will be needed by the city at future periods in its development.

This will make it possible, if the bill is passed, for the Greater Portland Plana Association, working through the city, to pave the way for street clearances and other changes that are to come about in future in consonance with the plan, and to do so much more economically than if the condemnation could be made only as the city was in a position to carry out the improvement immediately.

The regular monthly meeting of the association will be held at the Commercial Club Wednesday, and at that time general plans for the work of the coming year will be presented by the various committees.

We wish to impress upon you the sincerity of this sale. We are giving you the facts -nothing but facts. 'Tis true most firms keep from the public any financial difficulties; pride holds them back—into bankruptcy and disgrace. But it is different here. The Goodyear Shoe Co. is managed by too able business men to work along such narrow-minded lines. We are heralding our troubles far and wide, for we have the merchandise, thousands upon thousands of dollars' worth of high-grade shoes load our shelves and fill our basement. But we must have the cold cash-that's the story. That's why this gigantic sale is launched, in our efforts to protect our good name and save the store from hounding creditors.
