National Honor Declared More Important Than Indemnity of \$25,000,000.

TREATY IS BEING FRAMED

Negotiations Being Carried On in Friendly Way—Right to Use of Canal on Equal Terms Is Part of Demand.

WASHINGTON, Jan. 10.—Colombia places other considerations above monetary indemnity in the settlement of the long standing controversy with the United States over the separation of Panama from the South American country, according to Julia Betancourt, the Colombian minister in Washington. In the treaty of settlement that is being negotiated, but which has not finally been agreed to, Minister Betancourt said today financial recompense for the loss of Panama was held by his government secondary to stipulations which deal with the recognition of the Colombian law fixing the boundary between that country and Panama and the right of Colombia to have the same rights to use the Panama Canal as the United States. Until the details of the two questions are finally agreed to, it was said the amount of money to be paid to Colombia by this Government would not be determined although \$20,000,000 has been reported as the approximate amount. Another report has fixed the indemnity at \$25,000,000. "As for the supposed \$25,000,000 as the salient feature of the agreement," Minister Betancourt said, "the legislation which would fix that amount is not so serious a matter for Colombia as the amount of money a secondary matter. The question of the indemnity involves matters higher than mere dollars. The negotiations are being carried on in a friendly way at Bogota and at Washington, but pending the absence from Colombia of American Minister Thompson, it is too early to talk of a final settlement. Colombia feels it is said, that the granting to her of the right to use the canal on the same terms as the United States, just as though the canal were still in Colombia territory, is a practical recognition to the nations of the world that this country thus repays the inheritance right which the South American country has in the canal, as would have been the case if Panama had never revolted. Mr. Thompson, who returned to this country because of his wife's ill health, expects to sail for Colombia early next month to resume the negotiations for the treaty which was nearing final settlement when he left Bogota recently.

LIBERIAN PIONEER DIES

Last of Original Emigrants Passes at 94 in London.

LONDON, Jan. 10.—Mrs. Jane Roberts, widow of the first president of the Republic of Liberia, died here today at the age of 94. Her late husband, J. J. Roberts, was elected president in 1847 and served several terms afterward. He died in 1874 while in office. Mrs. Roberts died at the residence of J. R. Archer, the negro Mayor of the London Borough of Battersea. The aged lady was born in America. She was the daughter of a Mr. Waring, a Baptist minister, who emigrated from America to Liberia. Mrs. Roberts was said to be the last survivor of the original emigrants to Liberia. In the course of several visits to Europe with President Roberts she was received by Louis Napoleon when he was president of France, by the late Queen Victoria and by the late King Leopold of Belgium.

MILITIA CONTROL DESIRED

Garrison Demands Wider Jurisdiction if Pay Bill Passes.

WASHINGTON, Jan. 10.—Secretary Garrison declared today that he would not endorse any militia pay bill that did not give the United States greater jurisdiction over the state troops, including the power of sending them on foreign service without call for volunteers, as was necessary during the Spanish war. "The Dick bill does not go far enough," said Secretary Garrison. "I want a bill which will give the Federal Government adequate, tangible results in return for the money advanced. Under existing law the organized militia can be used only within the borders of the United States.

MAILCARRIER IS INDICTED

Federal Law Against Loitering on Duty Is Invoked.

CHICAGO, Jan. 10.—Michael B. Coyle, a mailcarrier, was indicted today by the Federal grand jury under the statute which makes it a crime for men while on their route, or delay by them in delivering their mail, a criminal offense. It was charged that Coyle failed to complete his route Christmas day, but left his bag which contained several registered packages, at the home of a friend. Five years' imprisonment and a fine of \$500 may be imposed for violation of this law.

SAVE SUET, SAY EXPERTS

Cookbooks Mislead Housewives as to Use of Valuable Food.

WASHINGTON, Jan. 10.—American housewives waste valuable food and increase the cost of living when they throw away suet or use it for soap-making, says the Department of Agriculture in a statement today. Suet, the experts contend, contains the same food value as lard, and is a satisfactory substitute for frying purposes and shortening. Cookbooks have misled the housewives, they say.

STATE LOTTERY IS HUGE

Whole Communities Made Affluent in Spain.

Christmas Drawing at Madrid Conducted With Elaborate Precautions for Fairness.

MADRID, Jan. 10.—The climax of the state lottery season was reached in the drawing for the Christmas lottery, when novel precautions were taken to insure honesty. The three prizes at stake amounted to 11,000,000 pesetas, or about \$2,200,000. The drawing for the winning numbers was done in a large hall of the Casa de la Moneda in the presence of a delegate of the government and other state functionaries, with the public filling up the benches in the body of the hall. The numbers of each of the tickets sold were placed in separate metal balls. After being mixed they were poured into a gigantic transparent barrel, in which they were further agitated by a mechanical contrivance. The same process was gone through with a barrel of smaller dimensions, containing balls in which were placed the figures of the winning prizes. At the moment of drawing there was dead silence in the hall, interrupted now and again by whisperings and joyous exclamations. Two children from the State Orphanage drew first a winning number then a ball denoting the amount of its prize. When the biggest prize of 6,000,000 pesetas was drawn the reporters rushed for their automobiles in a body, and in a few moments special editions of the papers were on the streets announcing the winner, who was a resident of Madrid. The tickets for the Christmas lottery cost \$200, but it was possible to buy a hundredth or even a thousandth part of a ticket, and often whole communities of poor people are thus rendered affluent at Christmas by their share of a ticket bought by the few cents which they have saved up.

HOUSEWIFE GRATEFUL TO PERUNA.

I Hope Other Suffering Women Will Give Peruna a Trial as I Have Done

Mrs. James F. Summitt, 1008 East 8th St. Muscatine, Iowa writes: "It has been some time since you have heard from me, but I am getting along all right. You ask my permission to publish my testimonial. Certainly you may. I will send photo with this mail and hope my testimonial will be of benefit to many mothers, for Peruna has surely done wonders for me. I will answer each and every letter sent to me. I recommended Peruna to a friend of mine whose daughter was suffering with a very severe case of bronchitis and the doctor did not do her any good, so I told her mother about Peruna and she began giving it to her daughter. Now she is well and strong and working every day. "We are still using Peruna whenever we need it in our family. We would not be without it. My husband's health is much improved by its use. Also, I have used it with great results. Peruna has cured me. I hope other suffering women will give Peruna a trial." Those who object to liquid medicines can now procure Peruna Tablets.
