Typhoid Epidemic Abated, City Begins on Wide Campaign to Prevent Recurrence.

GRAVITY SYSTEM ORDERED

Delay in Voting Bonds Partly Responsible for Disease Outbreak, Is Belief -- Emergency Organization Most Efficient.

CENTRALIA, Wash., Jan. 10 .- (Speclal.)—While it will be some time yet before the City of Centralia entirely recovers from the effects of the typhoid epidemic, the backbone of the epidemic has been broken. No new cases have been reported this week and the grat majority of these afflicted are speedily

majority of these afflicted are speedily recovering.

Now that the epidemic has been checked, the city and county health authorities are turning their attention to preventing its repetition. Under the supervision of City Engineer Stanley Macomber every home in the city is being visited and the householders instructed to clean up wherever there might contain disease-bearing materials. All wooden garbage barrels have been confiscated and the owners instructed to replace them with sanitary galvanized iron receptacles. galvanized iron receptacles. Floods Clean Up Streams

It is believed that the floods this week will go far toward clearing the streams and ditches of all contamina-

State and Federal health experts who were here off and on during the epi-demic have attributed its sourch to the local water system. The epidemic oc-curred just as all plans had been laid for the construction of a municipal gravity water system. The fight for gravity water started two years ago, and had the first election carried, the typhoid would undoubtedly never have broken out. Bonds to the amount of \$300,000 were voted in December, 1913, for the purchase of the local plant of for the purchase of the local plant of the Washington-Oregon Corporation and the building of the gravity sys-tem. The local plant was purchased last June, but it was not until last month that the contract for building the gravity system was let to W. H. Mitchell, a Seattle contractor. Mr. Mitchell will begin work on the sys-tem next week. The system will cost about \$135.900.

The system will cost about \$135,000. The intake will be located 14 miles up the Newaukum River, in an unopened territory, thus insuring a water supply of undoubted purity. Consulting Engineers Kelsey and Stannard, of Portof Eugene. land, who have surveyed the route of the pipeline and inspected the intake, assert that there is sufficient water, even in the dry season, to supply a city of 50,000 population. Until the com-pletion of the piant, which will be about January, 1915, both County Health Of-ficer Dr. E. L. Kniskern and City Health Officer Dr. David Livingstone have advised local householders to boil

season, but the merchants laid aside ket, yesterday at Lofft's place of busi-all thought of personal loss, ness.

Emergency Organization Good. Local women volunteered as nurses and Scattle send down an interne from the emergency hospital of that city to the emergency hospital of that city to take charge. When he was forced to return the state sent down four doctors. H. M. Robinson, secretary of the Centralia Commercial Club, was placed at the head of this force. Those who inspected the hospital were amazed that such an efficient organization could have been perfected on such short notice. That it was efficient is evidenced by the fact that some of the worst cases on regord were confined. worst cases on retord were confined there and that only one death occurred. metropolitan dailies of the Northwest contained accurate accounts of the situation, and that this was ap-preciated was evidenced in the resolutions of thanks to the Portland, Ta-

Welfare Commission Finds Thos Who Hire Women Think Pay Required Is More Than Minimum Scale Fixed in Oregon.

OLYMPIA, Wash., Jan. 10.—(Special.)
—Washington employers of female
labor estimate that it costs a working
woman or girl from \$9.81 to \$10.29 a
week to support herself. The Industrial Welfare Commission,

here, walved preliminary examination Centralia authorities and residents are descrying of unlimited praise for the manner in which they rallied to the fight against the epidemic, as well when he appeared to answer to the as for the willingness they are now charge of mayhem, having, it is alleged, showing in according the health of-ficers every aid in their work of clean-ing up. The worst of the epidemic during an alternation between Brooks ing up. The worst of the epidemic during an altercation between brooks came in the midst of the Christmas and Lofft, proprietor of a meat mar-

care, the state offered the use of the Armory as a hospital. The state furnished cots and bedding was donated from the private homes of the city, while many of the local business houses furnished needed supplies free. Even with these donations if was seen that the expenses of the emergency hospital would be great, and the Lewis County Commissioners, through Chairman E. E. Teachnor, came to the front with an offer to stand all of the expense.

Denote the statement. One their employes lived with their families. On the other hand 44 employes made no estimate for insurance and 32 did not include streetcar fare as a necessary expenditure. Following is an average of the estimates for a year's expenditure for each of the commissioners, through Chairman E. E. Teachnor, came to the front with an offer to stand all of the expense.

Emergency Organization of the control of the control of the control of the control of the commission's blanks:

Strangle hold with his teeth on his adversary's ear, biting off about one-third of it.

third of it.

Lofft says he did not strike Brooks but threw him out of the market. The defendant says the butcher started the fracas and that he was merely defending himself.

OREGON PIONEER PASSES

D. O. Durham, Resident of State 6 Years, Dies at Camas.

M'MINNVILLE, Or., Jan. 10.—(Special.)—D. O. Durham, 87 years old, who moved to McMinnville more than 50 years ago, and who was for many years a prominent man of this com-munity, passed away in Camas, Wash., Tuesday, The funeral was held here tions of thanks to the Portland, Tacoma and Seattle papers passed at this week's luncheon of the Commercial Club. California papers had 1994 cases of typhoid, while even in Grays Harbor the report was current that those afflicted were dying faster than the undertakers could bury them. Less than 300 cases were reported and only 17 deaths.

POULTRY AWARDS MADE

Tuesday, The funeral was held here from Macy's pariors on Wednesday, Interment was in Masonic cemetery, the Rev. Joseph Hoberg officiating.

Mr. Durham was born in New York and went to Illinois while a boy. He came to Oregon in 1852, first settling at Middleton and moving to this city in 1862, where he resided until three years ago, when he moved to Camas, Wash. He was married to Sylvia Clark, July 20, 1853. His wife died November 18, 1898. Four children were born—Exra J., Walter H., James E., and Jesse E. Durham. Jesse died February, 1876. Walter H. and James E. Durham were present at the burial of their garded as necessities.

\$1.35. Pay \$1.12 for Medical Aid and Lose \$3.10 in Salary-Accidents Increase.

OLYMPIA, Wash, Jan. 10.—(Special.)

That the employe, rather than the mployer, still bears the major share the loss from industrial accidents of the loss from industrial accidents. -That the employe, rather than the employer, still bears the major share of the loss from industrial accidents,

which the cost of medical treatment was given, the following averages have

Average daily wage of injured work-Average daily award under compen-sation act, \$1.35. EXECUTIVE OBJECTS TO REPORT

Average daily cost of medical treatment during disability, \$1.12.

Since the Washington law lacks a first-aid clause, no provision is made at present for bearing the cost of medical attendance by the state, while the state award for time loss averages less state award for time loss averages less han half the employes' actual loss. Stating that the question of the sufstating that the question of the said countries of the award has been seriously raised by the workmen, the Commission, in its foreword to the report, says it will reserve any recommendations for amendment of the law for the next annual report, which will be submitted to the 14th Legislature, and which will embody the experience of the Commission through a greater

which will embody the experience of the Commission through a greater period of time.

The Commission praises the compulsory feature of the Washington act. "The operation of the law convinces that in the Commissioners state, "that in us," the Commissioners state, "that in the news reports, I would be the commissioners state, "that in the news reports, I would be the commissioners that the commissioners state, "that in the news reports, I would be the commissioners that the commissioners that the commissioners that the commission through a greater trary notwithstanding. "I dislike to go into print regarding this matter, as it furnishes us with a commission praise the commission praises the computation of the law convinces the commission praises the computation of the law convinces the commission praises the computation of the law convinces the computation of the compu us," the Commissioners state, "that in order to have the harmonious, cohesive support of the employer and employe, all must come within its provisions."

The report comments on the marked increase in the number of accidents reported during the second year. During the first year under the law 6356 claims were tabulated; during the second year, the same to become known from cutside sources, but either he has made false representations or the press has

This remarkable increase, the Commission states, is due primarily to two and should make an apology.

"We are a farming and stock-raising two months of the first year over-lapped into the report for the second two menths of the first year over-iapped into the report for the second year, and the employment in hazardous industries of at least 25,000 more men desired the very large two parts and the same industries of the least 25,000 more men desired the very large two parts and the same that the same during the year just past. However, the Commission comments, the results

for the year demonstrate "that indus-trial hazard has, at least, not been materially lessened." within the state.
"If the Governor gave out the report, why does he not serve us with proper notice, and if the report is untrue, The report indicates that a surprisngly small percentage of the accidents could have been prevented by installa-

tion of mechanical safeguard.

Class 10, including all operators in the logging and lumber industry, is made the subject of a special report covering several pages. Of the 47,548 workmen engaged in the industry, 268, or one of every 355, met death during the very

TRUE WORDS LEGITIMATE

Our experience is your profit. When you buy a used car from us you are sure of full value.

THE REASON

We sell the used cars for what we allow for them after they have undergone all necessary repair at our expense. Our knowledge allows us to appraise a car at its market value. We accept only cars of good make and which need but little repair.

NO MORE

The days of large allowances are past. There have been any number of so-called automobile dealers who have tried the large allowances in trade purchases. The majority of them are out of business, and those who are still in business are trying to solve the problem how to dispose of the large number of used cars, or tied up assets so that they can remain in business.

NOW THEN

If we know they are worth what we pay for them, you are bound to get value. See the classified columns of this paper for our bargains in used cars.
