Second Representative of Organization Wing Sent East From Washington.

#### PATRONAGE ROUSES ANGER

Last Stand Being Made by Malcontents. Who Stand Solid for Appointment of George E. Ryan as United States Marshal.

OLTMPIA, Wash., Dec. 13 .- (Special.) Organization Democrats of Washington have a second representative at Washington, D. C., in addition to Warren W. Tolman, of Spokane, endeavor-ing to discover why they cannot land any of the Federal appointments. This man is from Western Washington, and while his name is withheld, a report was received from him this week to the effect that Francis Garrecht, of Walla Walla, would be named District Attorney for Eastern Washington, and that George Canfield, of Spokane, would be named United States Marshal for Eastern Washington. Concerning the United States Marshalship for Western

United States Marshalship for Western Washington, the emissary reported that this matter seemed still an open one, though Hugh Wallace was exerting every effort for the appointment of John M. Boyle, of Tacoma.

The appointment of Garrecht and Canfield would not be either a victory or a defeat for the state organization, since National Committeeman Pattison has declared he has made no indorsement yet for either office.

Dunphy Gets Results.

If Garrecht is appointed to succeed Oscar Cain, whose resignation has been requested and forwarded, credit for the appointment will rest with W. H. Dunphy, of Walla Walla, ex-National committeeman and Garrecht's law partner. Garrecht is now at the National capital having hear and capital havin

Garrecht is now at the National capital, having been summoned for conference, and announcement of his nomination is expected daily.

The appointment of Canfield would not be distasteful, in all probability, either to the organization of anti-organization forces of Eastern Washington. It would mean what has been expected eyer since United States Marshal Jacoby, of Western Washington, and District Attorney Cain were relieved, in advance of the expiration of their terms—that United States Marshal isalteman, of Eastern Washington, will isalteman, of Eastern Washington. Halteman, of Eastern Washington, will be asked for his resignation, though his term is not nearly completed. Learning that Governor Lister did

not propose to mix personally in the Federal patronage fight, practically every one of the appointive state offi-cials this week signed a telegram to the National Administration, protesting vigorously against the appointment of anyone but George E. Ryan, of Seattle as United States Marshal for Western Washington.

Ryan Has Clear Field.

The only argument thus far advanced against Ryan, who has solid organization indorsements, is that he comes from Seattle, and that since the District Attorney has been appointed

officials was taken without consulting Governor Lister and they signed the telegram of protest without affixing their official titles, but it is not of record that the Governor was displeased when he learned what had been done, and while he will not engage personally in the fight, the action of his appointees is regarded as reflecting his own desires.

RAYMOND, Wash., Dec. 13 .- (Special.)—The Council at its meeting this week opened blds for the issue of \$69.

This company bid 5½ per cent par, with accrued interest Milton Methodist Church, conducted and \$711 premium, besides agreeing to pay the costs of issuing the bonds. and \$711 premium, besides agreeing to pay the costs of issuing the bonds. The bid was accompanied by a check

The bid was accompanied by a check for \$3500 with the agreement that it should be applied on the purchase of the bonds if their bid was accepted. The state submitted by telegraph a bid of 5 per cent par, but with the statement that the fund was so low at the present time that only one-third of the purchase price could be paid at once, the remainder to be paid later. Although the interest rate was \$5 per cent lower than Morris Broth-14 per cent lower than Morris Brothers, the latter bid was considered the best, as the state bid did not include accrued interest and the Morris Brothers' bid would permit all war-rants to be taken up at once and thus stop the higher rate of interest now being paid,

President of Washington Federation Pays Visit to Raymond.

RAYMOND, Wash., Dec. 13. — (Special.)—Mrs. J. S. McKee, of Hoquiam, president of the State Federation of Women's Clubs, who has been a guest of the Civic Club since Thursday afternoon, was tendered an informal re-ception last night in the Commercial Club rooms. Many ladies from South Bend were in attendance, in addition to the local clubwomen, their husbands and other guests.

The reception followed an interesting business meeting in the afternoon, when Mrs. McKee told the ladies what the state federation had accomplished during the past, and outlined its aim for the future.

Hogs Prove Profitable Product.

THE DALLES, Or., Dec. 12.—(Special.)—A. H. Fligg an Eight-Mile-Valley farmer, has had his first experience with hogs and corn this year, and he is enthusiastic. As soon as his small litter of pigs became large enough this Spring be commenced feeding them corn. They were marketed yesterday and averaged 205 pounds dressed. The meat was declared the finest ever seen local markets. The farmer received more than \$20 for each pig, growing

PARMERS MAKE PROFIT BY HOLD-ING FOR HIGH PRICES.

Oats and Vetch Yield Heavily and Barley Crop on Some Farms Is of Record Proportions.

BUENA VISTA, Or. Dec. 13.—(Special.)—Continuous shipments of grain out of various parts of Polk County during the last three weeks have nearly cleared the season's yield. Warehouses and farmers' private bins in many cases have just been emptied. Much grain and clover seed was held for higher prices and the growers have obtained satisfactory results from the holding.

holding.

This year an enormous crop was harvested in all sections of Polk County. In July the grain was cut with binders and toward the last of the month the grain area became dotted with shocks. The work was completed earlier than usual. Throughout the esason the absence of rain was noted, and the vetch, which is easily ruined by rain, was threshed first.

threshed first. threshed first.

The crops, especially oats and vetch, "panned out" heavily. Oats yielded from 25 to 60 and wheat from 20 to 40, and vetch averaged about 25 hushels an acre. The acreage in wheat was not great, and it is said that the county will use the greater part this Winter. Clover, which was grown extensively this year, yielded

## Alveolar Dentistry

ELIMINATES PLATES AND BRIDGEWORK.

Its Simplicity Suspected.

The simplicity of the Alveolar System, the feature that recommends it to the unprejudiced and practical people, has been the principal cause of the skepticism and opposition raised against it. The belief obtains that if anything is not complicated it cannot be entirely satisfactory. To these a certain amount of professional verbinge and phraseology, red tape and circumlocution appear to be necessary in order to insure security against fraud. The Alveolar System has been attacked from apparently every possible angie, but so far it has proved impregnable.

Alveolar Teeth, Where Bridgework Is

angle, but so far it has proved impregnable.

Alveolar Teeth, Where Bridgework is Impossible.

If only your front teeth are left, say three or four or more, we can replace all of those that have been lost on both sides clear back with perfect Alveelar teeth, whilst bridgework would be impossible, even if you had eight or ten front teeth to tie to. If you have only two back teeth on each side, say molars, we can supply all the front teeth that are missing with beautiful, serviceable, lifelike Alveolar teeth. This could not possibly be done by the bridge route. And where bridgework is possible there is no comparison between the two. A very large percentage of our work is taking out bridgework put in by supposedly high-class dentists, and replacing it with the beautiful and artistic Alveolar teeth. And, unlike bridgework in another respect, it is practically painless. No boring or cutting into the gums, nothing to be dreaded. Now, then, prices being equal, which would you choose?

you choose? Yearshea (loose teeth), a disease given up by most dentists as incurable, is another of our special-ties. It's a boastful statement to make, but we can do anything that is possible in dentistry, and what we do is always of the very highest class. Our booklets, Alveolar Dentistry, are free. Write for one if you cannot call. We have samples of our work to show at all times.
