How to Grow Long Beautiful Hair

By a Hair Specialist.

It is not hard to stop the hair from falling out and promote its growth if the right means are used. There is no hope for the scalp where the hair roots are dead and the scalp is shiny. However, to those who have not reached this condition, immediate steps should be taken to stop it before it is too late. Here is a simple recipe which you can make at home, that will stop the hair from falling out, promote its growth and eradicate scalp eruptions and scalp humors. I know of cases where the hair has grown from four to five inches in a few months after using this simple recipe: To a half pint of water add 1 oz. bay rum, a small box of Barbo Compound and 1/4 oz. of glycerine, and apply to the hair, rubbing with the finger tips, two or three times a week. These ingredients can be obtained at any drug store at very little cost and mixed at home. This recipe not only promotes the growth of the hair but darkens streaked, faded gray hair and makes it soft and glossy.—Adv.
