites of all shapes and sizes will be in the air together when the tournament kites of all shapes and sizes will be in the air together when the tournament is on. The box-kite, the tailiess, and the "bow" are the most popular models. The city will in each instance be decked with flags and bunting on tournament day, and all good citizens will cheer and entertain the boys.

This is the very best kind of suggestion. Almost any boy could get up a kite-flying contest among his friends. If he got many boys interested the Mayor of of the town might be persuaded to offer prizes and help plan for a red white and blue kite tournament as a part of the independence day festiv-
