CHRISTIAN UNIONS ALOOF

Catholic Workmen at Bruges Decide Not to Join Socialists, and It Is Believed Half of Men in Country Will Work.

HERSTAL, Belgium, April 12.—Employers here, who are opposing the strike, have decided to aid their hands in participating in the demonstration in favor of manhood suffrage.

The "Christian" Unions, as the Catholic workmen's associations are known to distinguish them from the Socialist trade unions, at Bruges have decided not to join the strike.

Billboards all over the city of Charleston were covered today with great red posters, on which was printed the Socialist's call to the men to "strike for manhood suffrage and the equal vote."

MAN SAVES WIFE'S ESCORT

Husband, After Being Hit by Fellow, Holds Off Resentful Crowd.

Knocked down by George Eldredge, a bootmaker, whom he found upon the street with his wife, J. H. Carruthers, a florist, last night in a dispute between his assailant and a mob which threatened Eldredge violence, and assisted in Eldredge's arrest on a charge of assault and battery, being himself held as a witness.

Mr. Carruthers, who had separated from his wife and is taking care of their children, on seeing his wife with Eldredge at Fifth and Washington streets, asked Eldredge not to appear in public with his wife until they could get a divorce.

The crowd waiting for the streetcars at the terminal point heard the conversation and saw the blow and started to encircle Eldredge, who broke away and ran north on Fifth to Stark street, then east to Fourth street, where he was overtaken by the crowd.

Police Sergeant Roberts escorted them to the police station, where a walking delegate of the Bootmakers' Union furnished Eldredge with a car. Carruthers passed part of the night in the station.

dream by the news of the Pope's relapse.

The Pontiff suffered from a high fever which registered 103 degrees. It gradually decreased to 98, but rose again, and at midnight was reported to be 102.

Pilgrims Are Disappointed. About the time the relapse occurred nearly 1000 pilgrims from the diocese of Treviso, led by their bishop, were received by the papal secretary of state, Bishop Longhin, in presenting the pilgrims, said they were grieved that their most ardent desire and the chief object of their pilgrimage—to see the holy father—was impossible.

schedule is founded on a most equitable basis.

"This is a party measure and I believe that most of my Democratic colleagues want to see this schedule pass the House as it came from the committee. Let us keep the party united."

Representative Rainey, of Illinois, appealed to the caucus to stand by the Democratic Administration.

"We have been fighting Republican Presidents," he warned the Democrats, "and we ought not to strike a blow at a Democratic President. President Wilson has announced that the provision in this bill was presented as a policy of his Administration. He has broken the icy barrier between the White House and the House of Representatives, which had existed for more than 100 years, by his speech from the clerk's desk of this House. Can we afford as Democrats to defeat the first policy he has announced—the policy of a three years' gradual reduction of the tariff on sugar?"

NO SET BACK TO TRADE

SATISFACTORY PROGRESS REPORTED IN MOST LINES.

Very Favorable Condition of Wheat Crop Encouraging Development of Week--Road Earnings Grow.

NEW YORK, April 12.—Dun's Review says: General trade is quiet for the time being, many railroads and industrial centers not having as yet fully recovered from the effects of the Western floods. Satisfactory progress, however, is reported at many points.

The readjustment of the tariff, now in progress, produces more or less hesitation in some trades, but in spite of these unfavorable factors, there is no indication of a permanent setback in business.

An encouraging development of the week was the very favorable report on the condition of winter wheat, which is far above the average.

Bank clearings this week were 8.0 per cent under those of last year, but 3.7 per cent above 1911. The prevailing dullness in the speculative markets no doubt accounts in part for the decrease.

Railroad gross earnings in March were 5.5 per cent better than last year. Pig iron output during March showed a falling off from February, while the Steel Corporation's unfilled orders at the end of March were 187,578 tons less than at the close of February. The copper situation has improved materially. Better weather favors building operations. The drygoods markets are experiencing a steady, though quiet trade. Lumber shows steady improvement.

Foreign Commerce Maintains Its Impending Dimensions, Statistics for the Latest Week at New York Showing a Total Trade in and out of \$23,189,413, against \$26,227,770 last year, and \$24,488,872 in 1911.
