Three Candidates for Festival Honor Have 40,000 Votes—City Hall Enters Stenographer—New Voting Form Adopted.

In a sensational sprint during the past 48 hours, Miss Alice Husby jumped from 16th position to the lead in the race for queen of the Rose Festival, when the official count was tabulated at noon yesterday.

Miss Hazel Hoyt, who led in the previous count, dropped to fourth position. Miss Fitzgerald, who led the struggle during the fore part of the week, is in second place, which she has held for the last three days.

With Miss Theodora Collingworth in third place the contest among the trio of leaders is close. The other contestants are scattered within close enough range of each other to shift positions with each bundle of ballots submitted.

Miss Matilda Peterson, a stenographer in the office of the building inspector, has been selected as the City Hall candidate. She started in the race last Monday, at which time she was twenty-third in the race.

The latest candidate to be entered is Miss Sadie E. Vigis, of 688 Everett street, who has been entered by the Portland Ad Club after a club election on the most popular of several dozen names submitted.

A new form of voting will be inaugurated beginning tomorrow, when three series of certificates will be placed on sale at Rose Festival headquarters, 428 Morgan building. These will be in the following denominations: 25-cent certificates good for 125 votes; 10-cent certificates good for 50 votes; 5-cent certificates good for 25 votes.

BOND CASE GOES HIGHER

Judge Cleeton Takes Action Which Allows Appeal on Bridge Issue.

Without objection from any of the attorneys interested in the case, Circuit Judge Cleeton yesterday sustained the demurrer to the complaint in the friendly suit brought by T. N. Stoppenbach to restrain the County Commissioners from issuing \$1,250,000 bonds for the construction of the Columbia River interurban bridge, thereby dismissing the suit. Notice of appeal to the Supreme Court was given, from which final trial a decision is wanted on the legality of the bonds.

Yesterday's ruling by Judge Cleeton upholds the validity of the bond issue, but was made without arguments that the case might be hurried to the higher court. If Judge Cleeton is sustained in the Supreme Court, the Boston attorneys examining the bonds will be able to report favorably on the issue and the bonds will be prepared and sold at the earliest possible date.

JAPANESE IN ART COLONY

INTERPRETATIONS OF PARISIAN STRUCTURES WIN NOTICE.

Scientists and Psychological Investigators Puzzled by "Spooky" Occurrences in Vacant House.

PARIS, April 18.—(Special.)—The latest art colony in Paris is made up of Japanese street artists from Tokio, who have set up their household gods in the working class quarter of Javel on the left bank of the Seine. Their first prospects are most encouraging. The exotic character of their work has made an immediate appeal to the fancy of the novelty-loving Parisian, and there is already a big demand for their Japanese interpretations of the city's familiar scenes and landmarks.

It is thought by the non-superstitious that there may be a subterranean passage from the old castle of Fougères, near Blois. The house is a sort of bungalow belonging to a retired business man. Between 10 and 11 at night, and again just before daybreak the curtains of the house occupied by the owner and his grandson are shaken feverishly as if by an invisible hand. At the same time a dull thumping shakes the walls and the floors, causing the plaster to fall from the ceiling.

LONDON, April 18.—It has been learned here that the polar explorers, Dr. Nordenskjold, Admiral Polander and Gunnar Anderson, are planning an expedition to the Antarctic which will cover about the same ground as the British Stackhouse party of 1914.

Nordenskjold, giving him particulars of the British expedition as far as they concern Graham's Land, and the Swedish leader has promised to reciprocate as soon as his plans are complete.

At the outset there was much reckless expenditure by officials, but it is now claimed that on its five years' operations the mine shows a credit balance of \$620,000.
