SILVER AND LINEN OF THIEVES

Operating With Automobile No Trace Is Left at Home of F. I. Fuller.

LOSS ESTIMATED AT \$1000

Lower Floor Ransacked and Many Valuable Pieces of Cut Glass Also Taken, Including Bulky Bowl Weighing 50 Pounds.

Operating with an automobile, taking care to avoid leaving fingerprints, and using precautions which stamp them as first class house thieves, a gang of robbers early yesterday morning broke into the home of F. I. Fuller, vice-president of the Portland Railway, Light & Power Company, at 503 Spring street, Portland Heights, and escaped with about \$1000 worth of cut glass, silverware, lace and linen.

Using an unlocked basement window for their entrance the thieves went through the house thoroughly, with the exception of the bedrooms oc-cupied by the family of Mr. Fuller. Two unoccupied bedrooms were entered as well as all the rooms on the ground floor of the house. The bedrooms in which the family were sleeping, were locked, and apparently no attempt was made to enter them.

Preparations Are Made. After all the communicating doors of the house had been opened and padded with napkins to prevent their creaking or slamming, the thieves car-ried out three drawers full of silverware, linen and cut glass, took them to a point in the brush about a block south of the house, and there emptied them, leaving the drawers and taking away the contents. The only articles taken from the bedrooms were a case of draughting instruments, in a rose-wood box, the property of Mr. Fuller, and a pair of expensive binoculars, but the latter were left with the buffet drawers in the brush.

as well as the bulkiest taken, was a cut glass bowl, weighing about 50 world's famed singers who can sing pounds and being several feet in circumference. Other glassware most of One of the most expensive articles, which was of "rose" cutting, was a berry dish, a celery dish, a bon-bon dish, and several small dishes of dif-

Fine Linen Taken.

The linen was a Cluny lace table cloth six feet in diameter and worth \$125, a dozen dollies to match, a Maltese lace round lunch cloth, a dozen large and a dozen small doilles to match. Besides these the entire set of seven dozen knives, forks, spoons and extra table service was taken, and a child's

able service was taken, and a child's sliver cup, an helricom.

Detectives Snow, Coleman and Goltz, assigned to the case, are at a loss to define the class of thieves who perpetrated the theft. The large amount of sliverware and cut glass, which cannot be sold by thieves for more than a fraction of its value, and the linen, which is almost impossible of sale by thieves under ordinary circumstances, have led them to believe that the sale had been arranged for by private per-sons before the theft was attempted. Although a neighbor told the detectives that she heard the clinking of

tives that she heard the clinking of silver about 4 o'clock yesterday morn-ing, and noticed the sound of the run-ning engine of a motorcar, the alarm was not sounded until a maid, coming from her rooms about 6 o'clock found the place in disorder.

ART LECTURES SCHEDULED

Series of Six Will Be Given Commencing October 8.

Jacopo Bellini (1390-1470), Miss Elizabeth Creadick; 2. "Gentile Bellini," Mrs. Dell Stuart.

CARE OF JUVENILES TOLD Evening Star Grange Indorses Inter state Bridge Project.

In his address yesterday before Evening Star Grange, which met at the Evening Star Grange, which met at the hall on the Section Line, Judge Gatens explained the working and scope of the Juvenile Court. He declared that while the Juvenile Court is doing a good work, it has its limitations, and that its real work is not in bringing young boys and girls before the court for the court of the court for trivial offenses, but in keeping them out of the court and in giving them en-

couragement.
Mrs. L. E. Ward, of the Arlets Parent-Teachers' Association, explained the purpose of the social center which had been started there.

J. H. Nolta, representing the inter-state bridge committee, explained the measure and the Grange indorsed the project.

A memorial on the death of Mrs. C. H. Welch was read by Mrs. E. A. Kelly.

Judge Morrow Goes to La Grande.

Circuit Judge Morrow left last night for La Grande, where he will preside this week during the trial of a case, replacing Judge John W. Knowles, Cir-cuit Judge of Union and Wallowa counties, who is ineligible to try the case. Judge Knowles will come to Portland and hold court this week in Judge Morrow's department of the Circuit Court. Judge Morrow was in his chambers at the Courthouse yesterday afternoon, but is still weak from his sickness.

SCHUMANN-HEINK NEXT FAMED SINGER TO COME

Great Contralto, as Proud of Her Art as Hausfrau as Her Voice, Will Give Concert in Portland October 24.

THE programme for the Farrar time of it we had. It was the first concert last Wednesday evening bore, beside the lovely selections which the young prima donna sang, the welcome news of the return to Portland of Schumann-Heink. There is no other artist on the rester of the

dish, and several small dishes of different kinds.

The silver included a tea set, a tea
ball, an ice pitcher, a round silver tray
with beaded edge, on which was set a
cut glass water bottle and six glasses,
all of which were stolen,

Fine Linen Taken.

The Hellig theater is October 24. Part
to this Summer has been spent by
Schumann-Heink at her California
home, 16 miles from San Diego, on a
rocky pinnacle overlooking the beautiful El Canjon Valley.

"Musical America" thus describes
Schumann-Heink as Grossmutter Schu-Schumann-Heink as Grossmitter Schumann-Heink, who with four of her children—Hans, Ferdinan, Maria and George Washington — a daughter-inlaw, Mrs. Hans Heink, and a tiny granddaughter and namesake, Ernestine Schumann-Heink, united in a glorieus reunion this Summer:

rious reunion this Summer: "Speaking of the reunion Mme. Schu-mann-Heink said: 'Oh, we had such the honest pride of a professional a wonderful moving in, such a lovely washerwoman."

and darning bagfuls of the children's stockings, and brooms and pots and pans are at once her greatest joy and wildest dissipation. She leans over the washtub herself to do her finer laces and materials, hangs them out to dry

her own, like this California home, she revels in it. Cleaning and mending her many costumes is her recreation.

dren has made me what I am, continued the contralto.

"Aside from her work Mme. Schumann-Heink is the most domestic woman in the world. She was born a hausfrau and has remained one by preference, but so much of her life has been spent in hotels and on the road that when, a few months in the year, she finds herself in a nest of her own. like this California home, she

14 COACHES ARE DELIVERED

Each Vehicle Will Be Provided With Motor and Have Smoking Compartment-Second Shipment of 14 Trailers Is Now on Way.

Fourteen steel passenger cars were lantern slides and the others by of the Portland, Eugene & Eastern single men. pictures on exhibition.

The lectures will begin at 10 A. M. Valley, their presence being indicated on the sidetracks at the shops by a long streamer of brilliant red coloring long streamer of brilliant red coloring long streamer of prices.

the New York Central and Interbor-ough roads, now a resident of Port-

Each of the cars is to be a motor car, having two compartments, one intended for smokers. Another batch of 14 trailers, which are en route to Portland will be single compartment cars. Rolling Stock of New Valley

The cars are 47 feet in length and of standard width. They are of steel construction with the exception of the inside window ledge and arm rest of the lounge seats, which are of wood. The sides of the car are made of girder steel instead of lapped sheet steel, thus adding to material strength. The exterior is a brilliant red, and it is announced that this is used as a safety color. It is maintained that a red car will attract the eye much more quickly than a green car, and thus avoid many accidents at road crossings. The interior of the new cars are of a mahogany color, the lining being agosete, a composition that is a non-conductor of heat and cold and will crumble instead of splintering in case of accident.

Unable to secure accommodations at Beaverton for the mechanics the com-pany is compelled to employ, the Wil-lamette Valley Line will at once begin scelved at Beaverton yesterday for the erection of a flat in which quarters the use of the interurban electric line will be provided for 10 families and 24

Pisgah Home Makes Appeal.

The Pisgah Home is making an aplong streamer of brilliant red coloring against a background of green verdure. At Beaverton the new cars will be fitted with motors, dead-man controls, airbrakes, lights, heating apparatus and pantagraph, the new shops of the company being able to turn out about eight complete cars a month.

"The new equipment for the Portland, Eugene & Eastern is the bestland. Eugene & Eastern is the best-finished and finest lot of passenger terested do not receive a salary, giv-cars I ever saw," was the pronounce-ment of E. Sears, lately connected with any remuneration except their food.

EXPERIMENT PLANT TO RISE AT REED COLLEGE.

Station First of Kind in State and Artificial Propagation of Fish Will Be Studied.

Ground has been broken at Reed College for the building to be erected by the Oregon State Fish and Game Commission for an experimental fish hatch-ery. The plant is to be maintained by Reed College under the direction of Dr.

ery. The plant is to be maintened of Dr. Reed College under the direction of Dr. Rarry B. Torrey, professor of biology. The station will be located in the ravine north of the dormitory.

The building will be 20 by 20 feet and will have two rooms, one a laboratory and the other a room for a hatching trough, which will be capable of holding several thousand fish.

The object in establishing the station is to make a scientific investigation of the problems connected with the artificial propagation of fish. Some of these problems are: The hatching of eags with the least possible loss; the feeding and handling of young fish; the treatment of diseases and the effect of various temperatures on the fect of various temperatures on the eggs and on the fish.

This will be the first state experiment station devoted to the problems of the fish industry, which is one of

Dr. Torrey. The results of the experiments at the college station are expected to be of use to superintendents in hatch-

ries in the state. Pheasant Shooting Proves Costly. CORVALLIS, Or., Oct. 4 .- (Special.

For shooting pheasants on September 39 and for killing hens Wednesday, three Benton County hunters were fined \$25 each by Judge Lane Friday.
