Bloomington, Mich.—"I had sores on my legs, back, on my head and on the tips of my fingers. They looked like little boils and had pus in them. They started with a redness, itching and burning pain. They opened and formed a scab and would spread to the size of a silver dollar. My mother had to cut off my hair because of the itching and burning pain. My mother had to soak the clothes off of me. The clothing irritated my body. I had to go bare-footed for four weeks because I could not get on a shoe or a stocking. I could not get them off. The trouble started two weeks before my mother tried Cuticura Soap and Ointment. I was a little better in three days and was entirely cured in six weeks. (Signed) Miss Olive Dalton, Sept. 23, 1912.
