BY MRS. MAE MARTY. Ada: The unlovely condition of your skin is due to the powder and greasy cream you use. Make up and use this dainty lotion and your complexion will be the envy of your friends. Dissolve 4 ounces apurux in either 1/2 pint hot water or witch hazel, and add 2 teaspoonfuls glycerine. The apurux solution dries quickly after being applied and gives to the skin an exquisite tint. Wash your face with this solution. It will make rough, oily, muddy skins smooth and clear. Use it for freckles, tan and sunburn.

To Overcome Sunburn, Tan, Freckles, Wrinkles

(From Outdoor Life.) If you are freckled, tanned or sunburnt, dab a liberal amount of mercurochrome on the face and allow it to remain over night. When you wash off the wax in the morning, fine, flaky, almost invisible particles of cuticle come with it. Repeating this daily, the entire outer skin is absorbed, but so gradually, there's not the slightest hurt or inconvenience. Even the stubbornest freckles yield to this treatment. The underlying skin which forms the new complexion is so fresh and youthful-looking, you'll marvel at the transformation. It's the only thing I know to actually discard an aged, faded, muddy or blotchy complexion. It is fine for a discolored neck. One ounce of mercurochrome, procurable at any drug store, is sufficient in most cases. If sun and wind make you squint and grow your eyes bound to cultivate wrinkles and crowfeet. To overcome these quickly, bathe the face in a solution made by dissolving an ounce of powdered salicylate in a half pint witch hazel.—Adv.

Myrtle: That unwelcome fuz on your cheek will vanish after one application of a delicate paste, made by mixing enough delatone and water to cover the hairs not wanted. After it is on 2 or 3 minutes, rub off with a soft cloth. It will be smooth and hairless. This method is infallible, but be sure to get delatone.
