in the case of the American Livestock Company, which he now has in hand. District Attorney Evans was yesterday instructed by the Attorney-General, apon complaint of State Insurance Commissioner Ferguson, to begin an investigation into the affairs of the American Livestock Insurance Company, of which John P. Shorey is president, and which recently went into the hands of a receiver with about \$10,000 owing in various liabilities.

The company was organized while Frank Benson was acting Governor of the state, upon a basis similar to that of a fraternal insurance association. About a year ago it was refused a renewal of license on the ground that while it was organized on the lines of a fraternal insurance company, it was merely conducting a livestock insurance business.

It is alleged that at that time the officers of the company announced their intention of organizing on a new basis as a stock company, but that this was never done, and that up to the time of its going into the hands of a receiver, it continued to carry on business in the state. It is further alleged that for some time after the company itself ceased activities, its president or
