

SCHOOL TO EXPAND

Trades Classes Are to Begin on October 13.

BIG ENROLLMENT LIKELY

Academic Work in Practical Physics, Industrial Chemistry and Shop Arithmetic for Mechanic Are New Courses.

While the other night schools of the city will open September 29, the trades school, due to the fact that the teachers instruct in both the day and night classes, will not open until October 13.

If one may judge from the number of inquiries already received, the enrollment this year... will be an increase of about 350 over the previous year.

Extensive Courses Offered. In the course of practical physics, covering mechanics and electricity, an effort will be made to give a knowledge of the fundamental laws of physics that underlie the working of machinery in the most common uses.

The course in industrial chemistry will cover the fundamental facts and principles of chemistry as applied to manufacturing and industrial operations. Especial emphasis will be laid on the methods of the manufacturing of various metals and alloys used in the industries.

Shop Arithmetic Included. The course of shop arithmetic for architectural draftsmen, woodworkers, plumbers, etc., cover general construction work, board measure, areas, volumes, weights of solids, pattern and foundry work.

In drawing the work for beginners will include work in the principles of drawing, and for advanced students, mechanical and architectural drafting, and sheet metal drafting.

In woodworking there will be three lines of work—carpentry, cabinet-making and pattern-making. For beginners in any of these lines, the work will be bench work involving the use of hand tools. In carpentry and cabinet-making, work in furniture construction, parts of houses, etc., will be included.

Lathes Given Attention. In the machine shop work will be offered to machinists working in the trade and those who wish to acquire a knowledge of tool making.

In the electrical department two lines of work will be offered. Shop work in the mechanical construction of electrical apparatus and machinery and lectures, recitations and experiments in the theory, erection and operation of electrical machinery.

In plumbing a special effort will be made to give that phase of the theory of plumbing and sanitation and shop practice to fit the needs of those now working in the trade.

In the cooking department two lines of work will be offered. An advanced course in food values for those who have previously attended the trades school, and an elementary course covering type dishes used in general cooking.

In sewing there will be a beginning class on underwear, a class for last year's pupils beginning on waists, and simple one-piece dresses, and an advanced class, in which work is elective for those who have had considerable experience in dressmaking.

In the millinery department there will be offered three lines of work, for the beginners, for advanced, also for those in the trade who wish to specialize in any one of the branches.

Any one who wishes to take work in any of the courses is invited to visit the school during the day and get specific information concerning any of the work offered.

S. A. E. to Be Hosts Tuesday. The Portland Alumni of Sigma Alpha Epsilon Fraternity will entertain William C. Levere at a dinner to be given at the Commercial Club on Tuesday at 5:30 o'clock.

Largest Silk Manufacturer Dies. EASTON, Pa., Sept. 27.—Herman Simon, said to be the largest individual manufacturer of silks in the world, died today in his office in this city of heart trouble. He was born in Germany 52 years ago.

STATE EUGENICS SHOWS WIDELY ATTRACTIVE

Mothers, Physicians and Welfare Workers Throughout United States Make Inquiries Regarding Better-Babies Contests—Big Prizes Offered at Salem.

Carl Clark Williams, Age 6 yrs., 2 Weeks.

Chester Raymond Thomas, Age 2 yrs., 8 mo.

Vera May Grizzell, Age 10 Months.

Howard Frederick Biggs.

BY EDITH KNIGHT HOLMES. THE approach of the date for the opening of the State Fair is the signal for a flood of inquiries regarding that important exhibit—the "better babies" contest.

The work done in Oregon in the matter of eugenics is attracting attention of students and mothers, physicians and welfare workers all over the United States.

Contest Attracts Physicians. In speaking of the approaching baby contest at the fair at Salem, Physicians are gratified to note the statewide interest manifested in the tests to be made at the fair at Salem.

The tests will be made carefully, and as the Oregon babies are so beautifully healthy it will be a gratifyingly healthy thing to see them.

Among the mental tests are the requirements at various ages regarding how much the child notices, whether or not it is interested in its surroundings, if it seems nervous, or how quickly it becomes familiar with objects around it.

At the fair at Salem, Physicians are gratified to note the statewide interest manifested in the tests to be made at the fair at Salem.

Members of the Portland Realty Board and their friends were guests of the Oregon National Guard in a trip to the Clackamas Range yesterday.

After a while the shooting began to get monotonous, as the two men persisted in hitting the center of the bullseye all the time.

Anyone else like to try a shot? asked Lieutenant Endicott. Half a dozen of the visitors signified their willingness to show their skill.

After the shooting and an inspection of the quarters, luncheon was served in the officers' quarters.

Among those who made the trip were: Adjutant-General Finzer, Captain H. W. Welsh, Captain C. R. Hotchkiss, who is a member of the Realty Board; Lieutenant F. C. Endicott, U. S. A.; Lieutenant A. Q. Johnson, Sergeant O. P. Romaine, Dean Vincent, F. L. Purse, Colonel James Jackson, U. S. A.; retired; George C. Sheffer, Mr. and Mrs. I. C. Davidson, Miss Eva Graves, Mr. and Mrs. N. E. McFarland, Samuel Weldon, Mrs. May W. Weldon, Mr. and Mrs. J. E. Shears, Mrs. Carson, Miss Lora Allen, H. L. Ideman, Mrs. M. E. Lohr, William A. Markert, Miss Myrtle Duff, Misses Nellie and Lillian Deering, C. Lewis Mead, C. S. Carl, Clinton S. Fletcher, Mr. and Mrs. C. W. Whitcomb, Raymond Whitcomb, J. Feidman, Frank McFarland, C. T. Robards and Fred Viereck.

Cigar Dealer Pleads Guilty. J. R. Franklin, who was arrested by

the card gradually shows the advancement that a normal child should make.

Parents Can Judge Their Own. All parents should obtain one of these score cards, and if they cannot take their children to the specialists or to the educational bureau to be examined they can themselves in a large measure judge of the child's progress.

The physical tests tell of the condition of the nose, ears, mouth, lungs, stomach, limbs, teeth—every part of the body. The condition of the muscles, the general nutrition of the body, the presence of adenoids and other details are to be determined only by experts.

Deputy Constables Hunter and Nicholson were offered occult aid yesterday in elucidating the past of Benjamin F. Atherton, the former head of the State Spiritual Association, now held in the county jail on a charge of having "buncoed" Mrs. Alice Snyder out of \$1300.

Further information about Atherton, which led right from A. L. Hassler, connected with the postoffice department, and H. C. Thomas, an insurance agent. They told of his use of hypnotism in getting his ends.

"He was just like a serpent with a bird," said Mr. Hassler. "He asked me for the loan of money, and I did give him some. Finally one day he asked me for a stated sum. I told him that I did not have it, but that I would be able to give him a fraction of it, and his eager assent broke the spell."

H. C. Thomas said: "His chief idea was to gain ascendancy over young women and very old women, getting them to give him money."

As stated heretofore, the instruments—two carloads of them—belonged to bankers who advanced money on their registration of all used in the big piano-house.

For this purpose, too, we are making a preliminary clearance of all used instruments, many of which have come to us of late in part payment for new player pianos and for baby grand.

These GO FOR \$8 A MONTH. One hundred and thirty-five of these fine new instruments are being included in this introductory sale, all at a uniform introductory price and on uniform terms of payment—\$21 cash and \$8 a month. Select elegant mahogany, mottled walnut or beautifully figured oak cases.

A PIANOLA PIANO SLAUGHTER. And last, but not least, every pianola piano in this establishment is to be closed out—slaughtered in the word. Weber pianola pianos, Steck pianola pianos, Wesslock pianola pianos, Stuyvesant pianola pianos, virtually every catalogue style. Many of them rebuilt in our own shops, whereby nearly all of the salient features which they heretofore lacked have been added.

Remember, the instruments in this sale are the very best standard high-grade grades. We cannot say any more than has been said heretofore. We got these pianos from a firm of bankers who accepted our own offer. We unhesitatingly state that we have never presented an opportunity so favorable as this. Never heretofore could latest high-grade player pianos be purchased

WILL SELL ON TIME NOW. In order to make quick work of disposing of the rest of the remaining new player pianos in this sale, as advertised, we now offer to sell them on our regulation easy-payment plan—\$50 down and \$12 a month—but the player and smaller styles remaining on hand may be had for only \$10 a month.

Remember, the instruments in this sale are the very best standard high-grade grades. We cannot say any more than has been said heretofore. We got these pianos from a firm of bankers who accepted our own offer. We unhesitatingly state that we have never presented an opportunity so favorable as this. HAZEL FERN FARM THREE YEARS AGO.

THE SAME SPOT AT THE PRESENT TIME.

HONESTLY, NOW, isn't this a wonderful development for three short years? and this is only one small portion of LAURELHURST. Is your imagination elastic enough to foresee the appearance of LAURELHURST three years hence?

DO YOU REALIZE that you can still buy a home in this most beautiful and desirable residence park for less, and on easier terms, than you can buy property in unrestricted districts further out, where you would have none of the beauties, advantages and protections afforded in LAURELHURST?

PORTLANDERS—YOU HAVE POUNDED YOUR EARS LONG ENOUGH—WAKE UP! DON'T YOU KNOW that the whole Pacific Coast country is going through an era of development that will rapidly increase its population and property values, and will insure the biggest boom in real estate during the next five years that ever occurred in the history of the world, and mark these words, it will appear in LAURELHURST first of all. CAN'T YOU SEE IT COMING?

COME OUT and see some of the new homes being erected in LAURELHURST. Don't assume that you know LAURELHURST just because you have driven through it. Come out and see it again. Set your feet on it. See our natural scenic park and Serpentine Drives. Then you'll appreciate it and nothing else will satisfy you. There is an inspiration in having a home in such a place as LAURELHURST that makes life worth living.

DON'T put it off till TOMORROW. You know they say TOMORROW has been the cause of the Spanish people's decline. Ask a Spaniard to do anything and he will always say TOMORROW. TODAY—That's the word for YOU. 270 1/2 Stark St.

Phone Main 1505 or A 1515 and we'll send our auto and a gentlemanly salesman, who will show you the addition and explain how you can build just the home you want in this most beautiful Park for a very small cash outlay, and in case you shouldn't care to buy, will not annoy you thereafter.
