GRANT SAYS ROAD VIOLATES CHARTER

City Urged to Treat Southern Pacific as Original Franchise Applicant.

AGREEMENT HELD BROKEN

ttorney Declares Company Refused to Abide by Terms at First Accepted in Fourth-Street Trackage Right Controversy.

Declaring that the Southern Pacific Company has refused to abide by an agreement with the city for the settlement of the Fourth-street franchise controversy, City Attorney Grant has written an opinion for the City Council in which he recommends that the com pany be treated as though it were originally applying for a franchise, re-quiring it to conform strictly to the rovisions of the city charter. . Attorney Grant declares that the

railroad company fully agreed a short time ago to settle the whole controversy by applying for a new franchise subject to a common-user clause, relinquishing its claims to a perpetual franchise and agreeing to dismiss the litigation against the city, but that the plan was wrecked when W. C. Benbow, ex-Deputy City Attorney, introduced in the Council a recommendation that the company's tracks be ousted

Oregon & California Rallroad Company in this city and in San Francisco that the company apply for a franchise on Fourth street in strict accordance with the provisions of the present city charter, namely, a franchise for 25 years for two tracks, subject to a common user thereon, and that it relinquish its claim of a perpetual franchise on said street and dismiss the litigation now maintained against the City of Portland.

Franchise Rights Repealed.

"In fact, it has been publicly stated to you by Mr. Fenton before the street committee, that he had advised his campany that there is grave doubt in his mind as to whether this was not the position in which his company would be placed by the acceptance of a franchise. In my mind there is no doubt that this would constitute an express waiver. Of course, it would be better for the city if all doubt was positively cleared up, for if the franchise is granted in the form in which it was presented it will leave the matter open for the present or subsequent litigation to be determined.

"The Council must bear in mind that it has repealed ordinance No. 599, the ordinance under which said company claims to exercise franchise rights. It repealed the ordinance, however, on the theory, not only that it was a revocable permit, but that the company in and by virtue of its disobedience to the express reserved powers in said franchise, had disobeyed said reserved power, namely, it had refused to remove its locometives from the street when so ordered.

"The power to cause this removal was reserved in said ordinance No. 595. The company resisted the enforcement of said order in the Federal Court. The Federal Court decided against the company, but restrained the city from in any way interfering with the operation of trains on said street until that case could be decided by the Supreme Court of the United States. This injunction prevents the city from taking any steps at all to cause the complete removal of the railroad from the street.

"If the city is successful in the Supreme Court of the United States, and I see no reason why it should not be, it has then established its right to repeal ordinance No. 533 and in that event the company is without any rights whatsoever upon the street, because it has disobeyed said regulating ordinance, and its disobedience is wif-

"Having all of these matters in mind Having all of these matters in made it seems to me that the only logical thing for the city to do is to treat this company as though it were originally applying for a franchise on this street and require it to conform strictly to the provisions of the charter, but, as I have heretofore stated, my efforts to have their result have not been bring about this result have not been fruitful."

Attorney Grant has amended the original proposed franchise in a number of details, including the train schedule during rush hours, the right.

of the city to acquire the property of the company at the expiration of the franchise if desired, the right of other companies to use the tracks and giving the city the right to repair or lay watermains under the tracks wherever desired.

Animals More Plentiful This Season Than Ever, Is Reported.

"Deer are more plentiful in the Ore-gon forests this season than they have been in years," said E. S. Cattron, chief clerk in the game warden's office, yesterday." I base my statement on re-ports from wardens in all the big hunt-ing grounds and especially on those from Curry, Douglas, Jackson and Josephine counties.

"Despite the ravages of cougar and

Fourth street, which recommendation was passed by unanimous vote.

"When this action was taken, without my knowledge or consent," it wrecked my entire plans," said Mr. Grant yesterday. "The company officials changed their minds on what had been agreed to and efforts to get them in line again have been of no avail. They will agree to none of the things they accepted before that resolution was introduced and passed by the Council. They believe, I suppose, that it was an effort to double-cross them."

In his written opinion to the Council regarding the franchise's asked for by the company on Fourth street Attorney Grant says in part:

"After this ordinance was referred to me I suggested to the officers of the Oregon & California Railroad Company in this city and in San Francisco that the company apply for a franchise on Fourth street in strict accordance with the provisions of the present city char."

Rules Adopted by National Organization Will Govern Judging in Show Which Will Be on July 9 and 10.

Classification of the various entries or the annual exhibition of the Oregon Sweet Pea Society, to be held on the second floor of the Courthouse. July 9 and 10, has been made by a committee and the prizes to be awarded in the sev-eral events have been announced. The rules as adopted by the National Sweet Pea Society of America will govern the

judging.

Points in scoring will be apportioned as follows: Length of stem, 25; color, 20; size, 25; substance, 15; number of flowers on one stem, 10; total, 100. The National Society considers that an ideal bouquet of sweet peas consists of not more than 25 sprays. The judges will be instructed to regard the overcrowd-ing of a wase as a fault.

Two Classes Provided. The classification provides two classes The classification provides two classes for commercial growers and florists, for the best general exhibit of Spencers and Grandifloras, for which a gold and a silver medal are offered, and the best appointed table decoration, for which two trophies are offered. The classification provides 11 entries for amateurs, and three for juveniles, for which trophies are offered.

All exhibits must be in place by 9:30 o'clock on July 9, and exhibitors are requested to use only clear glass for

o'clock, noon, and there will be no admission charge. The secretary will be
in attendance at the County Commissioner's room on the second floor of the
Courthouse on July 8, after 10 A. M.,
for the purpose of receiving entries. All
persons who intend to exhibit sweet
peas are urged to attend the meeting to
be held prior to that date.

George Pope, president of the Sweet
Pea Society, is one of the most enthusiastic growers of that flower in the city
and has had much to do with the success of the organization.
The complete classification is as follows:

does not demand the every-day response to the factory whistle, or taking one's place behind the counter or at the desk. There's another and a more remunerative way that has a strong appeal to the average man of the city-an opportunity to reap real reward for his efforts-not great financial reward, but the reward of peace, plenty and contentment. It's the farm

home-the chance to work in the open and for one's self rather

than for others-to create something-to sow and to reap. It means independence for the man who is ready and willing to work with nature and accept the quiet of the country lane and field in place of the restraint of city employment and the hustle and bustle of the city street.

And yet you might ask: "How can I realize all this?" We've a ready answer for the man who is willing to save a few dol-

lars each month, for our proposition to furnish you sufficient land for a farm and orchard home is so liberal as to make it possible for the man of small means to do so right away. It's a tract of, say, ten acres or more down at

where natural resources and conditions for the development and maintenance of a farm and orchard home are all that could be desired. The home-maker who takes up a tract here has a combination of advantages that few sections can claim - FERTILE SOIL, PURE WATER, WEALTH OF FUEL, DELIGHTFUL SURROUNDINGS, GOOD ROADS, SPLENDID TRANSPORTA-TION FACILITIES, SCHOOL AND CHURCH, PROGRESSIVE NEIGHBORS. Ideal homesites and easily cleared.

COLUMBIA ACRES lies about 2½ miles west of Goble, Or., and is reached by a fine macadam road with a grade no greater than Washington street in Portland. The prices of land in this fertile section have not advanced one cent from their initial prices, even though COLUMBIA ACRES has shown a marked development in the past few months, which means that land here is worth a great deal more than what we are asking for it. Now and not later is the time to take up a tract. You can do so by making a small first payment and a little each month. Come in and get acquainted with us-learn how easy we have made it for you to own a tract. The present prices are:

\$40 to \$60 an Acre

-any number of acres to the buyer. With its many advantages, the price and the terms, we say that it would be difficult to do as well elsewhere.

Portland is not only one of the greatest deciduous fruit markets in the country, but in the last few months has become the largest pineapple market in the West. More pineapples are now consumed in and distributed from Portland than any other city on the Coast, and this in spite of the fact that Portland has no direct steamer service with Hawaii, where nearly all the pineapples come from.

Two carloads reached this city yesterday by way of San Francisco, and two cars are due in a day or Two carloads reached this city yesterday by way of San Francisco, and two cars are due in a day or two. This shipment of 1100 crates is the largest ever made to this part of the country. Only a short time ago a shipment of a dozen crates would have been sufficient for this market.

Then pineapples retailed at 50 to 75 cents each, but now they sell at 15 to 25 cents, and are no longer a luxury. They are used extensively for home canning in connection with apricots, which are now coming in season.

Nearly all the pineapples brought to this section are grown on the Clark plantation, in Oahu, Hawailan Islands, which is said to be the largest pineapple farm in the world. A large part of the plantation's product is put up in the liquid form of nectar.
