

THE RUN OF CHINOOK SALMON IN THE Umpqua River has been the greatest in many years. About 60 boats are out, and both of the canneries, the Umpqua Canning Company and the Co-operative Company, have put up a large number of fish. The fishermen are now changing their gear in preparation for the run of silverides, which is expected at any time.

AVIATORS ARE RESCUED. Men Cling to Hydroaeroplane Until Boat Comes to Aid. Two aviators were rescued after being stranded in a hydroaeroplane.

PHILADELPHIA, Oct. 12.—Aviator Marshall B. Reid and Henry C. Mustin, a Lieutenant-Commander in the Navy, were rescued after being stranded in a hydroaeroplane.

ROSEBURG, Or., Oct. 12.—(Special).—Declaring that the people of Oregon face a difficult problem in caring for the thousands of homeseekers annually coming to this country, A. E. Clark, Roosevelt Progressive candidate for United States Senator, tonight asserted at the courthouse that the time was at hand when something would have to be done about the vast tracts of idle lands which had been thrown open to actual settlement.

Mr. Clark said he considered the success of the Government's suit to recover the Oregon & California land grant to be a matter of great importance and thereby place the homeseeker in a position to secure a rural home. Mr. Clark said he favored legislation whereby the Government would be compelled to sell the timber from such of its lands as were suitable for agriculture, the proceeds of which should be spent in clearing the land preparatory to selling it to actual settlers on long-term payments.

This change, Mr. Clark contended, would turn the tide of immigration to Oregon from the overcrowded cities. The speaker pointed to Minnesota, where the law provides that actual settlers should be given in clearing the land preparatory to selling it to actual settlers on long-term payments.

Mr. Clark emphasized the necessity of avoiding the diversion of money to reclamation projects of other states. "This money rightfully belongs to Oregon," said Mr. Clark, "and if elected I will exert my best effort to change the present system so that the Oregon money will be spent at home. Eastern Oregon could be made a country of beautiful and productive homes were it not for the fact that money which rightly belongs to Oregon is spent in furthering reclamation projects of other states."

Mr. Clark also emphasized the necessity of avoiding the diversion of money to reclamation projects of other states. "This money rightfully belongs to Oregon," said Mr. Clark, "and if elected I will exert my best effort to change the present system so that the Oregon money will be spent at home.
