OREGON'S CHOICE FARM LANDS.
$15 to $25 Per Acre.

Alfalfa hay and fruit land, only 10 to 15 miles from town and railway. Out of the frost belt, at elevation of 1000 feet, with a longer growing season than Walla Walla or Yakima. The soil is deep, rich genuine volcanic ash, free from sand and rock. Only 150 miles from Portland. With water this land will produce as much per acre, of all the different products, as the highest-priced lands of the Northwest. Our long season allows us four crops of alfalfa. Artesian water has recently been struck in this vicinity, at a depth of only 177 feet. A second Walla Walla is the prediction of those who have investigated. No one has seen this land that has not bought all their pocket books would allow. To enable us to place the balance of our land under artesian irrigation, we are for a short time selling a limited amount of this choice land in tracts of 80 acres or more, on terms. See me at Room 508, Hoyt Hotel.

5 DAYS ONLY.

This is the biggest snap we have ever listed for sale and we have only five days in which to sell it. It must be sold by January 23d.

38 acres, 10 minutes' walk from Oregon Electric station, less than 20 miles from Portland.

18 acres genuine beaverdam land, all level and all cleared. On balance of land there are about 300 cords of wood that can be cut and delivered in Portland at $2.40 per cord. At the very lowest possible price there is $1 per cord profit in it and you can let a contract to cut and deliver it. Any hustler can pay for this land in a very short time out of the wood and have left a 40-acre dairy or general farm worth no less than $4000.
Five days ONLY. Price $3000. Terms, $750 cash down. Balance arranged.

TO EXCHANGE

HERMISTON ALFALFA LANDS.

The Umatilla Government project is in the best alfalfa district in the West. It produces more alfalfa per acre, nearer rail and water transportation and good markets for alfalfa hay and all its by-products, such as beef, butter, hogs, mutton, poultry and honey than any other alfalfa district in the United States. Strong terms without contradiction. Uncle Sam believed this story enough to add 30,000 acres more on which construction work for the irrigation system is under way. We have a dry climate and a low altitude and a high latitude which conditions are exceedingly rare in the north temperate zone. No man dares estimate our possibilities.

If you want a tract of this land, write me. I have land for sale or trade. Some improved, some partly improved, others still in sage brush; prices are right, terms are good. Here are a few samples:

40 acres, two miles from Hermiston, will trade for Portland property, $4000.

40-acre homestead relinquishment, partly improved, four miles out, to trade for town property.

20 acres, one mile and a half out, improved, 12 acres in two-year-old trees and alfalfa strips, balance in cultivation; good house; will take Willamette Valley property, $4000.

40 acres three miles out, half in alfalfa balance easy to seed; cash or half payment; $5000.

10 acres, mile out, house, barn, few trees, want small town property; $2900.

20 acres, two miles out, house, barn, 5 acres in fruit, 7 in alfalfa, nearly all cleared; for South Bend property; $4000.
