

MILLIONS OF FISH PLANTED IN STATE

Game Warden Reports That 7,247,546 Fry Deposited During Season.

92 FOREST LAKES ARE FED

Angler's Club Hears of Work Done in First Year of Propagation Programme - Protective Laws Now Will Be Sought.

The fish-planting activity of the Game Warden's office will come to an end within two weeks, bringing the total of fry placed in Oregon lakes and streams this year to the splendid figure of 7,247,546.

As the work was only inaugurated last year, the showing for the season opening June 1 of this year is a remarkable one.

Game Warden Finley made a report to the Multnomah Anglers' Club Friday night, showing that 5,847,546 trout fry, and 1,400,000 black bass, croppies and catfish, were released in the waters of the state this year, excepting 400,000 trout fry to be placed within the next two weeks.

Of the trout fry, rainbow, black spotted or cutthroat, Eastern brook and steelhead, 1,425,681 were hatched at the Clackamas and Cascade hatcheries of the United States Government, and planted by Henry O'Malley, Government superintendent. The others, 4,421,865, were handled by the Game Warden's office, which also paid for the work on the fish planted by the Government officials.

Ninety-two lakes of the Cascade Forest Reserve received 110,000 Eastern brook and rainbow trout fry this season, welcoming the first fishes to their waters. Next season Mr. Finley plans to take care of several hundred other lakes which have never been planted. The meeting of the Anglers' Club was an enthusiastic one, nearly 200 members being present, with 30 new members received. In addition to the report from the State Game Warden, W. F. Backus made a report on the condition of the mouth of the Sandy River, with the work accomplished, and a number of recommendations to the Legislature regarding further protection of trout were passed.

Prohibitory Law Urged.

The prohibition of the sale of all game fish in the state, which would include the salmon trout, bass and croppies, was recommended by the club in a resolution passed unanimously. The present law permits the sale of salmon trout, and indirectly the sale of other species in the guise of salmon trout. Bass and croppies are not protected.

No definite conclusion was reached regarding the 12-inch limit on salmon trout during the closed season for other trout, but an effort will be made to have this written into the Oregon game laws. The increasing of the size of fish net meshes, protecting the smaller fish, was also advocated by the clubmen.

W. F. Backus reported that 500 pounds of powder had been used in blasting logs and sand from the mouth of the Sandy River, but that an additional 500 pounds would be necessary to place it in good condition.

Disposition is Shown.

The following are the figures showing the disposition of trout fry by the Game Warden's office during the season to date:

Baker County, 96,700; Benton County, 71,450; Clackamas County, 602,600; Clatsop County, 113,975; Columbia County, 31,575; Crook County, 49,700; Coos County, 4000; Douglas County, 113,100; Harney County, 30,000; Hood River County, 330,200; Jackson and Josephine, 22,750; Klamath County, 68,000; Lane County, 411,250; Lincoln County, 83,000; Lincoln County, 148,450; Marion County, 137,355; Multnomah County, 4000; Morrow County, 39,900; Polk County, 44,850; Tillamook County, 91,450; Umatilla County, 79,850; Union County, 6100; Wallowa County, 148,450; Wasco County, 330,950; Washington County, 88,550; Yamhill County, 111,750; total, 4,011,865.

The figures on the black bass, croppies and catfish activity follow:
Black bass released in streams and lakes of the state, 125,000
Bass recovered from traps, 375,000
Locked sloughs, 400,000
Catfish recovered from traps, 500,000
Total of black bass, croppies and catfish released, 1,400,000
Total of all trout fry, 7,247,546
Total of all fish distributed and to be distributed, 8,647,546

COURT IGNORES ATTORNEY

M. O. Wilkins With City Jail Case Is Refused Argument for Present.

Circuit Judge Morrow yesterday postponed till Monday argument on the writ of mandamus requested by Attorney M. O. Wilkins as a means of forcing Judge Taxwell to give him a hearing on behalf of Thomas W. Cross, a youth who pleaded guilty to larceny. Wilkins secured the case through a trusty in the City Jail after the plea had been made and Judge Taxwell refused to recognize him. In Municipal Court Mr. Wilkins again sought to force his recognition by the court, and again was refused. The sentencing of Cross had been postponed till yesterday, but when it came up, Wilkins was present and sought to address the court, ignoring him, the court asked the District Attorney for a recommendation, which was made to the effect that the sentence again be postponed till Tuesday.

"Will the court indicate at this time whether my appearance will be allowed?" asked Wilkins.

"The matter is closed until next Tuesday," said the court.

"Will the court indicate at this time what its action will be then?"

"The case is closed for the present," replied the judge, with rising firmness.

Officers from Spokane are expected here by Tuesday, with extradition papers for Cross, and his mother, living in Butte, Mont. is also expected. The District Attorney is informed that she has financed the fight being made by Wilkins.

Velocipede Found in River.

CHEWALAS, WASH., Oct. 26.—(Special.)—A railroad velocipede, stolen from the Kelso station three years ago, was found in the Cowlitz River the other day by Ira Johnson, of Ostrander. Mr. Johnson states that the machine, despite its prolonged bath, is still in good condition. Evidently someone was in a hurry to leave town and threw the speeder into the river to cover the theft, as it would have been a white elephant on his hands as soon as it became generally known it had been stolen.

TUBERCLE BACILLI, IN CONVENTION ASSEMBLED, DECIDE TO LEAVE PORTLAND.

Portland Out-Door Sleeping Roof Constructed Under Direction Visiting Nurse Association

COSPER GETS HELP

Volunteer Furnishes Advice on Tuberculosis. CAUSE AND REMEDY GIVEN

Anonymous Contributor Says Sports and Warts Save Horses but Dead Rats and Hot Baths Bane of Human Family.

are attended to with scientific neatness and precision in the concluding paragraph, which says: "Cattle, that milk cows that are shut up in stable artificially heated, overfed and under-exercised, have tuberculosis, while cattle that run out on the sunny hillside eating green grass are not troubled with it."

"There," said Mr. Cosper, as he finished reading the letter, "you have the reason, with no other explanation necessary, for this work. We are trying to make the knowledge common as to what causes tuberculosis and how it should be treated, and this letter shows how sadly many people lack that knowledge. How sadly they suffer for lack of the simplest rules of procedure every nurse and physician knows from experience."

Crossed in Educational. "Of course, we seldom get a letter like this," said Mr. Cosper. "At least, not just like this," he added, laughing, "but we do find an amazing ignorance of one of the most common diseases, and just as that card over there urges people to let the light into their homes, we are trying to let the light into those minds which are dark on this vital subject."

That interest in the exhibit is unabated was shown by the large attendance yesterday. Mr. Cosper and the Visiting Nurse committee being kept busy all day, answering questions and explaining various phases of the fight that is being carried on all over the country. If the attendance maintains its present ratio of increase during the ten days of the exhibit ending next Saturday, Portland will crowd Kansas City for the record attendance in cities west of the Missouri. Kansas City people turned out to the number of 40,000, at a time when politics was not in strong competition for public interest.

Linn County Pioneer Passes.

ALBANY, Or., Oct. 26.—(Special.)—A. T. Crawley, a resident of Linn County for many years and uncle of Mrs. W. C. Hawley, wife of Representative Hawley, died yesterday at the home of his brother-in-law, John Geisendorfer, seven miles east of Albany, at the age of 80 years. Mr. Geisendorfer is a native of Illinois, but had resided for many years in Oregon, having been a resident of this county for several years prior to his death.

Needlework Guild Notice Issued.

All the members of the Portland branch of the Needlework Guild on the late Miss Anna Cremons' personal list, kindly send their contribution to Mrs. A. Bernstein, 776 Overton street, as soon as possible.

HIGH FINANCE HUNTED

Armstrong Townsite Company in Line for Investigation.

REALTY BOARD WILL ACT

B. N. Garrett and H. H. Hoffman, Promoters, Accused of Not Fulfilling Promises to Develop Tract Exploited for Sale.

Investigation by officers of the Portland Realty Board into the affairs of the Armstrong Townsite Company, with offices in the former American Savings & Trust Bank building at Sixth and Oak streets, reveals alleged methods of high finance, according to reports that came to the surface yesterday.

B. N. Garrett and H. H. Hoffman, promoters of the company, entered into a contract with Francis Feller, of Woodburn, for a tract of 225 acres on the Oregon Electric and, it is alleged, offered lots at an average price of \$300. Several persons purchased contracts with the understanding that a large factory would be established at the townsite by the Armstrong Manufacturing Company.

Evidence in the hands of the Realty Board indicates that Mr. Feller had been paid nothing for his land, although sales of lots on contract had been made aggregating several thousand dollars. The promoters advertised that the Guarantee Realty & Trust Company would protect the purchasers of lots by issuing gold bonds, but such a company is not known to the Realty Board.

Official Probe Demanded.

There are many complications in the operations of Garrett and Hoffman and with the evidence gathered by the Realty Board, an official investigation of the concern will be demanded. A letter to the Board from J. H. McNary, of Salem, in regard to the contract to purchase the land from Mr. Feller, the operations of Garrett and Hoffman are referred to as follows: "In this agreement Garrett and Hoffman represented they had a contract with Mr. Armstrong that he should erect a manufacturing plant on said premises to cost \$200,000 and to employ 250 men, and that they were to commence construction of said plant within 90 days after execution of this contract. Ninety days elapsed and no bona fide attempt was made to erect the manufacturing plant. Feller then made inquiry and ascertained that they had failed to comply with their agreement with Armstrong to erect the plant, and that Armstrong did not intend so to do."

Plan Not of Record.

In the meantime, Hoffman & Garrett organized a corporation known as the Armstrong Townsite Company, and caused said plan to be approved and a plat to be made of the town of Armstrong. They afterward advertised extensively the lots in the town of Armstrong by means of a newspaper and that the factory would be built. As a matter of fact, the town plat of Armstrong has never been filed for record. As a consequence of said advertising they have secured numerous contracts with various persons for the sale of these lots.

"These people never paid any part of the purchase price of said lands and Feller took possession of the property. In other words, the people who composed the Armstrong Townsite Company made contracts to sell lots with various innocents, purchases by reason of their advertising in the manner herein mentioned and by advertising that the plat had been made a matter of record, which advertisements and representations were false and fraudulent."

NEW CHURCH IS PLANNED

Pastor of Bethel Congregation Tells of Increased Membership.

The people of Portland are entitled to the truth regarding the standing and conditions of our colored churches, and "that the people may know" this article is cheerfully submitted.

There are three such churches: Bethel African Methodist Episcopal, at Tenth and Everett streets; Mount Olivet Baptist at Seventh and Everett streets and Zion African Methodist Episcopal at Thirteenth and Main.

Each of these churches has its respective pastor and congregation, but the public has never known the distinction between the two Methodist churches. Each thought them both the same denomination and people contributing to "Zion" church have thought they were helping "Bethel."

The rise and progress of this demonstration is a grave mistake, as Bethel African Methodist Episcopal Church has never been before the public soliciting support until this time. Furthermore, Bethel advertising they have Episcopal church is the only child of the Methodist Episcopal Church, having its origin from the Methodist Society of Philadelphia in 1817. Bishop Francis Asbury, of the Methodist Episcopal Church, dedicated the first house of worship for service to these people, and in April, 1816, at a general convention assembled in Philadelphia the African Methodist Episcopal Church was formed.

"There's Music for Everybody Where We Live"

None of us was musically educated, so that with just a piano in the house, we got no real pleasure out of it, no matter how hard we tried. "Occasionally friends would drop in and wake us up a bit, but at other times, that piano was of little service. Most of the time it was a positive nuisance, for in attempting to get some good out of it, we pounded and thumped to the limit. That surely got on my nerves, and what the neighbors thought of it I never cared to ascertain."

And that's the story of the average home, where everybody loves music, but nobody can play. Now this man had been told about

THE PIANOLA PIANO

but, having heard other piano-playing devices, believed it to be of the same stripe—just a mechanical contrivance. One day, however, he was induced to investigate, and to play upon the Pianola. That settled it. Within a week he had a Pianola Piano in his home, and—well, here's what he says today: "At first I felt a little awkward when attempting to entertain our friends. But, pshaw! that didn't last long. The Metrostyle 'put me wise' as to 'time' and expression so that in a month I had a repertoire of nearly fifty pieces that I could play as well as anyone. Wife's just as good at it as I, and say, you ought to see Dad. Everybody wants to hear Well, friend, with that silent piano in your home, what do you think of this man's logic—hadn't you better do likewise?"

The Pianola Piano is the recognized standard for all piano-playing devices, by reason of those exclusive features, the Metrostyle, Themodist, Graduated Accompaniment and Automatic Sustaining Pedal. You owe it to yourself to see and try this instrument before purchasing one of other make. And, remember—the price of the Pianola Piano is no higher than that asked for instruments of distinctly inferior caliber.

Pianola Pianos are imitated, but they cannot be duplicated. There is but one Pianola; it is made by the Aeolian Company and is combined with only six pianos named below, making the group of Pianola Pianos: STEINWAY, STECK, WHEELOCK, STUYVESANT, STROUD AND THE FAMOUS WEBER PIANOLA
