

WILSON DECLARES HE HAS NO DOUBTS

Republicans Called Timid, Progressives Chided for Seeking New Ways.

ISSUE CLEARLY MADE UP

Democratic Promise to "Go Forward Without Postponement or Experiment or Confusion" Made in Formal Statement.

NEW YORK, Nov. 2.—The following statement by Governor Wilson, Democratic candidate for President, was issued today through the headquarters of the Democratic National committee: "The issue is now clearly made up and goes to the people. I, for one, do not doubt the verdict. The voters must take one or the other of three choices.

Three Alternatives Offered. "First, entrust the Government to the regular Republican party again, which always begins a campaign with promises of action and then always at the end draws back and warns against change, dreading to attempt anything at all for fear it should not satisfy those who control credit and whom it has so long permitted to act as trustees for the people in every matter of policy.

Democratic Promise Defined. "Third, go forward without postponement or experiment or confusion to effect the reforms that the whole country waits for and that all parties profess to be necessary through the instrumentality of a great and undivided party, clear and explicit as to its purposes, willing to effect them by the ordinary process of legislation, willing to be guided by the common common sense of the Nation as a whole, the plain people with the rest, regardless of every interest, the little as well as the big, because connected with every interest by sympathy and comprehension, and soberly determined to obey the voice of thoughtful men everywhere, by a carefully considered course of moderate yet courageous reform—the mere statement of the choices is a prediction. We shall trust ourselves and let the little groups of discoverers who would have us rest our powers in their hands, in their turn and at their leisure, to trust us also."

Candidate Makes Last Appeal. "What was termed the 'final message' of Woodrow Wilson for the campaign was read in many cities throughout the country today. It declared that the next four years would see how the country was to solve the questions of the tariff trusts, banking and currency system, the conservation of natural resources and the health of the people, the development of transportation, the firm establishment of a just foreign policy and the extension of the assistance of the Government to many programs of uplift and betterment. It spoke of the tariff particularly, regarding which Governor Wilson said: "It must be handled very prudently, so that no honest toil may be interrupted, no honorable or useful enterprise disturbed; must be dealt with by slow stages of well-considered change—change whose object shall be to restore and broaden opportunity, and destroy nothing but special privileges and unwholesome control. Those who handle it, therefore, must be men who understand the general interest and have devoted themselves to serving it without fear or favor."

People Must Be Unhindered. "The Government must employ its powers and spend its money to develop a whole people and a whole continent, and at the same time keep them free and alert and unhindered, its eye always on the common use and purpose, its thought constantly of what will happen to the average man of what will be prepared for the next generation.

Baker to Solve Problem
Commission Form of Government to Live or Die Monday.

BAKER, Or., Nov. 2.—(Special.)—One of the most spirited city campaigns that the city has had practically closed tonight. On Monday Baker will hold a city election.

CARD OF THANKS.
To the many kind friends whose sympathy and assistance has been such a comfort to me during the illness and death of my beloved husband, I wish to express my heartfelt thanks to
MRS. ROBERT PERRY.

...counselman form will be made. The fight at first showed but little indication of becoming a hot one, but for the past week or 10 days has been waged with considerable warmth and tonight ended with not a little feeling being displayed by the advocates of both sides.

Baker has been under the commission form for two years, and while there are those who feel entirely satisfied with the results of the two years, there are others who feel that the old form would be the best. The great fight against the present form has been waged by those citizens who style themselves the Taxpayers' League.

SALEM, Or., Nov. 2.—(Special.)—Declaring that the office of state printing expert before the present administration was useless, but under the guidance of R. A. Harris, the present expert, it has become a drag on the taxpayers through petty raids on the treasury, which have been made by Harris, aside from drawing his regular salary, State Senator John A. Carson today announced that he intends to introduce a bill in the next Legislature to abolish that office.

WILSON'S REPLY ASSAILED

"This Is No Answer at All," Statement Says of Contention That Republicans in New Jersey Blocked Efforts.

OYSTER BAY, N. Y., Nov. 2.—Theodore Roosevelt issued a statement today devoted largely to answering Governor Wilson's remarks on the trust question in his speeches last Thursday night at Madison Square Garden.

"In view of Wilson's insistence upon the importance of the trust problem," says Colonel Roosevelt, "I desire to call attention to Wilson's record on the trust question as Governor of New Jersey and to his previous attitude."

"Colonel Roosevelt quotes from Wilson's speeches when running for Governor and later: "In his first message to the Legislature, January 17, 1911," the statement continues, "Governor Wilson renewed with emphasis his promises to deal with the New Jersey trusts. He described some as having 'slipped out of control of the University law' that gave them leave to be, and can make and unmake them at pleasure, and declared: "We have now set ourselves to control them soberly—but effectively—to bring them within the regulation of the law. There is a great obligation, as well as a great opportunity, an imperative obligation from which we cannot escape if we would. No man who wishes to enjoy the public confidence dares hold back and if he is wise, he will not resort to subterfuges!"

Opportunity as Governor Neglected. "The Supreme Court of the United States has solemnly declared that the Standard Oil and Tobacco trusts have been guilty of fraudulent and unlawful conduct which the New Jersey statute declares to be a misdemeanor," says Colonel Roosevelt. "Wilson now says that he wishes to proceed against the directors and managers of these trusts individually. For 22 months he has had, as Governor of New Jersey, ample opportunity for thus proceeding against them, but he has never lifted his hand to take it."

"Wilson has declined to give the Legislature a lead in this matter and when these members of the Legislature gave him a lead he still declined to lift a finger in its aid. And, naturally, in view of this attitude of passive opposition on his part, the Legislature failed to act."

Wilson's Reply Criticized. "In response to these questions, Mr. Wilson telegraphed to one of his supporters, as follows: "I authorize you to say that the Republican majority in the Legislature made a revision of the corporation laws impossible, and no New Jersey official could prosecute or propose a dissolution for breach of Federal statutes."

"This is no answer at all. Wilson himself stated that the Legislature did with surprising ease what he asked and that Republicans and Democrats members actually introduced bills such as were demanded by Wilson's explicit promises."
