

VOL. XXXII—NO. 29.

PORTLAND, OREGON, SUNDAY EVENING, JULY 20, 1913.

PRICE FIVE CENTS.

COURT OVERRULES MAYOR OF SEATTLE

Saloons and Paper Refuse to Quit.

SAILORS ON GOOD BEHAVIOR

Cotterill Blames Publishers; Editor Flings Back Charge.

HUMPHRIES ENJOINS CITY

Blethen Says Executive Responsible for Bluejackets Smashing Halls of Socialists and Industrial Workers of World.

SEATTLE, Wash., July 19.—Orders of Mayor Cotterill were overruled in court today. Saloons, which the Mayor ordered closed, following the smashing of Socialist and Industrial Workers of the World headquarters by sailors from the Pacific reserve fleet last night, were open for business.

There were no further disorders tonight. Few uniformed men from the warships in the harbor were on the streets tonight with the Potlatch throng.

The incidents of last night appeared to have been forgotten by the crowds of merry-makers until the Mayor ordered a squad of bluecoats to the press-room of the Times to prevent newboys from leaving the building with papers.

Before police were sent to the Times building Cotterill had ordered all saloons to close. The liquor men and publishers at once sought and obtained relief in the Superior Court.

When the restraining order was served on Mayor Cotterill and Chief of Police Banick appeared before Judge Humphries with Assistant Corporation Counsel Ralph Pierce and protested against the issuance of ex-parte restraining orders, and contending that the city was entitled to notice and opportunity to defend the action.

The Mayor then announced that the city would obey the order, though under protest, and Chief of Police Banick promptly telephoned to Lieutenant Dolphin, who was in charge of the guard at the Times plant, to release the papers which were already in the hands of newboys held under police guard in the mailing-room.

The attorneys who obtained the restraining order for the Times were followed by a delegation of lawyers representing saloonkeepers, who obtained orders restraining the police from closing bars in the city.

Sailors on Good Behavior. The patrol from the fleet picked up a few delinquent sailors and sent them to the ships, but the sailors were generally on their good behavior and made no trouble.

With the sailors on shore leave there also came ashore a large patrol, under command of one of the captains of the fleet, and prepared to rouse up the men at the moment any disorder was reported.

Industrial Workers of the World said tonight that they had received warning yesterday of a plot to wreck their establishment and that all their valuable records had been taken away and their members warned to keep away from the mob.

Cotterill Explains Order. In explaining his order to suppress the Times Mayor Cotterill said: "The Times printed a garbled account of the address of Secretary of the Navy Daniels, representing him as discussing the Industrial Workers of the World and as attacking me, whereas he did not refer to the Seattle situation in any way. The Times article then went on to incite the sailors and marine of the fleet to do just what they did last night. It was represented to them that the Secretary of the Navy wished them to attack the Industrial Workers."

Clarence B. Blethen, managing editor of the Times, issued the following statement: "To clear his skirts of his responsibility for last night's riots, Mayor Cotterill, in sheer desperation, today attempted to suppress the Times. He has issued an order closing saloons and stopping all street meetings today and tomorrow, and suppressing all editions of the Times today and tomorrow, unless proofs of all matter in all editions are submitted to him and receive his approval."

"Mayor Cotterill's responsibility for last night's riots is definite. He permitted and fostered the display of the red flag and the spread of anarchistic principles. As a result, followers of the red flag attacked United States

YESTERDAY'S MARK SEASON'S HIGHEST

THERMOMETER STANDS AT 94 AT 5 O'CLOCK IN AFTERNOON.

Pendleton Sees 101 and Wenatchee 103—Fair and Warm Is Prediction for Today.

With the thermometer standing at 94 degrees for two hours in the evening and above the high mark of the previous day before 4 o'clock, yesterday established the heat record for the season thus far, and the Weather Bureau predicts continuing fair weather and high temperature today, although atmospheric conditions are becoming unsettled over this section and a change may be imminent.

The temperature yesterday was 17 degrees above the seasonal average for this locality. Up to 11 o'clock in the morning the advance of the thermometer was slow. By noon it had jumped three degrees to 84, at 1 o'clock it stood at 87 and at 2 and 3 o'clock it registered 92 degrees, which was the high mark of the previous day. A temperature of 93 at 4 o'clock was followed an hour later by a record of 94, and the thermometer stood at 94 and 95 at 5 o'clock, dropping rapidly thereafter. An hour later it was back at 90.

Portland, however, got off very easily on temperature in comparison with Eastern Oregon and the Inland Empire. North Yakima reported a maximum of 96 degrees and Pendleton 101, while at Weiser, Idaho, a high mark of 103 was established, and at Wenatchee, the report gave 104. Lower temperatures than that of Portland were reported from the Upper Willamette Valley.

LOGANBERRIES ARE DRIED

Dorena Grower Constructs Cheap Drying Plant on Ranch.

COTTAGE GROVE, Or., July 19.—(Special.)—With a \$30 drying plant and a cheap stove, Charles Bales, of Dorena, has solved the problem of marketing loganberries. For years berry growers here have been complaining of no way of preparing them for outside markets. Tired of waiting for someone to put up a dryer, Mr. Bales decided to attempt to solve the problem himself and built a building of his own with drying racks, the net cost of which was \$30. With a stove to furnish heat Mr. Bales finds that he can take care of all the berries from his five-acre tract.

Mr. Bales is a member of the Eugene Growers Association, which will handle his crop for him at 25c a pound for the dried fruit, netting him over 50c a pound for the green fruit.

With a \$30 plant taking care of five acres of berries, Mr. Bales believes that it is cheaper than it would be to haul them to a central dryer and makes growing of berries practical for those situated a long distance from a city.

ASTORIA WATCHING MILK

Short-Weight Butter Charge Made Against One Dealer.

ASTORIA, Or., July 19.—(Special.)—It is not improbable that there is to be a big milk shakeup in Astoria that will put a stop to some flagrant abuses that are said to have been going on among the dairies in Clatsop County, both as to adulteration of milk and the unsanitary condition of the dairies.

For the past few days a special deputy in the office of the State Dairy and Food Inspector has been in Astoria investigating several cases. He has obtained a confession from one of the dairies, and within a few days will lay the charges before the courts.

Short weight butter again has made its appearance in Astoria, and one meat dealer has been brought to task. The Astoria creameries are not under investigation, but the butter shipped here from other parts of the state has been found short weight. Charges of selling inferior butter are also being referred against two dealers of Seaside.

POTLATCH OF 1913 CLOSES

Great Throng on Streets but Sailors Are Confined to Ships.

SEATTLE, Wash., July 19.—(Special.)—The Potlatch of 1913 came to a close tonight with exercises bidding farewell to the ties of the Potlatch. These exercises took place at the reviewing stand at the close of the street parade of the Tillikums through the principal streets.

The Pacific reserve fleet in the harbor was illuminated and there was a display of fireworks display over the water of the bay. A great throng of people witnessed the children's parade in the afternoon. The crowd in the streets tonight was even larger than last night.

STEFANSSON'S SHIP SAILS

"Alaska" Leaves Nome for Teller to Be Followed by Explorer Today.

NOME, Alaska, July 19.—(Special.)—The power vessel Alaska, the second ship of Vilhjalmar Stefansson's Arctic expedition, sailed for Teller, Port Clarence, this morning, loaded to the gunwales with supplies. She is in command of Captain William O. Nahmens.

She will anchor near the Kartuk, the principal vessel of the expedition, and await the coming of Stefansson, who will leave tomorrow for Teller in a third boat. A farewell dinner to Stefansson will be given tonight.

ELKS GATHER AT MOCLIPS.

ABERDEEN, Wash., July 19.—(Special.)—At least 6000, and probably 6000, Elks, their families and their friends are expected at Moclips Beach tomorrow when special trains from Tacoma and Olympia arrive. Seven trains of 12 coaches each are to be used to transport the crowds. From the Grays Harbor city 200 Elks will go aside from the usual crowd of 100 at the resort. The excursions will return tomorrow night.

U. S. GRANT WEDDED; CHILDREN VEXED

Daughters Refuse to Recognize Bride.

WEDDING IS AHEAD OF TIME

Guests Met With Announcement Ceremony Is Past.

65 EXPECTED; 16 THERE

Couple Will Sail for Africa and Bridegroom Says They Will Keep Going "as Long as They Will Cash Our Checks."

SAN DIEGO, July 19.—The wedding of U. S. Grant, Jr., of this city, and Mrs. America Workman Will, of Los Angeles, which was to have taken place at 7 o'clock tonight in a San Diego hotel, did not occur. Instead of a wedding it was announced to those present at the appointed time that the marriage ceremony had been performed one week ago today by Justice George Puterbaugh.

Only a few friends of the Grant family assembled for the wedding that had been set for tonight. U. S. Grant, Fourth, was the only one of the bridegroom's five children who was in the hotel parlor when the announcement of the marriage was made.

A dinner had been prepared for 65, only 16 participated.

CHILDREN IGNORE INVITATIONS.

Chaffee Grant and his sisters ignored invitations to be present. Their refusal to attend is taken to corroborate the reports that Mr. Grant's family was much opposed to his marriage. Chaffee Grant is the oldest son. He was asked for a statement concerning the wedding.

"I knew that dad would do it," was the only comment the young man would make upon the report.

He admitted, however, that he had refused to recognize Mrs. Will as his "new mother," and was not present at the dinner when the ceremony was announced and the Grants said goodbye to their friends who were present.

DAUGHTERS REFUSE RECOGNITION.

Grant's three daughters also refuse to pay the least attention to their stepmother.

Neither Chaffee Grant nor U. S. Grant would admit that there has been any open break with their father, but it is said that the older son has consulted with an attorney.

Mr. Grant, the bridegroom, would not discuss the attitude of his children.

"That is a private affair of their own. They can do as they please, just as I am doing," he said.

It was said by acquaintances of the family that they believed Mr. Grant had made a new will and cut off those children who failed to recognize the second Mrs. Grant by letter or telegram.

The wedding ceremony was performed by Puterbaugh in the reception room of his home. The house was in complete darkness save for a faint light in the room, where the ceremony was performed. The bride couple then returned to the hotel.

BRIDE'S RELATIVES PRESENT.

At the dinner tonight the bride's sister, Mrs. Royal Wilson, of Ocean Park, and brother, Robert Workman, (Concluded on Page 2.)

SAN DIEGO CAPITALIST, SON OF LATE CIVIL WAR GENERAL AND PRESIDENT, AND WEALTHY WIDOW MANY YEARS HIS JUNIOR, WHOM HE MARRIED SECRETLY.

INDEX OF TODAY'S NEWS

The Weather. YESTERDAY'S—Maximum temperature, 94 degrees; minimum, 66 degrees. TODAY'S—Probably fair and continued warm; northwesterly winds.

Domestic. Bryan proposes protectorate over Niagara. Section 1, page 5. Parcel post package limit increased; rates reduced. Section 1, page 1. WOMAN'S SIGHT RESTORED

Mrs. Mary Welsh Blind for 50 Years Sees Children for First Time.

CHICAGO, July 19.—Mrs. Mary Welsh, of Hillsdale, Mich., saw her eight children for the first time today. She had been blind for 50 years. Surgeons removed a double cataract from her eyes.

Mrs. Welsh was stricken blind when 16 years old. To make her burden doubly hard she was forced to do laundry work to support her children and husband, who had become an invalid.

MURDER SUSPECT MAY BE INSANE.

ASTORIA, Or., July 19.—(Special.)—Deputy Prosecuting Attorney Tracy filed today with Judge Eakin, of the Circuit Court, a petition asking that E. Fernando Fernandez be turned over to the temporary jurisdiction of the County Court for the purpose of having his mental condition investigated. For several days Fernandez, who was recently indicted on a charge of murdering his wife, has been acting in a manner that indicates he is mentally deranged. His principal topic of conversation is to declare his innocence of the crime and to assert that he is to be killed by the authorities. He has the appearance of being terror-stricken by his fear of punishment.

BALLOONIST JUMPS TO DEATH IN WATER

Gasbag Pioneer Dies in First Aeroplane Drop.

TRAGEDY WATCHED BY WIFE

Body Sinks Not to Rise in Bay at Seattle.

PARACHUTE SNAP BROKEN

Francis J. Thayer, Realizing Danger, Rolls Himself Into Ball as He Nears Surface of Harbor After 600-Foot Fall.

SEATTLE, Wash., July 19.—Francis J. Thayer, aged 47 years, a parachute-jumper, known throughout the West, was drowned today while making a parachute descent from an aeroplane as part of the Potlatch air sports.

He went up in an aeroplane with Johnny Bryant. At a height of 750 feet he dropped from the aeroplane. After a descent of 100 feet he broke loose from the parachute and fell to the water.

Thayer did not rise to the surface after going into the water. He had been giving parachute exhibitions 25 years. Thayer called Chicago his home. He leaves a widow, in Seattle, and relatives at Aberdeen, Wash.

PIRETS CIRCLE OUR WARSHIPS.

Bryant, with Thayer hanging to his parachute beneath the aeroplane, made a pretty flight of ten minutes over the bay, circling above the warships until the aeroplane had reached a height of 750 feet. Bryant then signaled that he was ready for Thayer to jump, but Thayer did not signal that he was ready to let go until the machine had settled 50 feet. Then he cut loose from the aeroplane.

The parachute, with Thayer hanging to the iron ring at the end of the ropes, opened prettily, and for a minute it looked as if the drop was to be a perfect exhibition. Then, to the horror of the great crowd of people who lined the waterfront and held points of vantage on craft about the harbor, Thayer was seen to fall, turning over as he left the parachute. He was fully 600 feet above the water when he fell. The man seemed to realize his danger, for he rolled himself into a compact ball as he approached the water, striking on his face and left shoulder.

WIFE SEES ACCIDENT.

Mrs. Thayer, Mrs. Frank Bennett, wife of the manager of the aeroplane exhibition, and Alys McKay, an aviatrix, were in a launch which was to pick Thayer up. They hurried with all speed toward the spot where he sank, but were unable to find any trace of the body.

Johnny Bryant, circling 500 feet above the bay, saw Thayer fall from the parachute, and watched him as he struck the water. Bryant circled for several minutes above the place where Thayer disappeared, watching for the body to come to the surface. At the end of that time he realized that Thayer was dead and drove his aeroplane back to the hangar on Harbor Island.

Several small boats from the warships, near which Thayer disappeared, put out to search for the body, but after cruising about for half an hour the search was abandoned by all but a police launch.

The women in the launch said that (Concluded on Page 2.)

"MAKE-UP" STONE ON EDITOR'S GRAVE

BROTHER'S EPITAPH WRITTEN BY NOTED NOVELIST.

GRAVE OF OHIO NEWSPAPER MAN MARKED BY SYMBOL OF CRAFT HE HAD FOLLOWED 50 YEARS.

JEFFERSON, O., July 19.—One of the most remarkable gravestones on record was placed in the cemetery here today. It stands at the head of the grave of J. A. Howells, veteran editor of the Ashtabula Sentinel, who died here recently. It consists of the "make-up" stone used by Howells for 50 years, during his evolution as printer, compositor and editor. On it is inscribed a verse written by William Dean Howells, the novelist, a brother of the dead man. The verse reads:

Stens, upon which, with hands of boy and man, I framed the history of his time, until, Week after week, the varying record ran, To be remembered in the world and in the Remember now how true through all these years.

He was—friend, brother, husband, son—Fill the whole limit of your space with praise. There needs no room for blame—blame there was none. The boyhood of William Dean Howells was spent in the office of the Sentinel. The father of William Dean and J. A. Howells was editor of the paper.

ALSEA PIONEER IS DEAD

Mrs. Alvinia W. Holgate, Who Crossed Plains, Dies, Aged 81.

NEWPORT, Or., July 19.—(Special.)—Alvinia Williams Holgate, widow of Jacob Holgate, died at Lutgen, Alsea Bay, Or., July 9, aged 81. Mrs. Holgate was born in Pennsylvania in 1831. She was married to Jacob Holgate in Illinois and came to Oregon by ox team in 1852, first settling in Corvallis, then known as Marysville, when that town contained only a few log cabins.

From there the family moved to Alsea Valley, where they lived for many years. Later they moved to Alsea Bay, where Mrs. Holgate lived for 25 years. She was a well-known and highly respected pioneer.

She was the mother of 12 children, eight boys and four girls. Her husband died in Portland about three years ago, and was buried in that city.

IRVINGTON PROPERTY SOLD

Deal for F. C. Barnes Home and Lots Practically Completed.

One of the largest sales of residence property of the season was practically closed yesterday by a St. Joseph, Mo., buyer, who is purchasing the F. C. Barnes home in Irvington. The consideration involved is \$27,500 and the deal is being handled by Van Nice & Morey.

The property includes the Barnes residence, one of the older dwellings in the Irvington district, and six lots on Tillamook street, between East Twenty-first and East Twenty-second. The place is especially attractive because of its trees and shrubbery. It is understood that the St. Joseph investor later will improve the property with a very handsome residence.

SENATOR'S UNCLE HAS JOB

George Poindexter, 82, Swells List of Relatives on Roll.

OREGONIAN NEWS BUREAU, Washington, July 19.—In addition to three brothers, a son and seven cousins of Senator Poindexter, of Washington, who have been attached to the Federal payroll, it now develops that still another relative, an 82-year-old uncle, George Poindexter, of Alabama, has just been appointed special field agent of the General Land Office at \$1800 a year.

This makes 12 relatives living at Government expense.

M'MINNVILLE IS EXPANDED

City Annexes Tract 15x5 Blocks by Vote of 100 to 18.

M'MINNVILLE, Or., July 19.—(Special.)—At the special city annexation election held here yesterday a tract 15x5 blocks north of the city was annexed. The vote was 100 for to 18 against annexation.

The tract is part of the larger addition annexed to this city three years ago in an annexation which was afterwards decided illegal by the Supreme Court. The new high school building is situated within this territory, which is rapidly building up.

SENATE SEES NEW STYLES

J. Ham Lewis Appears in Dainty Lavender and White Combination.

WASHINGTON, July 19.—(Special.)—The National Capitol got its latest suggestion for Summer styles today, when Senator J. Ham Lewis, of Illinois, fitted into the State Department. Lewis wore a cream-colored suit, white shoes, white socks, white vest, lavender silk shirt, white silk tie, black silk eyeglass strings, lavender-tinted handkerchief and white silk gloves—whichever he wore.

WASHINGTON IOWANS MEET.

PE ELL, Wash., July 19.—(Special.)—Roy Kurts, recently from Hartford, Ia., has purchased 40 acres of land south of town and will improve the tract to make a home. Wednesday night the Iowa people in this neighborhood enjoyed a pleasant state reunion at the home of Joe Shepherd. The Order of Women instituted a lodge here this week with upwards of 20 members enrolled for a start.

PARCEL POST RATES IN TWO ZONES CUT

Weight Limit Raised to 20 Pounds.

FURTHER REDUCTION LIKELY

Change Expected to Increase Postal Revenues.

USE OF MAPS ABANDONED

Large Number of Autos to Be Employed Exclusively in Delivery of Packages—Change Benefits Third of Patrons.

WASHINGTON, July 19.—Plans for the extension, improvement and reduction in rates of the parcel post were announced today by Postmaster-General Burleson.

The changes, which are to become effective August 15, include an increase from 11 pounds to 20 pounds in the maximum weight of parcels; a partial reduction in the postage rates in the first and second zones; and the abandonment of the parcel post map as a means of computing rates and the substitution for it of a rate chart individualized to every postoffice in the United States.

The plan contemplates the purchase of a large number of automobiles to be used exclusively for the delivery of parcel post matter.

General Reduction Presaged.

While for the present the maximum weight limit of 20 pounds and the reduction in rates will apply only to the first and second zones, from August 15, first and second zones, from about 100 miles—the changes directed today constitute the first long step toward a universal extension of the system and a general reduction in the rates of postage on parcel matter.

"It is my expectation and belief," said Postmaster-General Burleson, "that eventually—and it may be 15 or 20 years—the postal service will handle practically all of the small package transportation business in the United States. The maximum weight limit, extended now from 11 to 20 pounds, I expect to see increased to 100 pounds, and experience may demonstrate the practicability of handling the parcel business at even lower rates than we now propose. I appreciate fully the sentiment for an increase in the weight limit and a reduction in rates to all zones, but it is necessary for us in a sense to feel our way. For that reason we have made the changes proposed apply only to the first and second zones."

Rate in Two Zones Reduced.

Mr. Burleson announced the changes as follows: "The first zone shall include the territory within the local delivery of any office and the first zone rate of postage will apply to all parcel mail deposited at any office for local delivery or for delivery by city carrier or on rural routes, emanating from that Postoffice.

"The second zone shall include the remainder of what is now the first zone together with the present second zone, and shall include all the units of area located in whole or in part within a radius of approximately 150 miles from any given Postoffice.

"The rate of postage on parcels weighing in excess of four ounces in the proposed first zone will be reduced from 5 cents for the first pound and 1 cent for each additional pound or fraction thereof to 5 cents for the first pound and 1 cent for each additional two pounds or fraction thereof; and the rate for the second zone will be reduced from 6 cents for the first pound and 3 cents for each additional pound, 6 cents for the first pound and 4 cents for each additional pound or fraction thereof to 5 cents for the first pound and 1 cent for each additional pound or fraction thereof.

Third of Public Benefited.

"The maximum weight of parcel post packages will be increased from 11 pounds to 20 pounds, the increase of weight to apply only to the first and second zones. No change has been made in the size or form of package."

Statistics collected by the department show that quite one-third of the total parcels mailed are handled within the proposed first and second zones, and the Postmaster-General believes the increase in the weight limit and the reduction of the rates of postage in the first and second zones, as proposed, will benefit greatly more than one-third of the public, in that the producer, the consumer and the local merchant will profit materially by the changes. He points out, too, that the farmers who were led to anticipate much benefit from the parcel post service will be afforded a cheap means of transporting their products directly to the consumer, and that the local merchant whose trade does not justify the employment of extensive delivery service also will be benefited, as the system will put him in close touch with his customers.

Postal experts estimate that with the proposed changes in the parcel post system in operation, the revenues of the Postoffice Department will be so increased as to show a substantial surplus at the end of the current fiscal year.
