TAXPAYERS OF CITY MEET TUESDAY

Residents of All Districts to Tackle School Problems Facing Board.

LIVELY TILTS ARE IN SIGHT

Meeting Opens at Lincoln High Auditorium at 8 P. M. and, in Preparation for Big Session, Armory Is Held in Reserve.

Because of the numerous propositions to be threshed out and definitely settled it is believed the annual school meeting of taxpayers to be held Tues High School, will be the most largely attended and one of the liveliest sessions of the kind ever held in Portland. Although arrangements have been made for the meeting at the Lincoln High School, those attending will ad journ to the Armory if the High School assembly-room is found to be too small.

Many heated controversies are expected as a result of proposals made by the School Board for the expenditure of funds next year and for the inauguration of a number of new propositions in the schoolroom and in the school system and the methods of transacting business and the holding of elections.

Warm Discussions Expected. Fire probably will center about the questions of new school grounds and buildings which are proposed for vari-ous parts of the city, either by direct tax levy or by bond issue. A bond

cover the cost of these various improvements. Another fight will center about the establishment of physical education for the study and correction of weaknesses in pupils in the schools. This will be opposed by various factions for various reasons. Many will attend the meet-ing who are favorable to the plan while others will be bitterly opposed. Both sides will be well represented by

issue of \$850,000 has been proposed to

The plan of the School Board in this connection is to incorporate in the genconnection is to incorporate in the general system of playgrounds and medical inspection the proposition of having competent medical practitioners investigate the living conditions of boys and girls who apparently do not take the proper interest in school work with the end in view of correcting the trouble and making it possible for these children to receive full advantage of the school education.

Trade School at Issue.

Another question will be that of levy-special tax of 1 mill to raise money to buy a site and erect a building for a public trade school for the teaching of manual training and kindred subjects. It is proposed to purchase two blocks of ground near the east ap-proach of the Steel bridge bounded by fultnomah, Hassalo, Adams and East

First streets.

In the question of a bond issue of \$550,000 for school grounds and building there will be much controversy, it is expected, owing to the various views residents of the different sections of the city are taking.

the city are taking.

The School Board has proposed the issue to raise money to be expended in the following manner: For new grounds for the Couch School, \$156,000; for a recreation field or stadium at Jefferson and Chapman streets, \$150,000; addition to the ground for the Filippe. dition to the ground for the Eliot School, \$30,000; additional ground for the Shattuck School, \$25,000; grounds for new school at Edgement, \$25,000; grounds for a school in Woodlawn, \$20,000; new Couch School building, \$25,000; new Shattuck School building \$25,000; new Shattuck School building, \$125,000; first unit of a Southeast Side agricultural high school, \$200,000. While the districts to be benefited by the bond lesúe are strongly in favor of the expenditures being made, there

Is considerable question as to the meth od of raising the money, which will be the subject of discussion. Other districts are after new grounds and build-ings and will appeal at the meeting for recognition. Among these is the Laureihurst district, which will be repre sented by a delegation asking for a special tax levy for grounds and a building in Laurelhurst. Fulton Park, Richmond and the Ladd School people are in the same class.

New Buildings Wanted. Residents of the district about the

Couch School are demanding a new school, favoring a tax levy of 1 mill for school building and grounds. The Shattuck people are fighting for a new Another fight is expected on the

proposition of expending about \$50,000 for additional grounds for the Jefferson High School between Willamette boule vard and Killingsworth avenue, Peo-ple of the Hawthorne district probably will oppose the granting of a new school for some place east of the Ladd tract on the East Side because of the fear that their children might have to be taken from the present East Side schools and transferred to the new building.
In addition to these questions, there

will be the question of adopting resolutions pertaining to the school elections to be held in the future. A resolution was presented for indorsement asking the State Legislature to pass a bill allowing school districts of 20, 000 population to use county registra-tion books in school elections. At pres-ent there is no way of ascertaining whether a person appearing at an election booth is entitled to vote or not. Under the new plan it is proposed to open up the franchise privilege in school elections to all registered voters. Another resolution will be presented asking the Legislature to modify the present law so that the School Board can reject bids for the erection of buildings if the bids are considered high. At present the Board cannot reject bids and in consequence it is al-leged that there have been cases of combination of contractors in restraint of competition. It is proposed to per-mit the Board also to erect buildings by day labor, cost and percentage or

by lump sum. The school survey and various re-ports of officers for the last year will be brought before the meeting for con sideration, and some lively entangle-ments are expected over various phases

Body of O. S. Carlson Recovered.

The body of Oscar S. Carlson, 21 years old, an employe of the Peninsula Dredge Company, who was drowned Thursday night off the dredge in the wer harbor, was recovered yesterday City Grappler Brady and was removed to the morgue. An inquest will probably be held, as the circumstances of the drowning have not been fully explained to the Coroner. No relatives of Carlson have been found.

CHICAGO RECORD MADE BY MELBA AND KUBELIK

Three Thousand Persons Are Turned Away After Auditorium Is Filled. Same Stars Ara to Give Concert in Portland, December 4.

ELBA and Kubelik drew the the largest concert audience ever known in the Auditorium. More than 3000 persons were unable to gain admission, and the receipts were more than \$9000."

The above night message was wired to Lols Steers-Wynn Coman from Chicago a few night ago and throws a glimmer of light upon the ovations being given Melba and Kubelik on their present tour. Records are being broken all along the line. The Auditorium in Chicago is an immense structure, rarely filled for performances of any description, and the fact that 3000 persons were turned away was certainly a sensational triumph even for stars like Melba and Kubelik.

The delicious timber of Melba's volce is thrown into juxtaposition with the flute with most enchanting effect in

EQUIPMENT IS UP TO DATE

Facilities for Men and Women Are Provided-Floor 70 by 50 Feet Gives Ample Room for All Indoor Sport Activities.

The new gymnasium at Reed College, which was opened formally Friday night, was constructed at a cost of \$10,000. The main floor is in the center of the building and is 70 feet long and 50 feet wide. A balcony extends all the way around the floor and will accommodate about 250 persons. The two wings of the building extend out from the sides of the main floor. The north wing has locker rooms, shower rooms, wrestling and boxing rooms and the special exercise rooms and handbuil court for the men students. The office of the physical director is also on this side of the building. In the south wing are the shower and locker rooms for the women, special exercise rooms and

a squash court.

Especial care has been taken in the plans for the gymnasium to provide plenty of light and heat. The walls at the ends of the main floor are practically nothing but glass doors and windows, which can be swung wide open. With all these doors and windows open the floor will resemble an open pavilion with only two sides and the roof. Heat is provided by steam from the central heating plant, which will also furnish the hot water for the showers.

As yet the gymnasium is not expected. Lawrence have been selected as the hares in the Portland Hunt Club's annual Thanksgiving paper chase for the handsome Hunt Club trophy.

This is the big event of the Fall. A good field is expected.

The start will be made on the county road, a quarter of a mile east of the club-house. The time has been set as 10

As yet the gymnasium is not ex- A. M.

is the purpose to keep the main floor free for basketball and other games and to place all the apparatus in the other rooms. The Indian clubs, horse, parallel and horizontal bars, and the mats used last year in the room that served for a temporary gymnasium have been moved to the new building. Besides this apparatus wrestling mats, punching bags and medicine balls have been added so that with the

sium the athletic facilities at the col-lege are excellent. The two tennis courts have been re-covered with as-phalt and new dirt courts probably will be made next Spring. The per-manent athletic field has been graded and will be in fine condition after it has settled this Winter and after the final rolling and leveling has been done. Beside this another field has been put in shape for use when more than one team wishes to practice at the same time. the same time.

The students and faculty appear to be well pleased with the new gymna-sium and an increased interest in athletics at the college will doubtless re-sult. Basketball practice has already started and the class contests in this sport will begin soon. It is probable that the men of the faculty will put out a basketball team to oppose the under-graduates, and with the material they have should be some stiff opposition. be able to furnish

Commissioner Mickle Hits Hotels and Markets of State Also.

BULLETIN GIVES SCORES

Slaughter - Houses, Bakeries and Candy Factories in Some Cases Get Low Marks-Most Are Willing to Improve.

The latest bulletin published by Commissioner Mickle, of the Oregon Dairy and Food Commission, shows unsatisfactory sanitary conditions in many of the hotels, restaurants, markets, slaughter-houses, bakeries and candy factories which were visited by the inspectors of the Commission outside of The Commissioner's report shows that

87 hotels and restaurants were visited in various towns throughout the state, the average score of which was 63 points; 77 markets and slaughterhouses were visited, with an average of 60.5, and 38 bakeries, with an aver age of 58.5. Of the 10 candy factories in spected, the average was 50.5. The Commissioner comments on the poor showing of the candy factories, and he says there is room for improvement in those which were inspected.

He says that the scorecard does not express it all; that there are some things beyond the realm of mathematics, and there are some plants so clean that it is difficult to give the operator the credit that is justly due, but, on the other hand, there are some so filthy that it is difficult under the Oregon law to deal with them as they deserve. Following are the scores of the places inspected during October:
