REFORESTING GOING ON

AREA IN IDAHO DEVASTATED IN 1910 BEING PLANTED.

Cost of Work to Government Including Nursery Stock Is About \$5 for Each Acre.

LEWISTON, Idaho, May 30.—(Special.)—On the Little Fork of the St. Joe River in this section of the state, one of the areas severely burned by the fire of 1910 is now being replanted.

A crowd of about 120 men has been assembled on this watershed and is engaged in planting seedlings. The work is being handled from two camps, organized in three small crews in each camp.

Each of the small crews consists of 15 planters, a waterboy, flagman and crossing streamer. They stop every 100 feet to start and stretch out in a line with the men eight feet apart, each armed with a one-hand grubber.

The three crews from camp make a line about 400 feet long, which advances over the country, climbing mountains, crawling through windfalls and crossing streams. They stop every eight feet to put in the plants. During the course of the day each man plants an average of 100 seedlings, so that a strip about 400 feet wide by a mile and a half to a mile and three-quarters long is covered.

The plants used are mainly white and yellow pine from the Government nursery at Hauran, Mont., where several million young trees are raised each year. The crews on the Little North Fork are setting about 100,000 plants a day, thus reforesting about 150 acres daily. During the Spring planting season about 2,000,000 plants will be set on 3000 acres.

The cost of doing the actual planting work is about \$2.71 per acre. The plants themselves cost to raise in the nursery

Health Depends on Kidneys. Whole System Suffers if They Are Drained. Health is an absolute impossibility when the kidneys are out of order. The explanation is simple. Life cannot be lived without waste. The blood sweeps through arteries and veins supplying vitality to every organ and part, gathers up the waste matter and carries it to the kidneys. The kidneys are a filter and in their office to strain from the blood all the poisonous deposits and to pass them on to the bladder for expulsion. When any part of the kidneys is inflamed, the purifying is less perfectly done. The kidneys and veins are clogged with poisonous matter. If you are troubled with pains in the back, dizziness, aching joints, nervousness, or other symptoms of kidney disease, you should lose no time in testing Warner's Safe Kidney and Liver Remedy. It is considered by many physicians to be an excellent remedy in the treatment of diseases of the kidneys, liver and blood.
