

FACTORY CONGRESS SITS NEXT MONTH

Promotion Meeting Called for Corvallis, January 14 and 15, to Start Campaign.

COLLEGE IS BEHIND PLAN

School of Commerce Invites Representatives of All Cities and Towns in State—Markets to Get Consideration.

CORVALLIS, Or., Dec. 6.—(Special.)—A "Factories Promotion Congress" will be held in Corvallis January 14 and 15, at which it is the plan to inaugurate a state-wide campaign to secure more factories and payrolls for Oregon.

Upon invitation of J. A. Bexell, dean of the School of Commerce of the Oregon Agricultural College, Colonel E. Hofer, editor of the Oregon Manufacturer, addressed the Students' Commercial Club of that institution November 21. At that meeting there were present a number of Corvallis citizens. Colonel Hofer spoke of "Industries and Payrolls for Oregon Cities and Towns." Following the meeting an impromptu conference was held at the college. Those present were C. H. Woodcock, John F. Porter, J. A. Bexell and C. A. Murphy, of the Corvallis Commercial Club; Dr. U. G. Dubach, professor of political science; Dr. E. J. Brown, professor of commerce, and E. B. Lemon and N. B. Baldwin, instructors of commerce, representing the Benton County Commercial Club, and Colonel Hofer.

Members of the Corvallis Commercial Club expressed a desire to inaugurate a campaign to secure more factories at Corvallis, and thereby provide the city with increased payrolls, and stated that they believe practically every city in Oregon would cooperate in a state-wide campaign of education to secure more factories. To this end it was suggested that a convention be held at Corvallis under the auspices of the Oregon Agricultural College. President Kerr of the college approved, and the dates were set.

Statistics Are Furnished. A close study of statistics furnished by George H. Hinker, secretary of the Benton County Growers' Association of Corvallis, which began the operation of a fruit and vegetable cannery in the summer of 1912, gives an insight as to what may be accomplished in any of the cities of the state, and was the inspiration for the proposed convention. The Benton County Growers' Association is a co-operative organization, composed of actual growers of fruits and vegetables in Benton County and in Linn County adjacent to Corvallis. When the books of the season were closed, December 1, there were 630 members of the association who have brought their products to the cannery at Corvallis during the past season. These products began with cherries and currants in the early summer, and consisted of strawberries, gooseberries, raspberries, loganberries, blackberries, beans, pears, prunes, quinces, apples, tomatoes and pumpkins. The amount of these products received for canning purposes during the season was 1,939,853 pounds, which in the finished product is equivalent to 44 carloads of 40,000 pounds each, or a train of cars one-third of a mile long.

Market Is Created. Until the cannery was placed in operation there was practically no market for any of the products now marketed by the association through the agency of its factory. Since the association began the manufacture of its raw materials for canning products, it has the whole of the United States and some foreign countries for a market. The city has an increased payroll and the growers receive a fair price for their products.

This small manufacturing establishment has created not only a market, but it has created increased freight traffic. It has given employment, during the canning season, to a large number of employees of which 15 were men and 85 were women. It has created for Corvallis an additional payroll amounting to approximately \$13,000 for the year 1913. In addition to these benefits it has given employment not only to those employed at the cannery, but also to pickers of fruits and vegetables. This payroll alone is estimated at not less than \$2500, and for it this manufacturing plant is responsible.

The local development committee of the Corvallis Commercial Club is largely responsible for the fact that this association was organized and the factory was installed.

MRS. F. E. MOORE IS DEAD Wife of Ashland High School Principal to Be Buried Monday.

ASHLAND, Or., Dec. 6.—(Special.)—Mrs. F. E. Moore, wife of the principal of the Ashland High School, died last night after a brief illness. Her maiden name was May Starbuck. She was a native of Iowa and a graduate of Simpson College and Indiana in that state. Before her marriage to Mr. Moore she had been a teacher in the Eugene High School.

The family have been residents of Ashland nearly three years, coming here from Eugene. Besides her husband, she leaves two small children, one of them an infant but a few days old.

Funeral services and interment will be at Eugene, December 8, where relatives on both sides of the family reside.

CLYDE STEAMER BEACHED Leaking Seminole Grounds Off San Domingo to Keep From Sinking.

NEW YORK, Dec. 6.—The steamer Seminole, of the Clyde Line, has been beached at Puerto Plata, San Domingo, to keep her from sinking after she sprung a leak.

The Marine Exchange posted a notice that the Seminole was a "total loss," but this was denied by the officers of the Clyde Line. A message to the owners of the vessel said the ship encountered no hurricanes and little rough weather. Officers of the line were unable to explain the cause of the leak. The Seminole carried few passengers.

TACOMA 'ON AGIN, OFF AGIN' City Council Will, Then Won't, Now Will Hold Car Election.

TACOMA, Wash., Dec. 6.—(Special.)—The City Commission changed front

again Friday on the tide-flats municipally-owned streetcar line project, as a result of the storm of protest that went up over the agreement with the street railway company the other day, whereby the company was to build and operate the line in return for a 1 per cent reduction in its gross earning tax. By today's change of front the special bond issue election originally set for December 30 and called off this week by the Commissioners, was brought to life again. The election was to be for the purpose of giving the people opportunity to vote on a proposed \$37,000 bond issue to build a city line.

Under the latest plan the final reading of the franchise ordinance covering the agreement with the street-car company is postponed until January. The election will be held December 30, as per schedule. If the bond issue is authorized the city will build the

MAYOR OF ALBANY IS NATIVE OF LINN COUNTY.

L. M. Curl, ALBANY, Or., Dec. 6.—(Special.)—L. M. Curl, who was chosen Mayor of Albany December 1, is a prominent local attorney and has been a resident of Albany for many years. He is a native son of Linn County and a member of one of the county's oldest pioneer families.

Mr. Curl taught school in various parts of the county when a young man and was elected County School Superintendent. At the conclusion of his term he read law here, was admitted to the bar and since then has practiced in this city continuously. He was a member of the Albany School Board for several years and also served two terms in the City Council from the Third Ward. He has been chairman of the Linn County Republican Central Committee for the past five years.

If the bonds are turned down the agreement with the street-car company will be ratified.

HOME INDUSTRY BACKED

EDYTH TOZIER WEATHERED TALKS TO SHERMAN CO. MEN.

MORO Business Interest Pinn Made—Oregon Banquet in January and Children Will Be Included.

MORO, Or., Dec. 6.—(Special.)—Mrs. Edyth Tozier Weathered was a visitor in Sherman County and Moro yesterday and today in the interest of the Oregon Manufacturers' Association campaign of patronizing home industries. Friday evening she spoke in the Moro Methodist Church on home industries and their relative importance to country life and the training of the school children to the importance of always patronizing home industries, and by that means doing their share toward upbuilding the state at large.

This afternoon Mrs. Weathered spoke at a special meeting of the local Parent-Teachers' Association and this evening met with the business men of Moro, who have taken up the idea since her arrival in the county to have a banquet about January 17, at which all the farmers of the surrounding section of Sherman County shall be guests of honor, where everything will be free to their guests. The banquet is proposed to be a strictly made-in-Oregon affair, upon the same lines of the Sherman County banquet given two years ago by the business men of Moro. At that time speakers called attention to what farmers could realize in profits from neglected lines of farm industry, with the result that a wonderful growth has been made in this county. Now, under the guidance of Mrs. Weathered, another series of banquets will be undertaken, showing the result of mutual co-operation in the home industries. All children attending will receive a special gift, made in Oregon. The school children are enthusiastic over their part of the programme.

BAND INSTRUMENTS. 1000 hand instruments, reduced prices \$2 to \$75 at \$48.50 sale price. See Graves Music Co. removal ad, page 9, section 2.—Adv.

CARD OF THANKS. We wish to express our appreciation for all kindness and sympathy shown us in our late bereavement in the loss of our husband and father.

MRS. EMMA NEWELL, H. L. NEWELL, CHARLIE NEWELL, C. J. NEWELL.

FEEL HEADACHY, DIZZY, BILIOUS? CLEAN YOUR LIVER! A DIME A BOX

Sick headaches! Always trace them to lazy liver; delayed fermenting food in the bowels or a stick stomach. Poisonous, constipated matter, gases and bile generated in the bowels, instead of being carried out of the system, is re-absorbed into the blood. When this occurs it causes the delicate brain tissue it causes congestion and that dull, sick-

PURDIN RECALL OUT

Medford Petitions Circulated Asking Retirement.

EXPENSE PLEA IS GIVEN Recent Tax Levy, Which Runs Up to 12 Mills, Last Straw Which "Breaks Camel's Back" and Demand for Action Heard.

MEDFORD, Or., Dec. 6.—(Special.)—Petitions are being circulated for the recall of Mayor Purdin and every member of the City Council. Friends of Mayor Purdin, who was named by the Council to take the place of the late W. W. Liferst say his term does not expire at the coming election on January 13, and therefore those who oppose him are making doubly sure by starting a recall petition. In the case of City Attorney Foss appointed to replace Bob Telfer the court held his term held through the unexpired term of his predecessor so this precedent at least supports the friends of the Mayor.

The failure of the present city administration to curtail city expense in spite of the fact that conditions demanded it, is the main cause for the recall movement. Medford grew rapidly up to 1911, but common with other communities in the country the growth since then has been less. Instead of reducing municipal expenses just as all business men have reduced their running expenses the city fathers have been general beneficiaries in all departments, maintained two automobiles which have been used for fishing parties and excursions. It is alleged that the recent tax levy which increased the levy 2.1 mills or a total of 12 mills, and aroused a storm of protest which has not been equalled in the city since then has been less. An initiative petition was circulated for an amendment to the city charter cutting off the salaries of Mayor and Councilmen \$25 a month—and each Councilman \$25 a month—and the recall petitions followed. Councilman Stewart being the first victim named.

A movement to secure the commission form or city manager form of government finds considerable favor. It is the present plan first to secure competent and representative business men as members of the Council and then go about the business of redrafting the charter.

ALBANY, Or., Dec. 6.—(Special.)—Upon an indictment returned by the grand jury a week ago, John Cartwright, of Harrisburg, was charged with violation of the corrupt practices act. He furnished \$100 bond for his appearance in the Circuit Court. It is charged in the indictment that on November 2, the day before the recent local-option, liquor election in Harrisburg, Cartwright, who was posted in Harrisburg the following placard:

POSTER CAUSES ARREST John Cartwright, of Harrisburg, Is Charged With Corrupt Practice.

Harrisburg now has over \$2000 in her treasury, or more than at any time in its history. Harrisburg has at no time shown a more substantial growth. Harrisburg's territory has never been so large. Harrisburg boasts today of no blind pigs. Harrisburg needs a continuation of real property.

WHY WORRY HOW TO VOTE? This poster did not bear the name or address of the author or publisher so, it is alleged, its posting was in violation of the corrupt practices act. This is the same placard for the posting of which Frank L. Hay, of Harrisburg, paid a fine of \$10.

TRAIN KILLS CANBY MAN Partner of Victim Nearby Falls to See Fatal Accident.

CANBY, Or., Dec. 6.—(Special.)—Pete Seltors, about 50 years old, was struck and killed by a South-bound Southern Pacific train about 3 o'clock this morning. He and his partner, Bert Ellison, spent the early part of night at Barlow and came to Canby at 11 o'clock. They started on their camp along the Southern Pacific tracks. Ellison left the track to walk on the road, Seltors continuing on the track.

The inquest will be held Sunday. The dead man had a brother, Ole Seltors, living in South Portland, and an uncle named Olson, who runs a cigar store at Astoria.

PROJECT GETS ATTENTION Colfax Committee on Palouse Undertaking Will Meet.

COLFAX, Wash., Dec. 6.—(Special.)—Julius Lippitt, president of the Colfax Commercial Club, has called a meeting in interest of the Palouse Irrigation Project, to be held at the Courthouse, beginning at 10:30 A. M. Tuesday. It was expected that Senator Jones could

Woman With Marvelously Beautiful Hair Gives Simple Home Prescription Which She Used With Most Remarkable Results.

I was greatly troubled with dandruff and falling hair. I tried many advertised hair preparations containing arsenic, but they all signally failed; many of them made my hair greasy so it was impossible to comb it or so it it up properly. I think that many of the things I tried were positively injurious and from my own experience I cannot too strongly caution you against using preparations containing wood alcohol and other poisonous substances. I believe they injure the roots of the hair. After my hair fell out, I finally found a simple prescription which I can unhesitatingly state is beyond doubt the most wonderful thing for the hair I have ever seen. Many of my friends have also used it, and not only is a powerful stimulant to the growth of the hair and for restoring gray hair to its natural color, but it is equally good for removing dandruff, giving the hair life and brilliancy, etc., and for the purpose of keeping the scalp in first-class condition. It also makes the hair tender to comb and arrange in nice form. I have a friend who used it two months and during that time it has not only stopped the falling of his hair and wonderfully increased its growth, but he practically restored all of his hair to its natural color. You can obtain the ingredients for making this wonderful preparation from almost any drugstore. The prescription is as follows:

Bea-Rum, 6 cc.; Menthol Crystals 1/2 drachm; Lavona de Composee, 2 oz. If you like it perfumed add 1 drachm of your favorite perfume. Shake, however, is not necessary. Apply night and morning; rub thoroughly into the scalp.—Adv.

Three Splendid Specials From the Shops of COWAN CHICAGO

Of solid Cuban mahogany. Made by this famous maker of good furniture and offered at prices far below the regular as an incentive to homefurnishers to possess and thereby know the worth and beauty of furniture bearing the Cowan shopmark.

This is the Cowan policy: To make up, in immense quantities, certain standard pieces of their line, thereby greatly reducing cost of production. These are then sold to their representatives at almost actual cost, the representatives in turn distributing these specials in their respective territories at a profit sufficient only to cover expense of distribution. It is for this reason that you are enabled to secure these fine Cowan productions at such unusual reductions.

Make a Selection of One of These Fine Cowan Pieces for Christmas We'll Gladly Hold Same for Future Delivery if Desired

This English Tea Cart or Dinner Wagon \$23.75. Cowan Library Table, Special \$43.50. Martha Washington Sewing Table \$18.50. Also of genuine solid Cuban mahogany. Beautifully proportioned. A Colonial design. Top measures 32 inches by 54 inches. The price at which this fine Table is now offered is considerably below the price it would be sold for regularly—\$95. This Table now displayed in one of our Fifth-street windows. See the Many Other Cowan Pieces and Suites in Solid Mahogany Displayed on Our Floors.

The Productions of Cowan of Chicago and Berkey & Gay of Grand Rapids Shown in Portland Here Exclusively

Fifth and Stark J. G. Mack & Co. Fifth and Stark

be here at that time to explain proper methods to get this project before Congress, but he was unable to keep this date. Senator Jones, in letters to the project committee and Commercial Club stated that if a favorable report came from engineers and the Reclamation Service and its consulting engineers, the project would without doubt be undertaken in a short time. He said the survey was the important event at this time. Freeman to Be Returned. Deputy Sheriff Harry Aldrich will leave this morning for Cathlamet, Wash., to return F. H. Freeman, alias "Pat" Freeman, wanted here for non-support of his family. Information was received late this week that Freeman is in the Washington town, and Sheriff Word intends to lose no time in getting him back. Two Divorces Carry Alimony. Circuit Judge John S. Coke, who is sitting in Judge Morrow's department of Circuit Court, granted two divorces yesterday, both for cruelty. He granted a decree to Christina Russa from Frank Russa, and directed the husband to pay his wife \$100 per month alimony. A. J. Gauer was granted a divorce from Grace Gauer. Judge Cleston signed a decree separating Henry and Anna Bird Morgan and directing Morgan to pay \$15 a month alimony.

FACTS About Butternut Bread

Butternut bread is the result of careful study and scientific experimentation covering a period of 10 years. This loaf is made from the finest Spring wheat flour milled, blended with the highest grade of Winter wheat flour. We also use milk and compressed yeast, which materials we have found from careful tests to be the best in the market for bread. All ingredients are accurately weighed by automatic scales, the flours carefully blended. Our machines are the latest type and we beat the flour three times and the doughs are thoroughly mixed by a giant two-arm dough mixer. The doughs are scaled and made up in the cleanest way, all by machine. The ovens are tiled and they are washed and shining—we fire them with oil from beneath—this does away with ashes and fumes and baking chamber—the baking chamber is snow white. Our method of handling bread is so scientific and accurate that one dough has identically the same treatment as another—this making our Butternut Bread the finest and most uniform loaf manufactured. Our delivery service at present consists of 10 wagons, attractively painted, covering the center of Portland, and you find our men are courteous and taking pains in your wants. Give us a trial and be convinced.
