

WOMEN'S SUFFRAGE AS A BASIS BEFORE DEBATE

Variety of Subjects Are Taken Up and Treated Interestingly—Single Tax Generally Condemned by Taxpayers Who See Deception and Danger in Move.

CONFISCATION IN SINGLE TAX

Innovation Held to Be Dangerous and Unjust.
PORTLAND, Or., Nov. 1.—(To the Editor.)—Much has been written and said during the last three months regarding the so-called "single tax" question, but no real deal more has been left unsaid for selfish reasons by the supporters of the measure and by carelessness on the part of those opposed to the measure. It has been said both pro and con has not settled anything. It has only put the voters to thinking for themselves and the result will be no right at all. It is not all doubt, for the electorate of Oregon is competent to properly decide the question to the best interest of the state and perfectly capable of deciding on Oregon justice do not railroad innocent people to prison or death, neither will Oregon voters favor confiscating the property of one class of people in the interest of another class who are already more prosperous than the class singled out to be victimized. If the people who are engaged in business and those associated with it, are already more prosperous than the class singled out to be victimized. If the people who are engaged in business and those associated with it, are already more prosperous than the class singled out to be victimized.

REGULATION OF UNION PICKETS

Plan is Made That Intimidation of Workmen Should End.
PORTLAND, Oct. 31.—(To the Editor.)—In reference to Initiative Bill 383-389: This is a measure aimed at the pernicious practice of some organized labor unions of intimidating work for whom they please and under conditions which suit them. Threats against life and limb are often connected with "peaceful picketing," and property is not safe from destruction in the hands of pickets. Hence it seems that it is about time some measure of protection be accorded those who are their portion of the taxes of the community, and also those who wish to make an honest living for themselves and a family.

NEED OF HOTEL REGULATION

Bill Providing Inspection Is Defended by Traveling Man.
PORTLAND, Nov. 1.—(To the Editor.)—The Oregonian in its issue of November 1, 1912, in its editorial on the proposed bill to regulate hotels, says: "The writer is a traveling salesman and finds it impossible to stop every day in a brick structure where there are some hundreds of people in the case of fire. In the smaller towns no night clerk is employed, no fire escapes, ropes, ladders or other things are kept in the building, and the guest is left to his own salvation. It is a common occurrence to pick up the Oregonian and read of someone burning up in a hotel or rooming-house fire."

FARMER FEARS THE SINGLE TAX

Belief Advanced That Adoption Would End Prosperity.
EUGENE, Or., Oct. 31.—(To the Editor.)—Most farmers' recent statements recently received are all going to the effect that the single tax would be very misleading. There is a suspicion that these statements originate with very rich men who wish to escape the payment of taxes on their Skyscrapers, breweries, great stocks of merchandise, all manufactures and many other forms of wealth would go free, while the farmer's land would be increased. Common sense shows us, without any juggled figures, that the amount of money to be raised will be the same. If we raise taxes on the land in certain lines the remaining capital must pay higher taxes. The land is all the capital that remains. If single-taxers expect help from increased taxation, it is certain that they are wrong. The farmer who is not helped from franchises, why do they not work for those things to help the common people instead of first inserting a joker to benefit themselves?

FOR A LIEUTENANT GOVERNOR

Creation of New Post Urged as Having Many Advantages.
PORTLAND, Or., Oct. 31.—(To the Editor.)—One of the pending referendum measures that deserves the support of every voter who is interested in improving the character of our state government, is the proposed amendment to section 8 of article V, of the constitution of Oregon, creating the office of Lieutenant-Governor. Under the present arrangement, the Secretary of State becomes Governor whenever a vacancy occurs or the chief executive is unable to perform his duties, and at the same time continues to act as Secretary of State, thereby filling two important offices simultaneously, drawing two large salaries and having two votes upon all state boards and commissions. This arrangement places too great a burden upon one man and also clothes him with too much authority, however capable or trustworthy he may be. Besides this, the plan whereby one man may draw two large salaries is altogether unnecessary and unbusinesslike in the spirit of American government.

BLUE SKY LAW IS CONDEMNED

Belief Put Forward That Measure is Unwisely and Expensive.
GRANTS PASS, Or., Nov. 1.—(To the Editor.)—The proposed bill on the official ballot designated "the blue sky law," and to be voted on at the state election next Tuesday, should be defeated by a big majority vote. It is a misnomer of vicious intent. It is an absolute waste of money and a burden on the very men who are trying to do their duty as taxpayers and citizens, to build up and put into practical use the latent and most wonderful resources of the great state of Oregon. The proposed bill requires that the corporation commission that this bill will install will fall very heavily on men of enterprise, while at the same time the bill states that the commission will create graft and not curb it. I venture the opinion that fully 99 per cent of the proposed bill are in favor of a legitimate and stringent law that would protect innocent purchasers of securities of incorporated companies. But the proposed bill is too heavy and punitive and invalid. It will not only create new capital from coming to Oregon, but it will cause much that is already in Oregon to leave. This is no theory, it is an absolute fact. The proposed bill contains nearly 5000 words, while the "blue sky" law of the state of California contains only 200 words. The proposed Oregon law will require \$25,000 per year to carry it into effect, while the California law requires only one-tenth of this sum to put it into force. The state of California has 70,000 incorporations, while Oregon has only about 1,000. The proposed bill creates the office of "Corporation Commissioner," to be filled, not by the vote of the people of the state, but by the vote of the members of the legislature, one or two assistants and deputies if he chooses to do so. The deputies are to be appointed by the legislature. The Corporation Commissioner may appoint one or two assistants and deputies if he chooses to do so. The deputies are to be appointed by the legislature. The Corporation Commissioner may appoint one or two assistants and deputies if he chooses to do so.

DO NOT PUT AWAY THE NOOSE

Capital Punishment Necessary to Protection of Society.
DALLAS, Or., Oct. 30.—(To the Editor.)—The initiative measure to abolish capital punishment which is to be voted upon next Tuesday, is of paramount importance to the people of this community. It is a measure that is being urged to reflect thoughtfully and vote their convictions. The initiative measure to abolish capital punishment which is to be voted upon next Tuesday, is of paramount importance to the people of this community. It is a measure that is being urged to reflect thoughtfully and vote their convictions.

WOMAN'S VOTE AGENT OF GOOD

She Will Prove a Power Against Corruption, Says Suffragist.
MEDFORD, Or., Nov. 2.—(To the Editor.)—Will you permit me to call your readers' attention to a point which I have not seen mentioned in the many letters from the people on the question of women's suffrage? My reference is to the mental cause that leads most of the opponents of women's suffrage to sincerely believe that the measure is a selfish one for their opposition. I mean by "most" of the opponents those who have come out in the press, as I do not believe in the silence of the vast majority of the people. My reference is to the mental cause that leads most of the opponents of women's suffrage to sincerely believe that the measure is a selfish one for their opposition. I mean by "most" of the opponents those who have come out in the press, as I do not believe in the silence of the vast majority of the people.

SINGLE TAX WILL NIP FARMERS

Arguments Submitted to Show Effect on Cost of Living.
PORTLAND, Oct. 31.—(To the Editor.)—The absurdity of the arguments of the single taxers is also shown by their statements that their scheme will induce the landless to leave the cities and go "back to the country." When they attempt to stamp all persons who are taxed and pay all taxes on land and thus reduce the price, the land buyer will have to accept the burden of these taxes. But they also contend that the burden of the taxes will be shifted to the workers in more factories and other industries to enjoy this exemption, thus increasing the tide to the city of young men discouraged by the high cost of living which is induced by high taxes on land. Everyone knows that the greater part of this high cost is caused by the coming to the city of an increasing number of young men from the farms and by their numbers increasing the demand for and the price of rents and the demand for food, clothing, etc., and thus keeping the high cost of living in the city.

WOMEN WILL HELP CONDITIONS

Given the Ballot She Will Prove Power For Right.
PORTLAND, Oct. 30.—(To the Editor.)—The citizens are about to decide by their ballots the greatest issue of the day, I believe. Shall we men extend to our mothers, wives and sisters the right to vote? We are going to vote on the measure on the ballot "300 X Yes," because we are absolutely convinced that by extending the right to vote to women we can make no mistake; that the possibility of establishing sweatshops in our community; will prevent the children from being commercialized by our great child labor industries; our laws concerning corporations, and the white slave will find his occupation gone, because our good women are sure to inaugurate a crusade, backed up a step to his damnable system. We have no hesitation in predicting the foregoing beneficial results, and would urge the fair-minded citizen to vote "300 X Yes."

REALTY OWNERS AND SINGLE TAX

Scheme Would Throw Heavy Burden on Investors to Live In.
PORTLAND, Oct. 29.—(To the Editor.)—There is probably no city in America today where the people are so heavily obligated for real estate as in Portland. These people earned their money to invest in this real estate just as honestly as anyone could. They bought it under our present system of taxation and it seems to me that it is up to the honorable citizens of Portland to keep good faith with them just as much as if they had invested their money in a mortgage, stock of merchandise, manufacturing plant or in

SINGLE TAX AND CHEAPER LAND

Adoption of Plan Would See Fall in Property Values.
PORTLAND, Oct. 30.—(To the Editor.)—Can you give us some additional facts on the single tax? I understand it. Suppose a person has bought a lot on Washington street and paid \$200,000 for it and erected a \$125,000 building on it. The lot is worth \$125,000 and the building is worth \$125,000. Under present conditions there is a tax levied on land, building and merchandise, on \$250,000. Under the single tax, the taxable value is taken away, the same amount would have to be raised on half the value, so the tax rate would be 44 cents per \$100. But in addition to this there would be an added "graduated" tax of 30 mills, making the total tax on that land 74 mills. Now it occurred to me that property which is taxed in dollars and cents, its value would be \$100,000. If it did not, what would the Assessor use as a basis of fixing the rate? If it was \$100,000, the taxes come from, for the exempt property could not be made to pay? And if the Assessor arbitrarily fixed a value on land, could not an owner sue the court and prove that land taxed at over 70 per cent was valueless?

OPPORTUNITY TO KEEP OUT OF PRISON

Charge Made That Leniency Does Not Carry Over to Next Term.
CORVALLIS, Or., Oct. 31.—(To the Editor.)—The bill to abolish capital punishment in Oregon ought not to carry for the following reasons: The wife murderer, the disappointed lover, the raper of little girls and of aged women and their murderers will all go practically free in Oregon if this bill carries. The Governor's policy toward felons, treating them as men in whom remains some manliness, would make it easy for even the most desperate criminal to shortly regain his freedom, in an honor camp. If not in an honor camp, he would be sent to a reformatory where he would be treated as a tender, probably better treatment than the world affords.

Charge Made That Leniency Does Not Carry Over to Next Term.
CORVALLIS, Or., Oct. 31.—(To the Editor.)—The bill to abolish capital punishment in Oregon ought not to carry for the following reasons: The wife murderer, the disappointed lover, the raper of little girls and of aged women and their murderers will all go practically free in Oregon if this bill carries. The Governor's policy toward felons, treating them as men in whom remains some manliness, would make it easy for even the most desperate criminal to shortly regain his freedom, in an honor camp. If not in an honor camp, he would be sent to a reformatory where he would be treated as a tender, probably better treatment than the world affords.
