

PRESIDENT DINES OREGON SALMON

Table at White House Graced by Famous Royal Chinook Sent From Oregon.

"DELICIOUS," IS VERDICT

Feast of Wilson Family Not Enjoyed Simultaneously With Celebration Here, Owing to Mis-carriage of Invitation.

OREGONIAN NEWS BUREAU, Washington, March 15.—Royal chinook salmon graced the Presidential table at the White House tonight. President Wilson and members of his family partook of one of Oregon's most famous viands, to their great delight and to the gratification of Senator Lane, who had especially urged the President to join all Portland in celebrating Salmon day.

For a time it was reported the President had rejected this gift of the Oregon-Washington-California Salmon Packers Association, and the fact that no trace of the fish could be secured at the White House last night created considerable mystery. This was cleared up tonight, however, by Private Secretary Tumulty, who declared the President had partaken of the royal chinook and pronounced it "delicious."

This case of Oregon salmon was received at the White House several days ago, and about the time of its arrival Senator Lane addressed a letter to the President, telling him about the delicious qualities of the Oregon fish and urging him to have it served Friday night. In the press of business at the White House Senator Lane's letter did not reach the President in time, and not until today did the President realize that he was too late to celebrate simultaneously with Portland. On Senator Lane's assurance, however, he had the salmon unpacked and it was served at dinner tonight.

Senator Lane and several newspapermen made frantic efforts last night to ascertain what had happened to the Oregon salmon at the White House, but all inquiries were unavailing. It is not good form to ask the President what is served at his dinner table. The White House officials closed before the dinner hour, so none of the White House clerks were advised, and when eventually the White House steward was reached he diplomatically declared that he did not know what had been served for the President's dinner.

Renewed inquiry at the White House this morning also failed to bring light as to the status and whereabouts of the case of Oregon salmon. Those inquiring had been advised that the Oregon salmon with other mysteries of great moment, when Secretary Tumulty tonight cleared up everything.

ARTESIAN WATER FOUND

Farmers Near Prineville Much Elated Over Discovery.

PRINEVILLE, Or., March 15.—(Special.)—Farmers in the vicinity of Prineville are much elated over striking artesian water in the Crooked River Valley. The water, which is about four miles west of Prineville, has struck a strong flow at the depth of 200 feet. It threw the water from a five-inch casing 15 feet above the surface of the ground. The well-drilling outfit which put down the Statton well has already been engaged for several months' drilling for artesian water in this vicinity. It is likely that several other outfits will be brought into the country within the next few days.

The indications are that within the next few months several thousand acres of Crooked County land which has hitherto been dry-farmed will be irrigated from artesian wells. The application of water to this land will increase its value several times, and Prineville will be the largest irrigated territory in the state.

JACKSON ADAMS IS GUILTY

"Unwritten Law" Does Not Sway Jury in Trial in Astoria.

ASTORIA, Or., March 15.—(Special.)—After being out about four hours, the Circuit Court jury in the trial of Jackson F. Adams returned a verdict at 9 o'clock tonight, finding the defendant guilty of murder in the first degree. Adams was charged with the murder of Clinton B. Chamberlain, known as "Barney" Chamberlain, on the evening of February 18. When arrested Adams asserted he shot Chamberlain because the latter broke up his home.

The unwritten law was expected to figure in the trial, but did not, as the defense introduced no testimony, even the defendant not taking the stand. From the first ballot the jury was unanimous in a verdict of guilty, but until after receiving additional instructions from the court some of the jurors favored the second degree.

Ten days were allowed the defense in which to file a motion for a new trial and sentence will not be pronounced until the expiration of that time.

WASHINGTON, March 15.—President Wilson received with regret today a letter from Richard Olney, of Massachusetts, Secretary of State under President Thomas Nelson Page, of Virginia, declining the offer of the post of United States Ambassador to Great Britain.

Desiring to fill that post as quickly as possible, the President probably will make an appointment within a few days, but it was said he had not yet decided upon any individual.

He is said to favor a man of literary as well as diplomatic reputation. Though no names came forward conspicuously today, it was thought the President might choose a man hitherto mentioned for other European posts. These include David R. Francis, of Missouri; Thomas Nelson Page, of Virginia; Augustus Thomas, of New York; Judge George Gray, of Delaware; William Church Osborn, of New York, and Edwin Aldrich, president of the University of Virginia.

"None whatever," was the reply of Foreman Wirth, when, at 6 o'clock, Judge Porterfield called the 12 men and asked them what progress they were making.

A 12:15 o'clock Judge Porterfield sent the jury to bed, after announcing he would hold court open tomorrow to receive any verdict that might be returned. The foreman of the jury told the court no agreement was in sight.

MOVE TO SOIL AIM

Jewish Immigrants Urged to Engage in Farming.

ONE COLONY ESTABLISHED

Hebrew Agricultural Association of Oregon Sends Advance Guard to Settle Lands in Eastern Part of State.

A movement on the part of leading Jews all over the country to encourage their co-religionists to settle on farms has reached Portland.

An organization to encourage the tilling of the soil by Jewish families was formed last year under the name of the Hebrew Agricultural Association of Oregon.

A mass meeting and election of officers will be held next Sunday at the Talmud Torah Synagogue, Sixth and Hall streets.

In an interview David N. Mosesohn, secretary and general counsel of the organization, said that the purpose of the association was to encourage Jewish heads of families to secure farms or file on Government land, with the ultimate object of obtaining their livelihood from the products of the soil.

"Back to the soil" is the motto that has gone forth, and its echo has reverberated throughout America. In the development of our farm lands lies the independent future of the man with small means but with a desire to work.

"We expect considerable immigration with the opening of the Panama Canal and are preparing to aid in the development of the state by encouraging the settlement of families in Central and Eastern Oregon and other localities where settlers are desired.

Last Sunday we sent the advance guard to Central Oregon, all of whom are self-supporting, and while we expect they will encounter hardships, they will be encouraged and imbued with the proper spirit. They took with them a teacher, who will immediately start a school for their children."

Everyone interested is cordially invited to attend the meeting next Sunday.

BULL MOOSE IS ANGRY

CHARGE OF UNFAIRNESS MADE AGAINST CLERK'S OFFICE.

T. B. Neuhausen Says Registration Is Made Hard for Progressive by Wrong Information.

Progressive leaders in Portland declare that members of their party have had difficulty in the last few weeks in registering at the Courthouse and T. B. Neuhausen, state chairman, said yesterday that several complaints already had been made to John B. Coffey, County Clerk, that the registration process was being made difficult.

Mr. Coffey said last night that his office has strict instructions to be attentive and courteous to everyone and that no discriminations are made because of a prospective voter's party affiliations.

The particular case upon which Mr. Neuhausen bases his complaint, he says, occurred yesterday morning. Mrs. Edward O'Neill, of East Thirtieth and Simpson streets, together with her mother and seven other women, registered at the Courthouse, still later. All of them gave their politics as "Progressive."

"Well, if you register as Progressives, you can't vote on a commission charter," Mr. Neuhausen avers the clerk informed the women.

Whereupon they changed their politics to "Republican."

Mr. Neuhausen says also that members of the Progressive party in the last few weeks have gone to the Courthouse to change their registration, but that they have been informed that this procedure is unnecessary if they voted last fall.

"What the clerks should say is that they don't need to re-register unless they want to change their politics," contends Mr. Neuhausen.

Mr. Coffey says that he has no knowledge of such incidents. "We don't care what a person's politics is when he or she comes to register," he said. "I won't tolerate any discrimination if I hear of it. I don't believe the clerks in my office will discriminate against any party fully."

ELEVATOR CASE DECIDED

JUDGE BELL RULES IN FAVOR OF EILERS MUSIC HOUSE.

RULING IN CASE BROUGHT BY FACTORY INSPECTOR IS 'FREIGHT LIFT' AMPLY SAFEGUARDED.

A decision of interest to manufacturing concerns throughout the city and one which, had it been settled in favor of the State Commissioner of Labor, would have meant an increase in the cost of operating freight elevators, was rendered by Judge Bell last night, when he ruled in favor of Eilers Music House against the department of factory and workshop inspection in the freight elevator test case.

This case was brought by the department of factory and workshop inspection against Eilers Music House for maintaining a large freight elevator in their piano factory not protected with cage and gate, as demanded by the factory inspector.

Representative manufacturers of the city were called to testify, including W. H. McMonies, president of the Manufacturers' Association of the Northwest; Henry Albers, of Albers Bros. Milling Company, and the superintendents of Marshall-Wells Hardware Company, the Crane Company, S. C. Oliver, vice-president and manager of the F. Harmon Furniture Company, and architects. Finally court was adjourned and a trip of inspection of Eilers' piano factory was made.

Representative manufacturers of the city were called to testify, including W. H. McMonies, president of the Manufacturers' Association of the Northwest; Henry Albers, of Albers Bros. Milling Company, and the superintendents of Marshall-Wells Hardware Company, the Crane Company, S. C. Oliver, vice-president and manager of the F. Harmon Furniture Company, and architects. Finally court was adjourned and a trip of inspection of Eilers' piano factory was made.

By the effect that an elevator must of necessity be constructed to meet the reasonable requirements of the particular manufacturing purpose for which it is employed, Judge Bell held that it was shown that every inclination existed on the part of manufacturers to adopt means to insure safety and that in particular the Eilers factory elevator was safeguarded to a greater extent than the average and could not be arranged as demanded without interfering with the reasonable usefulness of same.

So far as the Federal statutes go there is no possibility of prosecuting criminally the brokers with whom Baker gambled.

The bank itself is fully protected against loss by its contract with an insurance company, the San Francisco manager of which said today that he did not know whether civil suit would be brought against the brokers for recovery of the sums lost.

The deputy United States Marshals were removed from Baker's home late today, when bonds in the sum of \$10,000 were filed. This sum, which was put up by eight friends in equal amounts, is twice the amount of bail fixed by the United States Commissioner.

Baker's condition was said to be considerably better tonight.

MAKES RHEUMATISM PROMPTLY DISAPPEAR

Chronic, Crippled-Up Sufferers Find Relief After Few Doses of New Remedy Are Taken.

It is needless to suffer any longer with rheumatism, and be all crippled up, and bent out of shape with its heart-wrenching pains, when you can surely avoid it.

Rheumatism comes from weak, inactive kidneys, that fail to filter from the blood the poisonous waste matter and uric acid; and it is useless to rub on liniments or take ordinary remedies to relieve the pain. This only prolongs the misery and can't possibly cure you.

The only way to cure rheumatism is to remove the cause. The new discovery, Croxone, does this because it neutralizes and dissolves all the poisonous substances and uric acid that lodge in the joints and muscles, to scratch and irritate and cause rheumatism, and then it cleans out and strengthens the stopped-up, inactive kidneys, so they can filter all the poison from the blood, and drive it on and out of the system.

Croxone is the most wonderful medicine ever made for curing chronic rheumatism, kidney troubles, and bladder disorders. You will find it different from any other medicine. There is nothing else on earth like it. It matters not how old you are, or how long you have suffered, it is practically impossible to take it into the human system. Three doses, and you will find relief from the first few doses, and you will be surprised how quickly all your misery and suffering will end.

An original package of Croxone costs but a trifle at any first-class drug store. All druggists are authorized to sell it on a positive money-back guarantee. Three packages, one day for a few days is often all that is ever needed to cure the worst backache or overcome urinary disorders.
