

OREGON HAS FOUR AT CHICAGO MEET

Coe, Povey, Green and Dennis Represent State at Bull Moose Convention.

EACH TO HAVE 21-2 VOTES

Holmes, of Willowa, and Hughes, of Marion, Prevented by Business From Attending—Dr. Coe on Credentials Committee.

Oregon's National Progressive party will have four delegates in the Bull Moose convention which assembles in Chicago tomorrow. They are Dr. H. W. Coe and D. L. Povey, of Multnomah County, and Bruce Dennis, of Union, three of the five delegates elected at the state convention in Portland, and R. J. Green, of Union, one of the five alternates.

PROGRESSIVES PLAN MEETING

State Central Committee to Get Active After National Session.

George F. Rodgers, of Salem, chairman of the recent Progressive party convention, will issue an official call in a few days for a meeting of the State Central Committee of the new party organization in Portland.

ORGANIZATION OF THE PARTY

Organization of the third party movement in the different counties has not made much headway since the state convention. It is understood the members of the Bull Moose party, however, in Jackson and Union counties have elected county organizations.

In addition to naming a date for the meeting of the state committee, the call will suggest the organization of Progressive clubs throughout the state.

It is believed that the work of organizing the new party can be speeded by forming clubs in the different communities. The plan is to have the state committee meet just as soon after the Chicago convention as possible and prepare for the aggressive campaign that is contemplated by the third party for Roosevelt in this state.

M'CUSKER IN RUNNING

PLATFORM DRAFT ANNOUNCED BY INDEPENDENT.

Equal Suffrage, Tariff Commission, Navy, Monroe Doctrine and Free Canal Advocated.

Inhibited by provisions of the direct primary law from having the word Republican printed on the ballot following his name, Thomas McCusker will be required to run as an independent in his candidacy for Representative in Congress from this district.

"In addition to M. G. Munly, the Democratic nominee, the only other candidate for the office I am seeking voluntarily left the Republican party recently and declared for Roosevelt and the third party," said Mr. McCusker yesterday.

"I favor free tolls for American ships through the Panama Canal and the fortification of the canal by the Government.

"I favor the elimination of railroad-owned or controlled steamship competition in the canal zone.

"I am in hearty accord with the Lodge resolution just introduced into the Senate which is an enlargement of the Monroe Doctrine.

"I favor a substantial Navy, as I believe such is necessary in order to maintain our commercial supremacy until such time as there shall be compulsory international arbitration.

"I favor the parcels post and an extension of the postal savings bank.

"I favor a National arbitration law with a minimum wage scale, and a restriction on the immigration of pauper labor.

"I favor equal suffrage, the direct primaries and the extension of the popular government laws.

"I favor a permanent tariff commission, thereby taking the tariff question out of politics."

E. V. CARTER IS A REPUBLICAN

Nominee for Presidential Elector Writes to Central Committee.

Admonishing the members of the third party to heed the command of their leader, "Thou shalt not steal," E. V. Carter, of Jackson County, Republican nominee for Presidential Elector, in a letter to the Multnomah County Republican Central Committee, has declared that if elected in November he will vote for Taft and Sherman in the Electoral College.

In plain words, Mr. Carter asserts that if he were not in sympathy with the party which gave him the nomination he would lose no time in withdrawing as its nominee and acquainting the voters with his position.

"I am a Republican and if chosen

as one of the Republican electors next November," wrote Mr. Carter to the committee, "my vote will be cast for W. H. Taft and James S. Sherman for President and Vice-President, respectively.

"If my sympathies were with Colonel Roosevelt and his third-party movement I should certainly withdraw my name as one of the Republican nominees and ally myself openly with them, but how can any man consistently claim the right to make the race as one of the electors, designated as a Republican, and then, if successful, cast his vote for Roosevelt?"

"Surely the Colonel's slogan, 'Thou shalt not steal,' is applicable here and if any of our Republican elector nominees are in sympathy with the Bull Moose and his third-party movement, they should be honest enough with the voters of the state to withdraw their names as such Republican nominees and not try to sneak in under the tent

Man Who "Beat" Board Bill Arrested for Assault in Error.

VANCOUVER, Wash., Aug. 3.—(Special.)—Thinking that the charge "beating" is synonymous with "assaulting," when a hotelkeeper in South Bend, Ind., telephoned to Sheriff Stephens, of Clark County, telling him to arrest Hinkle, it possible, and hold him. The wires were noisy, so an operator related the charge to "assaulting," so this is the charge he was arrested under by Deputy Sheriff Elmer Barbeau, as the train was passing through Vancouver at noon.

Hinkle later admitted that he is the one wanted for not paying a board bill. He is being held in jail awaiting the return of Sheriff Stephens. A subsequent message revealed the truth that Hinkle had not assaulted the hotelkeeper with his fists, but that he had left the city without paying him.

Your Child's Health

Your First Thought

If you have children, naturally your first thoughts are for their health. You certainly want them to develop strong, healthy constitutions. The most careful attention must be given when children show the first symptoms of the many common ailments. Perhaps they are weakly and thin, or grow too fast, thus sacrificing strength and vigor.

Such children need Jayne's Tonic Vermifuge, which is essentially a children's tonic. First of all, it will properly care for the child's stomach. It will also improve the appetite, and will add strength to the other organs of the body. In cases of thin or impure blood, it increases the number of red corpuscles enabling the enriched blood to keep the body healthy and strong.

Among the most common ailments that children develop is that of a disordered stomach, leading to an impaired digestion. In many cases this trouble is due to parasites in the intestinal tract. To correct such trouble, Jayne's Tonic Vermifuge is unsurpassed.

For more than eighty years millions of children have been restored to health through the use of this tonic. Insist upon Jayne's; accept no other. Sold by druggists everywhere. Dr. D. Jayne & Son, Philadelphia, Pa.

Eugenic Exposition at State Fair Not After Doll-like Beauty Alone.

TOTS' HANDSHAKE NOTED

Trained Nurses to Demonstrate Methods of Washing, Feeding and Handling Infants—Cash Prizes Are to Be Offered.

Proof of the favorable reception of the new department of an "Exposition of Eugenics" at the State Fair at Salem September 2-7 is shown by the fact that \$500 has been appropriated by the State Fair Board to cover the premiums and expenses connected with it.

In this eugenic department children will be shown, varying in age from six months to four years, and prizes awarded for physical perfection rather than doll-like beauty. Certain medical standards of weight and measurement will be used.

Comparison to perfection will be figured on a percentage basis. The various tests and measurements will be made by women physicians who will at the same time point out to parents any defects or good points in the constitution of the child.

Under the auspices of the Oregon Mothers' Congress and Parent Teachers' Association, and the Oregon State Grange, a "Child's Welfare Exhibit" will be made a part of the eugenic exposition. All the approved methods of handling, washing, feeding and clothing babies will be demonstrated daily by trained nurses, in addition to other features.

There will be no competition between the sexes; prizes of \$25, \$10 and \$5 cups will be awarded in each of the three classes, for children of each sex, while a challenge cup of \$50 will be given for the champion boy and the champion girl.

Classes are as follows: A. Boys (1) over 6 months and under 2 years, B. Girls, (2) over 2 years and under 3 years, (3) over 3 years and under 4 years.

Every commercial club and grange in the state is requested by O. M. Plummer, the superintendent of the department, to interest itself in the organization of a preliminary show along these lines. By this means the best baby boy and girl in the respective communities will have been selected. Each community should then send its best boy and girl as representative of the town or section. By this way Mr. Plummer says the best possible attention would be called to the community, attracting far more notice than the locality than thousands of dollars spent in advertising resources and products.

On the other hand any child may be brought to Salem direct without its having entered in any preliminary show.

The score card, and percentage basis will be made up and adopted by the Iowa branch of the National Congress of Mothers and approved by the various health committees, and women's clubs there.

Nationality of parents, place of birth, whether city, town or village bred, age and color, are among the first questions asked. Then follow some questions of assistance to the medical examiners, such as to the length of time the child had been fed artificially or from the breasts, whether it had slept habitually in the open air and its state of health at birth.

The general examination total is 100 points, and the perfect scores for the various measurements and examinations provide interesting reading.

In addition to the everyday measurements of height, weight, chest, abdomen, etc., points are given for the quality of the skin, the color, and the muscles, as evidenced by the hand grip, sitting posture, rising, walking and running.

Shape, position and size of eyes, ears, nose, forehead, teeth and jaw all figure prominently. Energy and disposition receive good marks, while the attention given by the child also is to be taken into consideration.
