PENDER IS FOUND **GUILTY OF MURDER**

First-Degree Verdict Returned After Jury Deliberates Through 18 Hours.

SLAYER'S MOTHER FAINTS

Judge Grants Defendant's Attorneys 30 Days in Which to Prepare for Appeal of Case to Oregon Supreme Court.

ST. HELENS, Or., Nov. 22 .- (Special.) -"Guilty as charged in the indictment" was the verdict of the jury in the case against John A. Pender, charged with murder in the first de-gree for the killing of Daisy Wehrman on Labor day, 1811, near Scappoose, Columbia County, Oregon. The case was submitted to the jury

last night at 8:45 o'clock and at 2:45 o'clock this afternoon the verdict was

Aged Mother Faints. His aged mother was sitting beside him and when the fatal words were spoken she fainted and Pender was the first one to pick her up and hold her in his arms. His sister and wife also were present, a most sorrowful sight as the words were pronounced which may send the son, brother and husband

to the gallows. Attorney Jeffreys, for the defense, stood before the jury six hours yes-terday in an effort to save his client, and after he had finished E. B. Tongue took up the final argument for the state. For three hours Mr. Tongue argued with great force, and every word seemingly carried conviction to the minds of the jury. Judge Eakin then instructed the jury, as to which attorneys for both sides said there was no exceptions to be taken, as they declared the instructions were mani-festly fair and clear.

festly fair and clear.

The jury retired at \$:45 P. M. and from that hour until midnight they were discussing the evidence, the discussion at times becoming quite loud. This morning, after breakfast, they went at their work again, and at 11 o'clock came into court and asked for further instructions, as to whether o not they could compromise.

No Compromise Possible. The court promptly told them that under their oath they could not compromise, and as long as they had an opinion which was formed from the evidence they could not legally lay that opinion aside, but that if by argument or otherwise they could see that they were wrong they had the privilege of changing that opinion.

With this instruction the jury retired, seeming'y better satisfied. At 2:80 this afternoon, after a total of 12 ballots had been taken, the first ballot, an informal one, resulted in a unanimous vote for guilty, so a formal ballot was taken, which resulted in a vote of seven for conviction of murder an informal one, resulted in a unanimous vote for guilty, so a formal ballot was taken, which resulted in a

VOU probably have a good many more things to be thankful for than you realize; no matter how fortunately you are situated; no matter how unfortunate you may feel yourself to be, things are really better than you think.

That's one of the reasons for having a Thanksgiving Day, a harvest feast, a general gathering of families and friends, a season of festivity.

We have a good deal to be thankful for in our business; we have done well in it-as well. we hope, for our customers as for ourselves. That's the idea of this business; to make every transaction profitable for you as much as for us. When we sell a man one of our

suits or overcoats, for example, we know that our customer is getting big value for his money; more value than any other clothes will give him; better style, better quality in all-wool fabrics, better tailoring, better service in wear, than he can find in any other way or in any other store. We mean to have that true of everything else we sell, from the smallest to the largest thing.

> The suits and overcoats we sell at \$25 are the best examples of this valuegiving we have ever known. The man who gets one of those suits or overcoats, gets more for his \$25 than he'llever get for the same money anywhere in clothes. We have others from \$20 to \$40.

New From The Ground Up

The Master "Six" is a New Car; a New Design; a New Motor. It has all the New Features Which Experience and the Most Advanced Engineering Knowledge Have Approved; Features that all Cars Must Come To or Lose Ground

Keeping Ahead

Events move swiftly in the motor world. There is no standing still. The builder who fails to progress—who sticks to old models—

The New "Six" is not merely a development of another car. It is a different car, newly designed in every detail. The best that has been discovered up to this time—the coming features of the better cars, are now embodied in the Master "Six." This Master Motor Needs No Help

The flexibility of our new motor is the envy of all makers. See how quickly it gathers speed. When you wish, it idles down to a snail's pace without shifting gears. You can do nearly everything on "high." And it's all in the motor itself. This master motor needs no auxiliary gearing to help it out.

It Never Stops the Procession

The Master "Six" can never "go dead" in crowded traffic, or on a dangerous crossing. The Chalmers-Entz Electric Starter won't let it.

Even should the gas be cut off accidentally, the starter—when the clutch is released—keeps the motor running until it picks up. It makes the motor of the New "Six" unstallable.

Look Inside

Raise the bonnet. See the hard enamel finish of the new T-head motor, with not a moving part in sight; the dust proof crank case

See the extra water jacket around the intake manifold. This extra heat makes cheaper gasoline effective. The oversize manifold supplies gus equally to all cylinders.

The new clutch with cork inserts prevents jerking or over-heating. Transmission gears shift quietly because they are ground and polished. They lock themselves in mesh; no jolting out.

Good Looks Plus Good Deeds

Look at the Master "Six" as it stands. See the graceful sweep of the oval fenders—the clean running boards—the low hung chassis—the tapering bonnet—the streamline body. Then try to match its beauty.

The underslung rear springs, the extra long wheel base and deep upholstery smooth out the roughest roads. The wider-than-usual doors fit flush as a watch case.

Now enter the driver's seat from either side. Left side drive and center control make it easy. Complete command of the car is at Come and take the Chalmers Standard Road Test. Then ask any
