To Begin With—This Bit of Important Information

—These rugs were purchased for us by our own representative in the Far East. Having come to us direct, they, one by one, were selected as individually fit to be presented to our customers. Every rug is guaranteed free from Aniline dye, and is of carefully chosen first quality. People who understand Oriental Rugs thoroughly, and who have seen this collection of Rugs, have expressed themselves as satisfied that the prices are lower than they have ever seen them before.

—The prices are fully thirty-five per cent lower than the customary New York quotations.

### NOR DO WE HUMBLED YOU WITH TWO PRICE TAGS

—You don't buy Oriental Rugs just because they are tagged with two tickets, one with a high price—a fictitious price—another with a second price—from which a still further reduction may be secured, measured only by your ability as a trader. It's a deception and a cheat.

—The odd figures at which some of the Rugs are marked are explained by the fact that they are computed on the lowest possible square-foot basis, and the prices have been fixed by that calculation. So each Rug bears ONE PRICE, the ONLY selling price—the LOWEST selling price.

### THIS ORIENTAL RUG SALE HAS BUT ONE OBJECT

—It says good-night to you with a scowl or a caress, as the case may be.

—It's for you to say—what kind of a Rug you'll buy.
