

# WAR GAME PLAYED OUT, SAYS JORDAN

## Educator Predicts Civilized Nations Will Make End to Conflicts of Arms.

### BURDEN IS ON POSTERITY

Chief Loss Regarded as Sapping of Nation's Virility Through Killing of Best Men—Japanese Strength Gained in Peace.

KANSAS CITY, Nov. 9.—Whatever the noise and bluster and apparent provocation there will never be another great war in Europe. The game is played out.

This declaration was made here tonight by David Starr Jordan, president of Leland Stanford University, addressing the Knickerbocker Club.

Dr. Jordan declared that "war is world sickness," which "must spread from one part to all the others." He spoke of the degeneration of nations through the loss of their best citizens, the young and virile, in war, and traced through history the wreaking of empires. Japan's terrible strength as shown in the war with Russia was not due to constant practice in warfare, he said, but rather to centuries of peace when the race had grown strong through a struggle for existence, which had eliminated the weak instead of the strong and courageous.

### Canadian Boundary One of Peace.

"International peace," he said, "means a condition in which the boundary line between nations is not a line of suspicion and hate, but a convenience in judicial and administrative adjustments."

"Such a boundary line is the 4000-mile line that separates Canada from the United States, an undefined border which for nearly 100 years has not known a fortress, nor a warship, nor a gun."

"An armed peace by which nations are supposed to be frightened into acquiescence is in the long run likely to be as ruinous as war. The war has ceased; its cost still goes on."

"A gigantic National debt involves an invisible empire which shall direct and control credit. The foundation of such an empire was laid a century and a half ago by the banker, Meyer, called Rothschild, of Frankfurt-on-the-Main. From the battle of Waterloo until his death, Nathan Rothschild was the actual ruler of Europe."

Cost Shifted to Posterity. "To control it is not necessary to own. As one may control a railway without owning it, so one may control a nation. The war debt of Europe today approaches twenty-six thousand millions of dollars. The system of laying burdens on posterity," says Goldwin Smith, "removes the last check on war."

"By means of indirect taxation the people never know what they are paying. By means of the war debt the cost is shifted to generations yet unborn. We are not only living beyond our means, but beyond the means of the fourth generation."

"Twelve millions of dollars yesterday was the standard cost of a dreadnought; today it is \$15,000,000, and a few more years will raise this to \$25,000,000, unless, indeed, by that time such vessels can be had for their worth in old iron."

"It is easier for a nation, as for a man, to fall into the lead of its associates than to strike out for itself toward thrift, honesty and prosperity. It cost us 500,000 lives of young men to get rid of slavery. I saw not long ago in Maryland two or three hundred young men. There are some 12,000 acres filled with them on the fields of the South. This number was the best the Nation could bring. The gaps they left are filled to all appearances. But a new generation has grown up of men and women born since the war. The men that died in the weary time had better stuff in them than the father of the average man today."

Benjamin Franklin said "Wars are not paid for in war times; the bill comes later."

### CHURCH YEAR PROSPEROUS

First Congregational of Oregon City Now Out of Debt.

OREGON CITY, Or., Nov. 9.—(Special.)—At the meeting of the First Congregational Church Thursday night the report of the treasurer, Mrs. T. L. Sherman, showed the church had paid all of its debts and was now in good financial standing. The reports from the clerk, Joseph Cook, showed a substantial increase in membership, over 70 having been taken in during the past year. The trustees reported that a fund for extension work had been established. It was recommended that a budget for the coming year be established.

The Sunday school report showed a remarkable gain in membership and gifts. There has been almost \$100 added to the church's treasury. Reports from the three women's societies show steady activity, with good returns for the labor involved.

### Had Serious Lung Trouble—Now Well

Somehow, there exists a vast amount of scepticism as to the possibility of curing Consumption. We state now but facts, and are sincere in what we assert. If we were afflicted with Tuberculosis, we should do precisely what we ask others to do—take Eckman's Alternative promptly and faithfully. The reason we should do this and warrant we have for asking all Consumptives to take it is that we have the reports of many recoveries, one of which follows:

1619 Susquehanna ave., Phila., Pa. "Gentlemen: For two years I was afflicted with a fearful cough, which no medicine I had taken could alleviate. It was at this time, March, 1909, that I learned of and started taking Eckman's Alternative. In a short time my cough was gone and I was pronounced well. Since that time I have had two slight attacks of pneumonia and I have recovered to no other medicine to effect a recovery.

"I am at present in excellent health and feel that as long as I can obtain Eckman's Alternative, I have no fear of Consumption. I cannot speak too highly for the good it has done."

HOWARD L. KLOTZ, Eckman's Alternative is effective in Bronchitis, Asthma, Hay Fever, Throat and Lung Trouble, and in upholding the system. Does not contain poisons, opiates or habit-forming drugs. For sale by The O.W. Drug Co. and other leading druggists. Ask for booklet telling of recoveries, and write to Eckman's Laboratories, Philadelphia, Pa., for additional evidence.

### WIRELESS CATCHES COLON

New Arlington Station, With Half-Power, Spans 1780 Miles.

WASHINGTON, Nov. 9.—Direct wireless communication between Colon and the new Arlington wireless station, a distance of 1780 miles, was established today. Colon replied to a message by radio: "Get you fine." Unrehearsed replies also were received from Guantanamo, Cuba, 1200 miles distant, and from Key West and St. Augustine.

Wireless officials believe they heard one of the Pacific Coast stations answer their call, but it was not distinct enough to identify. The battleship Utah, with the Atlantic fleet on the southern drill grounds off the Virginia Capes, sent back word she got Arlington clearly. The Arlington station is still working
