PRISON POLICY IS **BLAMED FOR CRIME**

Police Say Freedom of Washington's Convicts Starts Series of Violations.

LODGE SAFE IS "CRACKED"

Theory That ex-Convicts Are Responsible for Outbreak Is Based on Evidence That All Work Is by Experts.

To the prison policy of Governor Lister, of Washington, who ordered released about 116 prisoners from the State Penitentiary at Walla Walla and the State Reform School at Monroe, Wash., the Portland police attribute an increase in the crime of Portland which has necessitated several extreme measures lately.

The crime wave, which is small in Portland as compared to other cities in the Northwest, yesterday began to assume proportions when it was dis-covered that an iron safe in Woodmen covered that an iron safe in Woodmen of the World hall, at East Sixth and East Alder streets, was blown by yeggmen early yesterday morning and \$100 in cash and \$400 in checks, all indorsed, were taken. It is the second important safe burglary in the past month, although in both cases the amount of money lost was small. The police are inclined to regard them seriously from the fact that each job is eusly from the fact that each job is a criminal masterpiece and apparently the perpetrators are expert safemen. About the middle of August infor-

mation was received in Portland that a general clearing of the two penal in-stitutions in Washington had been made and that more than 100 men, some of them long-term prisoners, convicted of merious crimes, had been turned out.

Train Holdup Follows. Immediately afterward, on August 20, three masked men held up and robbed the Soo-Spekane Limited, of the O.-W. R. & N. Company, inside the city limits of Portland. In the melee J. B. Allison, alias "Yellow Bill," an old-time yegg, who was one of those turned out of Walla Walla, was shot by his partners and died in St. Vincent's Hospital from his injuries. His associates in the holdup, presumably ex-convicts, are being sought by the police, who have information that the men wanted were also among those discharged from

and all the degree teams' suits of the Eraternity and fired it. The cloth was wet, so that the explosion did not set

at on fire.
Use of dynamite is assigned by Detective Baty, from the peculiar action on the safe, which was bulged and cracked in all directions from the comfination, and that, though soap was left on the floor, none had been placed in the cracks of the safe. Nitroglycerine, the staple explosive used for safes, is a dangerous article for a yegg to carry in cold weather, because when cold its action is freakish, and it is likely to explode at any time. The disappearance of 20 sticks of dyna-mite from the explosive locker at the Linnten rockpile shortly after the Walla Walla jail delivery traces the source of the explosives used in Walla Walla jail delivery traces the source of the explosives used, in the opinion of the detectives. Nitroglycerine is made from dynamite by bolling the sticks in warm water and then wringing them cut, the nitro being skimmed from the top of the water the sticks in the part of the sticks in warm water and the jefferson high school auditorium, November 21 and 22, and it is expected skimmed from the top of the water to have the suditorium will clied on skimmed from the top of the water and bottled for use.

Heard at Meeting Today.

Several interesting features will be on today's programme at the Young Men's Christian Association, including an address by A. S. Allen, general secretary of the Seattle Y. M. C. A. Mr. Allen will speak at 3:15 o'clock on the subject, "A Message to Portland Men." There will be singing by the Y. M. C. A. chorus.

This meeting follows a social in the lobby that begins at 2:30 o'clock, C. J. A. Pahl, a globe-trotter, will give an informal talk telling of his travels. He has covered 268,000 miles on a hicy: c, and will end his tour in Australia, sailing soon from Victoria, B. C.

The discussion clubs, following the regular meeting, will take up the subject, "Why Should a Man Smeke?"

The youthful stars have been resident in the play.

In the rehearsals David Griff displays considerable dramatic talent in his characterization of Paul Briscoe, while Neil McEachern, as the hero, goes through his part with the ease of a professional actor. Harold Melenday's droil antics and Fred Packwood are equally funny in comedy roles. The leading feminine part is taken by Wilman Ditrich. Elsa Braun, Elsie Kline and Elizabeth Knight are the other members of the cast.

Would Be Fat

Increase in Weight Ten Pounds or More

A Physician's Advice "I'd certainly give most anything to be able to fat up a few pounds and stay that way," declares every excess-ively thin man or woman. Such result

Is not impossible, despite past failures. Thin people are victims of mal-nutrition, a condition which prevents the fatty elements of food from being taken up by the blood as they are when the powers of nutrition are normal. Instead of getting into the blood, all the fat and flesh producing elements stay in the intestines until they pass from the body as waste.

To correct this condition and to prols not impossible, despite past failures

To correct this condition and to produce a healthy, normal amount of fat the nutritive processes must be artificially supplied with the power which nature has denied them. This can best be accomplished by eating a Sargol tablet with every meal. Sargol is a scientific combination of six of the best strength-giving, fat -producing elements known to the medical profession. Taken with meals, it mixes with the food and turns the sugars and starches into rich, ripe nourishment for the tissues and blood and its rapid effect is remarkable. Reported gains of from ten to twenty-five pounds in a single month are by no means infrequent. Yet its action is perfectly natural and absolutely harmless. Sar-gol is sold by Woodard, Clarke Drug Co. and other good druggists everywhere and every package contains guarantee of weight increase or money

Caution:-While Sargol has produced remarkable results in the treatment of nervous indigestion and general stomach disorders, it should not, owing to its remarkable flesh producing effect, be used by those who are not willing to increase their weight ten pounds or more.—Adv.

HOW TO GET RID OF DYSPEPSIA

Don't Rely on Medicine: Don't Go on Freak Diet; Common Sense and An Antacid Usually All That

PHYSICIAN GIVES GOOD ADVICE,

"If you have dyspepsia, indigestion, sour stomach, beiching, distress after eating, heartburn or any other stomach trouble due to hyperacidity (the usual cause of stomach heartburn or any other stomach trouble due to hyperacidity (the usual cause of stomach troubles), you should take no medicine to act on the stomach itself. That is positively not the way to cure the trouble. Again, you should not half starve yourself by going without the nutritious food that you need to rebuild waste tissues. Some foods are not good for people even when in perfect health—very rich, sweet, highly seasoned dishes. Avoid these, but cat fairly substantial meals of plain foods. Eat slowly, Even if you drink nothing but water, you should not drink with meals. Drink before and after eating. Do not take pepsin or other artificial digestants. If you follow the foregoing simple instructions it is probable that you will not need any medicine at all except, if you want to call it medicine, a little antacid after meals. The best antacid is ordinary bisurated magnesia, which can be purchased at any drugstore. This is not to act upon the stomach, but on the contents of the stomach. The antacid, as you can learn by consulting your dictionary or encyclopedia, is merely to neutralize or counteract, the excess acid so the stomach can digest the food normally. Take a teamponful of bisurated magnesia in a little cold or hot water after each meal. Your case is severe. Careful, moderate eating and the use of bisurated magnesia should put your stomach in normal condition in a short time; if you have not allowed dyspepsia to advance to the extreme stage of developing stomach ulcers or cancer."—Adv.

You will agree when you have used it that it dissolves and drives out uric acid poison. It tones the kidneys so that they work in harmony with the bladder. It strengthens the bladder so that frequent desire to urinate and other urinary disorders are banished. It stops rheumatic aches and pains immediately, it dissolves uric acid crystals so that back and muscless no longer ache and crooked joints quickly straighten out. It reconstructs the blood and nerves so that you soon feel healthier and stronger, sleep better and eat better and have energy throughout the day. It does all this absolutely vouched for according to law.
