Young Bowen first felt the animal as it jumped up and put its forepaws on his back. He thought it was a dog and whirled around only to find it to be a lean coyote. Whether it was dazed by its unusual surroundings or was afflicted with dumb rables the boy could not determine. It did not run away when he turned, but trotted along beside him for a time as he fled wildly up the street, and then it turned up an alley. CRIME LAID AT DOOR OF JUVENILE COURT

LINDSEY TYPE OF JUSTICE IS RAPPED BY JURIST.

Misdemeanors Dignified in Eyes of Youth by Probation Systems, Declares Judge Brown.

BERKELEY, March 21 .- (Special.)-Juvenile courts and probation systems are responsible for more crime that the courts can take care of, says Judge Brown, National chairman of the Com nittee of Parental and Educationa Proceedings, head of the Boys' City in Michigan, and author of bills before Congress to establish Federal parenta courts throughout the Nation. Judge Brown reached Berkeley today after conferences with leading attorneys and juvenile workers on the Coast.

A worker with and for boys, Judge Brown says, would root out the Lindsay type of juvenile court as the direct agent for a startling increase in youth ful crimes.

"In cities with the oldest juvenile ourts," said Judge Brown, "crimes of vouths have increased in alarming proportion. In San Francisco 10 per eent of crimes are committed by boys less than 18 years; in Denver the percentage is 25. The fault lies with the sen timentality that has dignified misde meanors in the eyes of the youth, who becomes proud to call Judge Blank his judge, and who is immune when on probation.

The States of Oregon, Washington and Idaho will produce a bumper crop of wheat this year, and unless all signs fall, the yield will be a record-breaker. Experienced grain men predict an outturn of at least 70,000,000 bushels of this cereal in the Pacific Northwest.

These views are based on the remarkably fine condition of the Winter wheat crop in the three states. From the date of planting to the present time, all conditions of climate, soil and moisture have been ideal. From every point port of perfect growing weather and fine stand.
