MOYER OFFERS NEW ARBITRATION PLAN

Proposal Made to Leave Issues to Men Chosen by Governor and President.

ORIGINAL OFFER REVISED

Pederation President Calls on Officials of Mining Companies to Submit Controversy and Restore Peace Forever.

CHICAGO. Dec. 27.—Charles H. Moyer, president of the Western Federation of Miners, said today that he had forwarded to the mine owners the following letter proposing a new baris of arbitrating the strike in the Peninsula Copper district:

"On the eve of the burial of the victims of the terrible disaster which occurred in our midst at a time when the doctrine of pence on earth and good will to men was being spread among the little enes of your employes who were striking for what they believe to be a just cause, I again come to you in their behalf and ask that you join with me in an effort to adjust this deplorable controversy.

Labor Demands Hearing.

Labor Demands Hearing. "Acting with authority from the striking miners I have submitted to you torms of arbitration which should appeal to anyone who is desirous of bringing to an end a conflict which has been going on for more than five months, during which time millions of dollars have been lost and unnecessarily expended, and human lives have been sucrificed, to say nothing of the been sacrificed, to say nothing of the sufferings of the participants and those who must necessarily feel the effects of an industrial conflict at this

"The thinking people of this country believe that there must be something to settle between the employers and their employes of this district. Can you longer maintain that there is but one side to this question and that labor one side to this question and that labor shall not be given an opportunity to be heard. In my last proposal of arbitration, I agreed that the mining companies at interest might select two the miners on strike, two, who are not members of their local organization or the Western Federation of the United States or the Governor of the State of Michigan should select one and the entire question in dispute one and the entire question in dispute be submitted to said board and that all partism interests be bound by their findings.

Revised Proposal Submitted. Instead of this I submit to you the

Governor Ferris said he saw nothing in Moyer's latest settlement proposition to which he personally, would object He called attention to the fact that he advised the mine operators to accept the first proposition for a settlement of the difficulties which Moyer made, and which was included in the statement given out in Chicago today by the president of the Western Federation of Miners.

"When I suggested to the operators that they consider the original Moyer's has been acted as messenger in the quest for confirmation of the charge. He disappeared for a few

"When I suggested to the operators that they consider the original Moyer plan they told me such a course would be an insult to the men who were working in the mines," the Governor said. "They said the men in their employ at that time did not want to have anything to do with the Western Federation of Miners.

"It is said the Calumet & Hecla mines are now being operated with practically a full force of men. If the Calumet & Hecla operators are telling the truth, these men do not want to have anything to do with the Western Federation. I have put the subject up to the operators several times. They will not take back the strikers indiscriminately."

WEST SIDE DELEGATION GAINS NOTHING AT CONFERENCE.

Const Contingent Bidding for United Action to Get Regional Bank at Senttle Finds Rivals Obdurate.

SPOKANE, Wash., Dec. 27 .- (Spe SPOKANE, Wash, Dec. 27.—(Special.)—After a conference today at the Spokane Club, with a delegation of West Side bankers on the matter of the location of a regional bank in the Pacific Northwest, the Spokane Clearing-House Association unanimously voted to continue to advance the claims of Spokane as against Seattle, and telegraphed R. Lewis Rutter, president of the association, who is in Washington. The West Side bankers were solid for Seattle and declined to consider Spokane as a possibility for the Federal reserve bank, and the local bankers were equally obcurate for Spokane.

As expected, the West Side delegation urged united action on the part of the entire state for Seattle and cut-lined the claims of the Coast city. They failed to convert the local bankers to their way of thinking.
