HOO-HOO TO GATHER

National Concatenation of Interest to Oregon.

ORDER HAS MYSTIC RITES

World Affiliation of Lumbermen to Hold Forth at Asheville, N. C.,
This Year July 15-20—Work on Coast Is Lauded.

An event of National interest, and of special interest to Pacific Coast lumbermen, is the twenty-first annual meeting of the Concatenated Annual of Hoo-Hoo, which will occur at Asheville, N. C., July 15-20. Hoo-Hoo has a large membership in this section. Hoo-Hoo is a National and International organization, composed of lumbermen and men engaged in allied industries, with a membership embracing every state and territory in the Union (including Alaska, the Philippines and the Hawaiian Islands) and the following foreign countries: Africa (the Transvaal), Argentine Republic, Brazil, Australia, Canada, Belgium, Denmark, England, Scotland, Germany, China, Mexico, Nicaragua, Cuba and Panama.

Board of Nine Rules.
Hoo-Hoo is governed by nine general officers called the Supreme Nine. These are selected each year. The men composing the present Supreme Nine are as follows:
Snark of the Universe—E. Stringer Boggs, Clarkburg, W. Va.
Senior Hoo-Hoo—J. F. Judd, St. Louis, Mo.
Junior Hoo-Hoo—F. W. Trower, San Francisco, Cal.
Bojum—Thomas Patterson, Hamilton, Ont., Canada.
Scrivener—J. H. Baird, Nashville, Tenn.
Faberwock—J. M. Leiter, Portland, Or.
Custodian—T. L. O'Donnell, Sanford, Miss.
Arcanopter—John C. Ray, Waco, Tex.
Gordon—W. T. Carroll, Uniontown, Pa.

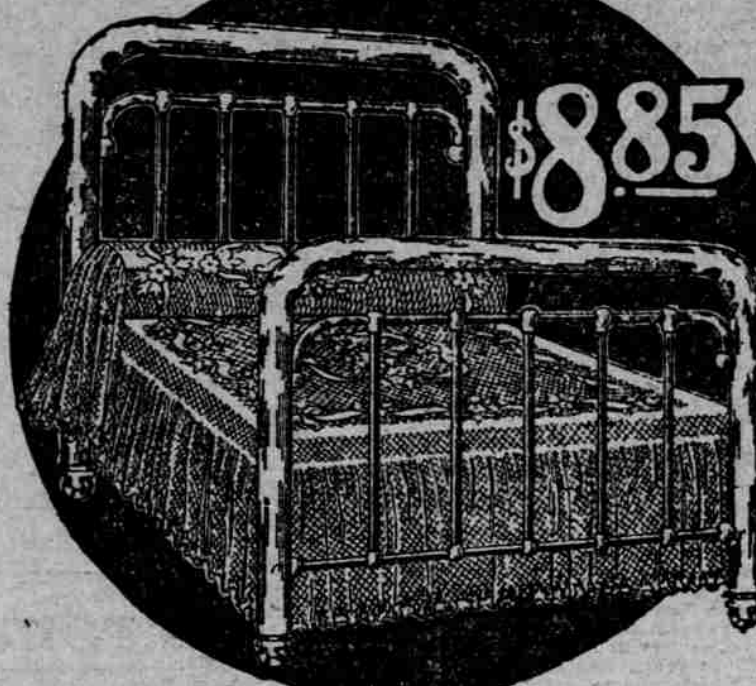

In addition to the Supreme Nine, there are also state officers called vicegerent snarks. There are more than a hundred vicegerent snarks, some of the states having two or more. The state officers for Oregon are: D. U. Davis, Portland; R. H. Rosa, Bandon. Hoo-Hoo has no local lodge rooms, but initiatory meetings, or "concatenations," as they are called, are held whenever and wherever there is a sufficient number of men eligible to membership. Since last October more than 60 concatenations have been held, and nearly a thousand new members added. A general meeting of Hoo-Hoo is held once a year. In 1910 the annual meeting took place in San Francisco and was a notable event.

Nine Is Mystic Number.
It is expected that the meeting at Asheville will be unusually well attended, as the date falls about the time most people take some sort of vacation trip. Formerly it was the custom of Hoo-Hoo to hold the annual meeting in September, beginning on the "ninth day of the ninth month at nine minutes past nine." A cat has nine lives and it was deemed proper for a follower of the Great Black Cat to recognize the magic number as fully as possible. It was found, however, that September is a busy time for lumbermen, and the date was changed to July. Extensive preparations for the entertainment of the members are under way at Asheville.

For the past 15 years Nashville, Tenn., has been the headquarters of Hoo-Hoo. There the very extensive records are kept, and through the Scrivener's office all the official correspondence passes. In Nashville also is published the official organ of Hoo-Hoo, a monthly magazine called The Bulletin. June issue of The Bulletin contains the

MILK PURITY PROPOSED

RETURN OF UNCLEAN BOTTLES WILL BE MISDEMEANOR.

Stringent Regulations Are to Apply to Dairies and These Will Be Enforced by Degrees.

A proposed ordinance making it unlawful for any user of milk to return to a dairyman a milk bottle which has not been washed is to be made a part of the general ordinance to be introduced in the City Council soon by the City Health Department regulating the milk supply of the city. This feature of the proposed regulations has been suggested by dairymen, who complain that they often receive bottles in such condition that they have to be thrown away. The proposed measure will require consumers to wash the bottles clean and return them in such condition that there will be no danger of contamination to milk put in the bottles subsequently. City Milk Chemist Calloway said yesterday that the bottle-washing feature of the proposed general ordinance is one of the most important. "We hope at some time in the near future to require the dairymen to use bottles exclusively in delivering milk. This will do away with the practice of dairymen and stores selling milk by measure, pouring the milk from a can into a measure."

Chemist Calloway says there has been some misunderstanding as to the purpose of the drastic milk ordinance which has been prepared by the Health Department, which if passed by the City Council would require model dairy conditions. "It is not our intention to place upon the shoulders of the dairymen conditions which they cannot meet," he said. "It is merely a step in the direction which the dairymen will have to follow in the future. The people are coming to understand the necessity of proper milk and it is only

SOCIAL EVIL IS SUBJECT

Y. M. C. A. Plans New Series to Supersede Regular Meetings.

Three causes of the social evil are to be considered at the men's meeting in the lobby of the Portland Young Men's Christian Association this afternoon at 3 o'clock. The meeting is to be held under the auspices of the religious work department of the Y. M. C. A. and the Social Hygiene Society, and is first of a series of conferences that take the place of the regular auditorium meetings.

Dr. J. Allen Gilbert will preside at the meeting today, and the speakers will be Colonel C. E. S. Wood, M. N. Dana and C. S. Botsford. Music will be provided. This meeting will have a sequel next Sunday when remedies for the social evil will be considered. The speakers at that time will be B. Lee Paget, W. F. Woodward and C. J. Payne, and the chairman will be Rev. J. E. Snyder. Both meetings are open to all men.

Women take the place of townships in many of the streets of Spanish towns.

AUTO MEN VISIT TOLEDO

WILLIS-OVERLAND COMPANY IS DISTRICT MANAGERS' HOST.

Business and Pleasure Mixed While Guests Examine and Learn 1913 Models and Prices.

Enthusiasm, good fellowship, business and pleasure were the predominant features which marked the three days' convention of the district managers, allied with the Willis-Overland Company, held at Toledo, Ohio, a few days ago. The programme as mapped out by Vice-President Bennett called for action each moment—either business or pleasure, and one was enjoyed as much as the other.

The smoker at the Overland Club on Maumee Bay, banquet at the Toledo Yacht Club, launch rides on Lake Erie, theater party and other pleasure features were injected to keep President Willis' district managers from being dull boys and each left Toledo with renewed enthusiasm. As Vice-President Bennett announced the new models, prices and refinements over those of 1912, he was continually interrupted with cheers. Among those who addressed the district managers were Assistant Sales Managers C. S. Jameson and H. B. Harper, Factory Manager Harry Shepler, Consulting Engineer Carl Neracher, Vice-President G. W. Bennett, Treasurer Walter Stewart, J. R. Jamison, manager of the car order department; Fred Cornell, manager service department; Arthur Irvine, manager order and repair department; Traffic Manager C. W. Eggers; Martin Kelly, vice-president; Charles H. Fuller Company; R. J. Buell, assistant advertising manager of the Overland organization, and L. M. Bradley, manager of publicity.

It is planned to make Pittsburgh smokeless by using electrical power developed from the nearby rivers and streams. Over 100,000 horsepower can be obtained this way.
