TRIUMPHANT REBEL MARCH IS CHECKED

terest in Washington centered today on the military operations. Confidential reports indicate the victorious southward march of the Constitutionalist armies has received a check, the extent of which is not yet known. Whether the rebel leaders themselves have taken alarm and are preparing to modify their plans of compaign to meet the threatening aspect of the federal forces was, however, not posttively affirmed.

Owing to the absence of telegraphic communication and to the reluctance of the officers here to divulge any of the movements of the contending armies in Mexico which by any chance might aid one or the other of the factions unfairly, it is not possible to ascertain all of the phases of this last military development,

Federals Turn Flankers.

It is understood, however, the federal leaders in the north who, after the supposed defeat sustained by them in the battle of Tierra Blanca, were believed to be returning northward in an effort to find refuge across the border in Texas, actually had abandoned that purpose. Instead, it is reported they have reorganized their forces and begun a flanking movement on the army which the rebel General Villa has rushed from the captured city of Juarez toward Chihuahua.

Villa's line is much extended and his communication would be placed in Jeopardy by a sudden incursion from a formidable force of 1500 Federals commanded by Orozco, which is rapidly advancing toward him, apparently with the purpose of driving him into

Meanwhile at least two other Federal generals, with fragments of the army reassembled after the battle of Tierra Blanca, are reported to be concentrating on Chihuahua with the purpose of entrapping Villa's command This movement might fall, it is pointed out, through the reinforcement of Villa's command by Carranza troops.

Parliamentary Wrangle Just Before Midnight Threatens Defeat for Time.

ous Debate, by Senators Who Curtail Remarks to Permit

Call of Roll.

WASHINGTON, Dec. 6 .- The Baker ill, giving San Francisco water supply nd power rights in the Hetch-Hetch) Valley, Yosemite National Park, passed the Senate at 11:57 tonight by a vote of 43 to 25. The bill had previously passed the House in identically the same form and goes at once to the President for signature.

Bitter feeling developed tonight in the Senate when a parliamentary mis-understanding threatened to defeat the final vote on the bill. Acting under a unanimous consent agreement to vote on the "calendar day of December 6," Senators became confused as to wheth-er the vote would be prevented if the debate continued until midnight,

Meyers Serves Notice. Vice-President Marshall held the calender would expire then, but re-fused to rule as to whether a vote could be completed if begun, at that time. Several Senators prevented ef-forts to get a supplementary agreement for a vote at some specified time be-fore midnight.

"I serve notice," declared Senator Meyers, in charge of the bill, "that if this vote is defeated through any such means there never will be another unanimous consent agreement so long

as I remain in the Senate."

The situation was relieved when Senators still to speak on the bill announced they would shorten their remarks and bring an early vote.

Senator Pittman, who made the chief speech at the night session in support of the measure, withdrew in the midst of his address in order to smooth the way for a vote. He presented figures to show the Hetch-Hetchy water supply was more than ample for the needs of San Francisco and all irrigable of San Francisco and all Irrigable lands in San Joaquin Valley. He de-clared no other source of water supply would meet the future demands of San Francisco. Much of the opposition to the Raker bill, he declared, was the result of an "endless chain" method of

campaigning. Virtually all municipalities of Cali-fornia favored the bill, he said, while "99 per cent of these people who send these protests have never been inside of the state of California,"

Poindexter Opposes Bill. Senator Poindexter, of Washington, opposed the passage of the bill and said other sources of supply were open to San Francisco. Senators Colt and Gallinger in brief statements also op-posed it. Senator Clark, of Wyoming, declared the bill should be amended so declared the bill should be amended so it would simply give San Francisco the right to the water supply without con-ferring the other rights of ownership and privilege contained in the Baker bill. Unless these amendments were made, he said, he would have to vote

against the bill. work. Senator Poindexter wanted

know how the city had been forced to spend money. "I did not want to go into that," re-plied Senator Norris, "because I have no proof. But I have heard repeatedly that San Francisco, under rulings of

ex-Secretary Ballinger, paid large sums of money to corporations influenced or controlled by John Hays Hammond." Closing Scenes Remarkable.

Septiember 2 hast, of his partner, Morris Root for he phely of Elhius Root, formerly Secretary of State.

Baker said that of the day Root was killed; there 80 Mexican employes had become drunk with a celebration of a Constitutionalist victory. They covered Root's revolver and sought his own premises to attack him. One of the celebrators' shabbed Root through the heart from behind and also inflicted other kinffe wounds.

Then, taking the murdered man's revolver and waving; the kinffe wild had pieced in heart, the Mexicans asivanced on Baker demanding money. Baker managed to evade them and after remaining in the heighborhood long enough to livic Root a burish, left-for the north.

He said the scene of Root's murder was near the Teple-Shales line, 25 miles from a railroad.
