

BADES OF PARADE AT STRAWBERRY SHOW

Rose-Bedecked Carriages Are Judged for Prizes—Bands Play All Day for Crowds.

GARLANDS LINE STREETS

Frank Berries Large as Oranges Exhibited—Some Boxes Contain Only 19—Big Carnival at Roseburg Grand Success.

BY ADDISON BENNETT. ROSEBURG, Or., May 23.—(Special.)—This has been the grandest day for the Roseburg people. Even the weather has been the most favorable. The heavy rain of yesterday and the night before, however, in good humor and made the air cool and pleasant. The city has been, and still is, full of people overflowing. A more orderly or happier throng one could not find in a month's journey. And the women, if anybody says the Roseburg women are not far above the average for good looks and fine and becoming apparel, I stand ready to rise and dispute the assertion. But today the babies have their training. The parade of the youngsters in their bedecked and rose-covered vehicles was a sight well worth beholding.

Just how the judges decided as to the merits of the babies or the carriages I do not know. I only know that it would have taxed the wisdom of Solomon to do impartial justice. Those who had this labor to perform were Miss Vell Barker, Mrs. Carl D. Shoemaker, Mrs. S. S. Josephson and Miss Hilda Shoemaker. As there has been no apparent complaint they did perhaps as well as any living mortals could have done.

Crowds See Many Parades. The other parades were well worth seeing. They have entertained the crowds even better than yesterday and the day before. The shows have attracted great crowds. The young and old have thronged the grounds until the main street is now like a vast highway of vari-colored streamers. I suppose tomorrow morning it will be ankle deep with water.

So it may be said without a chance for dispute that Roseburg's sixth annual Strawberry Carnival has been a great and glorious success and will go down in history as the premier event of the city. Next year no doubt it will be even better. For the Roseburg people never take a backward step, they are always going forward. When it comes to strawberries it is safe to say that Roseburg has the vast tent where they are judged are about as fine as ever were shown. There were several boxes, or rather crates, in which each box held 19 berries, or 456 to the crate of 24 boxes.

Luscious Berry Flavor Delights. And these 456 were as much alike as that many assorted peas. But it is not the size of the Roseburg berries that counts, in their luscious and incomparable flavor. Even in size the mere size of the so-called freaks on exhibition would be hard to beat, for there were some that weighed as large as a good-sized orange.

Among the visitors today were John M. Scott, the general passenger agent for the Southern Pacific, and his wife. Mr. Scott has a warm place in his heart for the Roseburg people and will be glad to have them at the premises in any number. He is one of the prominent men in the Southern Pacific in Oregon. This road has brought in a host of visitors, the trains have all been on time, the service has been that any town or people could ask for. Mr. Sirahorn has been riding around the surrounding country now for two days and he is enjoying it very much. He is founded with the advancement being made and the resources of the Douglas county lands. Like all the other visitors who come here, he is a casual, he thinks the Umpqua Valley mighty hard to beat.

The festival closed last tonight, following a grand masque street carnival, which was indulged in by several thousand people. Among the visitors here today was Miss Hobbs, private secretary to Governor West. Although it is reported here Miss Hobbs came to Roseburg to investigate the alleged rumor traffic between Helena and this city, she says her visit was of a strictly social nature. She left for Portland tonight.

One of the features of today's programme was a parade of the granges. Many decorated floats were in line. This parade was witnessed by 7000 people. The members of the Portland motorcycle teams have been entertained royally since their arrival here last night. The riders were received by Queen Nihil and her maids and later attended the carnival ball. They are highly pleased with the reception accorded them here. They leave for Portland early tomorrow morning and expect to reach there before 7 P. M.

Publication Plan to be Up.

A plan to launch an alumni publication, probably in the form of a monthly bulletin, has been considered seriously. The editor will be taken regarding the matter. PENDLETON, Or., May 23.—(Special.)—Few men seeking political honors have ever received as cordial a reception at the hands of Umatilla County people as that accorded R. A. Booth at Athena yesterday. The occasion was the 14th annual picnic of the Caledonia Society, one of the leading events of the year in Eastern Oregon, and Mr. Booth had been invited to deliver the annual address. The event was the most largely attended in the history of the society and was the most successful from every standpoint.

Despite threatening weather people attended by the thousands and at times it seemed the big event was developing into a reception for Mr. Booth. It seemed that every resident of the county with any trace of Scottish blood in his or her veins and hundreds that could make no such claims to fame were in attendance. "Highland Pastimes and Amusements, Kilties, and bagpipes were everywhere in evidence. Mr. Booth portrayed the history of the country which he said had so indelibly impressed itself upon the mind of the speaker. There is simply can't be any bad after-effects from the NEAL TREATMENT because there is absolutely nothing to cause them. As a no-painful and dangerous hypodermic injections are given there can be no blood poison resulting from an infected needle or careless work of an operator. Nor can there be any injurious effect on the system in any way, as the NEAL TREATMENT is a harmless vegetable internal medicine treatment, guaranteed to contain no opiates or dangerous drugs of any kind. In over 20,000 cures, not a single instance of bad after-effects has ever been traced to the NEAL DRINK TREATMENT. Instead of taking a four to seven weeks' course of hypodermic injections the worst cases are entirely restored to normal condition by the NEAL TREATMENT in four to seven days.
