Canned Salmon Most Economical Food on Market.

ranted by Size of Pack-Comparison With Other Articles.

One of the cheapest foods on the American market today is canned salmon. It is cheaper than meats, and in a bulletin recently issued the Bureau of Fisheries of the Department of Commerce tells the reason why.

One pound of canned red salmon of the best quality will cost not over 16 cents. The same quantity of bone, muscle, blood and brain building material and body fuel in other foods would cost: Steak, \$3 cents; mutton. 32 cents; chicken, 25 cents; ham, 14 cents; eggs, 20 cents; pink salmon, 12% cents.

All species of the Pacific Coast salmon are canned, all are highly nutritious, and, so far as the canned products are concerned, they differ from one another principally in the color and relative firmness of the flesh and the proportions of fat. The Chinnock has an excellent flavor and generally red flesh; the sockeye also has a good flavor and is always red

from one another principally in the color and relative firmness of the flesh and the proportions of fat. The Chinock has an excellent flavor and generally red flesh; the sockeye also has a good flavor and is always red fleshed; the cohe has a good flavor, but is paler in color; the humpback, or plink salmon, is still paler and its flesh softer; the chum salmon is quite pale, soft when canned and its flavor is inferior to any of the others.

The best grades of canned salmon shrinkage.

Hutter Market in Healthy Shape.

The butter market is in a healthy condition and there is no likelihood of a change in price in the near future. The make is increasing, but there is no excess. Cheese is weak with a downward tendency.

The egg market closed firm. A straight car was shipped to British Columbia and local speculators bought freely on the basis of 19 cents, case count. Candlers report a larger shrinkage.

pink esimon, is still paier and its flesh softer; the chum saimon is quite paie, soft when canned and its flavor is inferior to any of the others.

The best grades of canned saimon are richer than meats in body-building materials and contain about the same amount of fats. Pink salmon, which is a cheaper grade, is better than meats for making flesh and borse, but has less fat. Either is as digestible as the best sirloin steak, there is no waste and nothing has to be thrown away except the can.

Meats may be inspected, but they are handled by many persons after in spection and are exposed in the market places. Canned salmon is sealed against contamination and in preparation is practically untouched by hand.

The cheapness of calmon is due to labor-saving machines warranted by the size of the pack. In 1913 there were canned on the Pacific Coast the equivalent of 287,045,456 one-pound supply about four pounds of salmon to every man, woman and child in the United States, and if the cans were placed end to end they would energic the earth, with enough to spare to stretch from New York to Portland.

To supply the raw material for this enormous pack requires over 160,000,000 fish, weighing from three to 25 pounds or more each and some of them measuring upward of five feet in length. Were it not that these flish run into all the important streams it nearly work to portland.

To supply the raw material for this enormous pack requires over 160,000,000 fish, weighing from three to 25 pounds or more each and some of them measuring upward of five feet in length. Were it not that these flish run into all the important streams it nearly about four pounds of pound fishers are admost incredibly abundant in many rivers this great industry could not have been developed or been main them are not seen that there are necessary to sustain runs by artificial means. The Bureau of Fisheries conducts salmon culture on an extensive scale, operating 24 hatcherles and branch stations, from which 180,000,000 young fish will be liberated the y o operate state hatcheries.

ter with the wheat market, but as the senson is getting late the dealers and other holders of scattered lots think it is time to clean up, and as the demand is small the few offerings can be bought at gradually declining prices. Onts were quiet and the local market was about steady, but in the Palouse the tone was weaker. Barley dealers on the Sound quoted feed at \$20.50, the lowest price of the season. Locally the demand was nominal. Prices in the north are getting down to the California basis. May barley to the California basis. May barley sold on the San Francisco exchange yesterday under the dollar mark.

Local receipts, in cars, were reported by the Merchants' Exchange as fol-

FURTHER SALES SPOT OREGON HOPS Salem Dealers Report Business at 15 Cents. English Imports.

There were reports of further business in spot hops on the Salem market at 15 cents, but the details were not made public. No new trading in futures was announced.

The quantity of hops added to Great Britain's supply during the mouth of March last was surprisingly small. Im-Murch last was surprisingly small. Imports were 3590 cwts, but exports for the same month were 3400 cwts, so that the net result was an addition of only 181 cwts. For the months of September to March last, both inclusive, imports less exports were 200,500 cwts. as against 215,350 cwts. for the corresponding period one year ago, and 74,789 two years ago. The above mentioned 200,500 cwts added to the 1913 English crop of 255,641 cwts would give Great Britain a supply on March 21, last, exclusive of the reserve stocks from former years, of 458,150 cwts., or 142,850 cwts. equivalent to about 87,010 American bales, less than her estimated annual requirements. The quantity imported by Great Britain from the United States during the months of September to March, last, both inclusive, was 161,683 cwts, equivalent to about 87,000 American bales.

FOUR CARS STRAWHERRIES RECEIVED

FOUR CARS STRAWBERRIES RECEIVED

Banner Variety Is Too Large for Ordinary Size Baskets. Four cars of California strawberries Four cars of California strawberries were on the market yesterday, and as the weather was favorable, there was a big demand. A straight car of Banner berries was received from Alameda County. They were packed in quarts and cleaned up quickly at \$2 a drate. These were the largest and best California berries that have been seen this season, and approach in quality the famous Gold Dollars that are produced in the Clackamas section, and which will begin arriving the latter part of the coming week. The car of duced in the Clackamas section, and which will begin arriving the latter part of the coming week. The car of Turpentine—In cases, 68c per galian; Fresno berries was also of good grade

and sold at \$1.30 to \$1.75 a crate. Floring ringed in price from \$1 to \$1.50.

A car of Florida grapefruit and two cars of oranges were received. The orange market is firm and will be higher in the coming week. Navels are winding up in most sections.

Several cars of vegetables were due yesterday, but were delayed and will be on hand today, including two cars each of lettuce, cabbage and mixed vegetables. Two cars of Bermuda onlons will arrive Monday.

BULLETIN GIVES REASONS

Low Price of Fish Due to Abundance and Labor-Saving Machines War-

United States Consul Edward L. Neville, of Antung, South Manchuria, reports that in his district imports of foreign flour, which is American, decreased from 15,353,883 pounds in 1913 to 9,256,968 pounds in 1913, a loss of

WHEAT IS BOUGHT AT LOWER PRICES

Demand Is Small and Scattered Lots Are Heing Offered for Sale.

There was very little business passing in the wheat market. Club wheat it was said, could be bought at 90 cents, and there has been some trading in bluestem at 95 cents. California buyers are taking what is offered them, but they are not keen purchasers. It is likely that shipments to the south in May will be fully as large as in April. But for the fact that most of the mills ceased to buy a month ago, stocks in the Northwest now would be entirely exhausted.

There is apparently nothing the matter with the wheat market, but as the season is getting late the dealers and allow heads and there heads are not keen purchasers. It is likely that shipments to the south in May will be fully as large as in April. But for the fact that most of the will be used to buy a month ago, stocks in the Northwest now would be entirely exhausted.

There is apparently nothing the matter with the wheat market, but as the season is getting late the dealers and at the helders. VEGETABLES Cucumbers, \$191.75 p

AVERAGE LOSSES SMALL

Strong Faction Takes Up Offerings in Expectation of Further Upturn - Gold Engaged for Shipment to Paris.

to 9.256,968 pounds in 1913, a loss of 6,056,915 pounds, while Chinese flour shows an advance from 18,535,537 pounds to 24,937,243 pounds in the same period, an increase of 6,401,706 pounds or slightly more than the decrease in American flour.

During the greater part of 1913, as compared with 1912, exchange rates were unfavorable to the purchase of foreign flour. Consequently the American product decreased, while there was a corresponding increase in the importation of flour from the Shanghai milis, A considerable quantity from milis at Tiehling, north of Mukden, is also on that market.

The bank statement was a disaptive for the week at the stock-

	of these, however, made progress.

HEART HUNGER ENDS LIFE Millionaire Husband Feted as Di-

vorced Wife Goes to Grave. DENVER, April 29 .-- A woman was

DENVER April 29.—A woman was buried in a Denver cemetery under the name of Ida K. Jones. Her friends, Daughters of the American Revolution, whispered "heart hunger."

At the hour the woman died prominent Denver citizens were welcoming A. A., Jones, millionaire, Assistant Secretary of the Interior, in a fashiomable hotel, and were arranging a reception in his honor. He is the dead woman's divorced husband. Joges married again.

A his honor.

ant Home.

This train will leave Portiand from First and Aider streets at 6:10 A. M. Connections between Troutdale and Boring will be made every two hours instead of hourly, as in the past, while an early morning train that leaves Golf Junction for Boring at 5:10 will be discontinued.

The train leaving Boring for Portland at 6:12 A. M. also will be discontinued. Trains leaving Portland at 8:45 A. M. and every two hours thereafter until 6:45 P. M. will make connections at Linnemann Junction with Troutdale trains for all points on the Troutdale branch. Trains now leaving Portland for Gresham at 8:65, 10:05 and 11:35 P. M. respectively.

The Northern Pacific has completed plans for immediate extension of a branch north of Mandan, N. D. The line was started last Fall and some grading was done, but activity was suspended through the Winter.

The Northern Pacific has completed plans for immediate extension of a branch north of Mandam, N. D. The line was started last Fall and some grading was done, but activity was suspended through the Winter.

The recent death of Frederick W. Weyerhaguser, the lumber king, has put a check upon the plans of the Salt Lake route to build an extension from Modena to the Kaibab National forest and the Grand Canyon. The United States Government had advertised large quantities of timber for sale, and it was understood that the late Mr. Weyerhaguser had been negotiating with the Union Pacific for construction of the line. It is predicted that the Salt Lake route soon will build a line to the Grand Canyon in an effort to obtain a share of the business on which the Santa Fe now has a monopoly.

3600,000 annually in operating costs.

"Finned, Furred, Feathered," is the title of a publication describing the fish and game as well as the resorts and outdoor attractions of the Western Pacific Railway in California. The famous Feather River is shown in outline, together with its tributary creeks, distances, river crossings and roadways. Hunting, fishing and outdoor views embellish the publication.

R. F. Murray, agricultural extension agent of the Northern Pacific has issued a concise report of the demonstration of the Union Pacific for construction of the Salt Lake route soon will build a line to the fish and game as well as the resorts and outdoor attractions of the Western Pacific River is shown in outline, together with its tributary in california. The fish and game as well as the resorts and outdoor attractions of the Western Pacific River is shown in outline, the fish and game as well as the resorts and outdoor attractions of the Salt was pacific River is shown in outline, the fish and game as well as

BEGINNING today a new schedule than the wooden ones and last longer.

Sw. A. Hutchinson, manager of the way. Light & Power Company, or which a new train is placed in service to accommodate the residents of Pleasant Home.

S- A. Hutchinson, manager of the tours department of the Chicago & Northwestern and Union Pacific lines, has advised railroad officials in Portland that he proposes to sell tickets to the world's fair at San Francisco next year on the installment plan. He expects to sell such tickets upon a small cash deposit now with the graduated weekly payments until the passenger is ready to leave or until the ticket is paid for. Provision will be made to retund the money to those who make part payments and are unable to complete the purchase.

The Interstate Commerce Commission has approved the New York Central's \$157,000,000 bond issue, the proceeds of which are to be used in redeeming outstanding notes against the

deeming outstanding notes against the Lake Shore road. This will permit the permanent consolidation of the New York Central and Lake Shore systems and it is predicted, will save nearly \$500,000 annually in operating costs.

Lake route to build an extension from Modena to the Kaibab National forest and the Grand Canyon. The United States Government had advertised large quantifies of timber for sale, and it was understood that the late Mr. Weyerhaeuser had been negotiating with the Union Pacific for construction of the line. It is predicted that the Sait Lake route soon will build a line to the Grand Canyon in an effort to obtain a share of the business on which the Santa Fe now has a monopoly.

J. M. Rapeije, general superintendent of the Northern Pacific at Livingston. Mont, and well known to railroad opterating men in Portland, has been made assistant general mannear of the same road, with headquarters at St. Paul.

The Southern Pacific has started to eliminate all its wooden passenger cars and to replace them with steel cars. Orders recently were issued to begin the work on cars operated between San Francisco and New Orleans. The Portland end of the line soon will be relieved of its remaining wooden on the Southern Pacific at Livingston. The Portland end of the line soon will be relieved of its remaining wooden on the Southern Pacific between that city and Glendale, is believed that the success of this test will result in a large demand for Ewhank cars, which will permit the company controlling the invention of H. B. Ewbank, Jr., to inaugurate the mannada of the country. They are safer

derations of \$1000 and more were re-

1.500 MEDIATION TRACED TO PEACE ADVOCATE BY OFFICERS.

Offer Staged to Prevent Order

Did mediation come voluntarily from the South American representatives or 2,500 did Secretary Bryan, seeing the stage set for drastic action in Mexico, de-

set for drastic action in Mexico, devise the plan in a last desperate effort to make good his vow that there would be no war while he was Secretary of State?

2.000. Local Army officers are asking themselves this question as the result of a letter received by one of their number from an Army officer on duty at Washington. In this communication it is given as the prevailing sentiment about the War Department that Bryan blocked the war move of last Saturday when it appeared that a general mobilization of treeps was in order.

With all the Cabinet favoring drastic action, Bryan alone excepted, the Secretary was in desperate straits, the letter says. Public opinion was ripe for action. Congress was on the point of demanding action by President Wilson, War Department orders were all ready for assembling the contremobile Army of the United States. War appeared to be inevitable. Although a tense condition had prevailed for some days no overtures had been made by the South American envoys. Suddenly, at the last moment, a moment that must have been guaged by intimate knowledge of the temperament of the Administration, the mediation plan was suggested, say the officials.

That it was hurried and hastily considered is shown by the intansibility of the scheme, Army officers say, for after several days no concrete plan has been presented. Thus far mediation is pointed to as having drifted along. Wicawher like.

The rouble is that the mediation plan was hastily pulled off by Mr. Bryan. Naturally, his connection with the scheme does not appear, for that would be disastrous. In the rare event that it should succeed we should have it leak out just who staged this eleventh-hour, last minute delay.

The trouble is that mediation can't succeed and the delay is merely going to compliante matters. When mediation fails and it is proved that Mr. Bryan staged the thing, the incident should be sufficient to drive him out of the Cabinet. Such an act falls little short of being dangerous treachery."
