

"Members of the Portland Pacific Coast League Team Will Not Be Arrested for Arson Tonight—They Set No Burning Pace in A. D. 1912"—Abe's Philosophy.

Fitch When we feel like punching a large man in a curious argument, or when a mining stock promoter has almost induced us to buy neatly printed note paper at \$1000 per ounce, the ability to procrastinate with skill is a great blessing.

But, procrastination in all cases is not practical. The time is ripe for an All-Star Pacific Coast League ball team, and, while we would much prefer enlarging tomorrow to care for unfer enlarging tomorrow to care for unfer enlarging tomorrow to care for the state of the smaller insect, and the pity of it is the McNamara talents were wasted on a newspaper.

an All-Star Facilic Coast lengue bail team, and, while we would much pre-fer chlarging tomorrow to care for un-finished routine, the stowing of the baseball child beneath the quilts, minus starry cast and speculation, would be about as lonesome a proposition as a maiden aunt at a dancing life they are next in a moment?

We can't miss the bullseye much further than the gink who chose Harry McArdle as one of the six greatest players in the circuit, anyway, so here goes the oracle:

Catcher, Mitze, Oakland; pitcher, Klawitter, Portland; first base, Det Howard, San Francisco; second base, Ivan Howard, Los Angeles; shortstop, Berger, Los Angeles; third base, Hettling, Oakland; right field, Fitzgerald, Portland; center field, Daley, Los Angeles; left field, Kane, Vernon; utility out

— ballplayers have a girl in the grandstand watching her hero's every move. In real life they have several.

— attention is always riveted. In real life it lays around loose.

And why is it that Jake Stahl, of Boston, is the greatest manager in the world because Snodgrass, of the Glants, muffed a fly ball?

geles; left field, Kane. Vernon; utility infielder. Hosp, Vernon: utility outfielder, Bayless, Vernon.

As batterymen Mitze and Klawitter reign supreme. Del Howard's wonderful hitting gives him the call over Dillon, Rapps and Miller, all of whom are ponderous on the paths. The remaining three infield choices would be almost unanimous if a poll of the experts were to be taken. Kane and Daley, two wonderful all-around players, as attested by the vote cast in the auto award, must be given outfield berths on any starry corps assembled. There may be a wide diversity of opinion over Fitzgeraid, with such sterling gardeners as Carliele of Vernon, Coy of Oakland, Bayless of Vernon and Doane and Krueger of Portland demanding attention. But we're playing the youthful protege of Hal Chara

When Jack Johnson, the herculean prizefighter, last halted in San Francisco a wise jurist, Judge Treadwell, we believe it was, shunted him into the caboose for 30 days for speeding his automobile. Jack, in a peeved declared he would never again visit the place punctuated by the old Spanish don, Portola.

San' Francisco can be considered lucky if the "smoke" sticks to his word. Some other cities we might mention could do worse than purge the gutters of the heavyweight champion and his Caucasian hero-worshipers. There isn't a single person, be he sportsman or mollycoddle, who has a spark of friendship or sympthy for Johnson in his present Chicago imbroglio involving Miss Lucile Cameron, the Minneapolis white girl.

The negro's attitude has been an affont 10 both races, Caucasian and Ethiopian. Whether or not the Federal characterists.
