WILSON ISOLATED

President Denies Himself to Company and Says He Will "Loaf" Until Tuesday.

CIRCLE BROKEN

Jessie Returns With Her Flance but Miss Margaret Is Still in Wisconsin-Golf on Schedule

for Monday.

CORNISH, N. H., July 5. — President Wilson, always fond of simplicity and seclusion when seeking rest from official duties, found in his Summer home here, which he saw for the first time today, the extreme of isolation and

Arriving at noon at Harlakenden house, which has been leased for two years as a Summer capitol, the President saw nobody, in fact, but members of his family.

Absolutely no one got inside the big gate, a quarter of a mile from the house, to catch a glimpse of the President. The evening was spent at home in the shadows of oil lamps and can-dles, for there are no electric lights in Cornish.

Single Cheer Is Heard. The President's arrival was inconspicuous and attracted little attention. Windsor, Vt., the nearest town of any size to Cornish, contributed a handful of people out of its 2000 popula-

with difficulty as the President's machine ploughed through the loose sand and left in its wake an atmosphere thick with clouds of dust. The weather was hot and sultry most of the day, but cooled somewhat toward night.

Manufacturers. After this interview was over I was instructed by Mr. Van Cleve to return to New York and to take complete charge of the field work and to continue the lobby work until further orders."

Tour Reveals Own Home. The President was taken on a sight-seeing tour of his home immediately on his arrival. He stepped out to the portice that fronts on the Connecticut River. Looking down, however, he saw a moss-covered stream bed, shallow and filled with logs and debris. The President took a nap in the afternoon and a short motor ride before

Miss Jessie Wilson returned tonight

Miss Jessie Wilson returned tonight with her flance, Francis Bowes Sayre, They had been visiting in Pennsylvania and had passed today at Williamstown, Mass, with President Garfield, of Williams College, of which Mr. Sayre is a graduate. The family circle was not complete, however, as Miss Margaret Wilson, the eldest daughter, is visiting near Madison, Wis, at the home of Mr. and Mrs. Joseph E. Davies.

Work Not Expected.

The President brought with him only his physician, Dr. Cary T. Grayson, U. S. N., leaving behind all secretaries and stenographers. He said he expected to do no work but would "loaf." He denied himself to the correspondents throughout his visit, declaring that if anything of importance developed at Washington requiring comment from him he would go there immediately and become fully advised of the situation before expressing himself.

He probably will play gelf Monday. His schedule calls for his departure on Tuesday, but there is a possibility that his stay may be lengthened if legislative affairs in Washington are not pressing.

United States Government Investigators Says High Frequency

System Will Prevail.

WASHINGTON, July 5.—Government officials are greatly interested in the reported achievement of Dr. Goldschmidt, a German inventor of wireless apparatus, in sending messages between Neustadt, near Hanover, Germany, and Tuckertown, N. J., 3900 miles.

Dr. Frederick Colster, in charge of wireless investigations for the United States Bureau of Standards, recently visited Dr. Goldschmidt's German plant and was satisfied from his study of the apparatus that he would be able to send long distances and without interfering with other plants.

The New Jersey station has not yet been licensed. The Marconi Company, it is said, is receiting a station close by. Dr. Colster expressed the opinion that the Goldschmidt and similar methods of sending—for there are other devices which will work on the same principle—will be the methods of the future. High frequency transmission, he says,

With Murderous Intent.

CHIPPEWA FALLS, Wis., July 5 .-CHIPPEWA FAILS, Wis. July 5.—
Raymond Short, 18 years old, is in jail here today, charged with entering the home of Roderick McPhee, a next-door neighbor, early today, going to a bedroom occupied by McPhee's three daughters and attacking Miss Mauretta with a 38-caliber revolver.

It is said that he attempted to shoot the virl, but was unable to do so because of the refusal of the revolver cylinder to work. He then turned the

MULHALL'S STORY IS TOLD (Continued From Page 2.)

that Winter. I was given instructions by Mr. Cushing to be advised by Mr. Littlefield upon any bills brought before Congress at the sessions of 1906 and 1907.

Field Work Continued.

"After Congress adjourned in the Spring of 1907 I was sent to Cleveland, Q. to report to Mr. Cowles, the Vice-President of the National Association of Manufacturers for Ohlo, and while engaged in Cleveland I received a letter from Cushing in June instructions me to return to New York at once, as he had resigned from the organization. I returned to New York about the middle of June and had several interviews with Cushing, he telling me that as he was not re-elected as secretary of the organization he had refused to serve any longer, and that he was about starting a new organization along the same lines as the National Association of Manufacturers, and made a strong appeal to me to leave the old organization and come with him.

"About this time I had several interviews with other members of the National Association of Manufacturers, and made a strong appeal to me to leave the old organization and come with him.

A Very Brilliant Showing of the New Stylish Silks

At a Price That Foreshadows Sensational Selling

Wonderful values have been gathered for this event. Hundreds of yards of Plain and Fancy Silks in weaves and colorings suitable for most any purpose. Regular 65c to \$1.00 qualities, priced at, yard

They are the very fabrics, in plain shades and fancy colorings, that modistes from Paris to San Francisco are now using with a lavish hand; some soft and clinging, some bright and shimmering, some that rival nature's own handiwork and ensnare the least interested observer in their rich, wizardry of color and pattern. We have provided abundantly for several days' selling, but the prudent shopper will take advantage of first choice. Included are: 24 to 27inch Natural Colored Pongees in many weaves and weights; 22 to 23-inch All-Silk and Satin Foulards in a choice line of designs and colors; 23 to 27-inch Fancy Dress and Waisting Silks in an endless assortment of pretty jacquard weaves; Genuine Royal Wash Taffetas, shown in the most wanted plain colors; Beautiful Silks in rich floral and pompadour designs, pin stripes, hairline stripes, and a great many other novelty weaves. In fact, it is by far the greatest collection of Silks ever seen here at such a low price. You may choose from regular 65c to \$1.00 qualities this sale at, the yard..... 49c
