

# LOUISIANA PLANS TO TAKE REVENGE

### Forecast Is That Three Republicans Will Be Sent to Congress as Protest.

## SUGAR PLANTERS RUINED

### Great Acreage Left Vacant and Thousands of Laborers Made Idle. Capital Transferred to More Hospitable Fields.

OREGONIAN NEWS BUREAU, Washington, June 27.—Not fewer than three Republicans may be elected to the next Congress from the rock-ribbed Democratic State of Louisiana, according to reports which have come recently from New Orleans and are confirmed by members of the Louisiana delegation in Congress. This will be done, it is explained, to voice Louisiana's disapproval of the Wilson Administration, especially the Administration's stand on the tariff.

While the Underwood bill was pending and after the President had issued his edict that sugar should be placed on the free list, the Louisiana Senators revolted, as did the Louisiana members of the House, and refused to support the Underwood bill, because of its free sugar clause. Senators Ransdell and Thornton fought the Underwood bill as bitterly as did any Republican and repeatedly undertook to convince the President that his free sugar policy would be ruinous to Louisiana's principal industry.

The President was obdurate, however, and insisted that free sugar would not ruin the industry of Louisiana but on the other hand would be of great benefit to the American public generally.

Since the Underwood bill went into effect, thousands of acres in Louisiana that have for years been planted in sugar, have been abandoned; the sugar mills of the state have closed, and some of the capital invested in Louisiana has been transferred to Cuba and to Central American countries where the sugar industry is encouraged. The sugar industry of Louisiana practically has been wiped out; thousands of Louisiana laborers have been thrown out of employment, and vast areas left idle. It is explained, by those who know, that the lands which have been devoted to the growing of sugar cane are not adapted to general farming; they are unfit for cotton-growing, and cannot be used for rice-culture.

**Underwood Bill Wipes Out Industry**  
Sugar was the one crop that could be produced profitably, and under the Underwood tariff sugar can no longer be grown at a profit.  
Three members of the Louisiana Democratic state central committee recently resigned and have gone over to the enemy, and there is a general movement among the voters to repudiate the party in power. Almost every man who had money invested in sugar plantations and sugar mills, has turned on the Democratic party. With them are those who have been thrown out of employment by the closing of the sugar plants. It is the sugar-growing districts that propose, at the next election, to register their protest against the Wilson Administration by sending Republicans of the 6th Congress.

## GRAFT INQUIRY SPREADS

### FEDERAL AUTHORITIES TAKE UP CONTRACTORS' COMPLAINT.

### Interstate Shipments of Building Material Held Up by Blackmailing Business Agents, It Is Said.

CHICAGO, June 27.—A special Federal grand jury will convene July 13 to investigate charges that building contractors in Chicago have been blackmailed out of large sums by business agents of unions which threatened to tie up work by calling strikes.

District Attorney Wilkerson made this announcement today and subpoenaed seven men, who, John J. McLaughlin, the complaining contractor, asserted would verify his story of graft. They will be questioned under oath next week and their affidavits submitted to the grand jury.

The Government prosecutors have taken up the charges because it is alleged interstate shipments of building materials have been interfered with owing to refusal of McLaughlin to submit to demands of business agents.  
George Golden, of the executive committee of the International Brotherhood of Teamsters, said he stood willing to present to the grand jury evidence that organizers of unions not members of the American Federation of Labor had tied up jobs when contractors refused them money.  
"They have been grafting for years," he asserted. "Half the truth has not been told about them."

## AMERICAN PLEASURES SAP

### Children of Foreign-Born Parents in Chicago Excel in Schools.

CHICAGO, June 27.—Children of foreign-born parents here excel American children in school work because American children indulge in too many outside pleasures, it was said today by Mrs. Ella Flagg Young, superintendent of Chicago schools. The condition was revealed by a survey just completed of Chicago public schools.

"American children are devoted to too many outside attractions, which their parents seem unable to curtail," said Mrs. Young. "These pleasures monopolize their strength and attention, and as a result there is a large proportion of overgrown boys and girls in the eighth grades in the American districts."

## WARSHIPS NOT TO STAY

### Daniels Announces Atlantic Fleet Will Curtail Pacific Visit.

WASHINGTON, June 27.—Secretary Daniels in a statement today announced that the ships of the Atlantic battleship fleet which will lead the international naval parade out of Hamp-

ton Roads for the opening of the Panama Canal next March, would return from the Pacific Coast to Atlantic waters after participating in the Panama-Pacific Exposition.

The statement was issued with reference to the Navy Department's plans regarding the forthcoming exposition which had been misconstrued as an announcement that the fleet would be sent to the Pacific Coast and there remain for a long time.

"It is possible that a division of four ships will take advantage of this occasion to visit Honolulu and that another division will visit Puget Sound,"

### AMITY GIRL NEITHER ABSENT NOR TARDY IN SCHOOL FOR SIX CONSECUTIVE YEARS.

Miss Mina Robison, Amity, Or., June 27.—(Special.)—Miss Mina Robison, a sophomore in the High School here, has made a remarkable record in school attendance. For six consecutive years she has been neither absent nor tardy, notwithstanding the fact that she lives three miles from town.

says the statement, "The fleet will then return to the Atlantic Coast."

## PACIFIC COAST BEST OFF

### TRAVELER RETURNS TO FIND BUSINESS BEST AT HOME.

### Germany Beginning to Recover, but France Is Suffering From Having Radicals in Control.

SAN FRANCISCO, June 27.—(Special.)—That the Pacific Coast is suffering less from financial and business depression than any section of the world is the message brought by R. E. Miller, president of the Owl Drug Company. He has just returned from a ten weeks' trip to the East and Europe, and was one of the three delegates from the San Francisco Chamber of Commerce to the convention of International Chambers of Commerce held in Paris June 8-16.

"Germany and France are in as bad circumstances as the United States at the present time," said Miller, "and even in Brazil and Argentina the same depression is being felt."

"Germany is beginning to recover somewhat, but France is in bad shape, due mostly to the fact that the government is in control of Radicals and Socialists."  
"There is much complaint among German and French manufacturers over the amount of red tape involved in shipping their goods into this country under the new tariff law."

The geological survey has estimated the available water power of the United States from 35,000,000 to 66,500,000-horsepower, not including the power that could be conserved by reservoirs.

## "Peruna Cured Me

MR. ROBERT FOWLER, of Okarche, Oklahoma.

"I am glad to tell it."  
"To any sufferer of catarrh of the stomach. I am glad to tell my friends or sufferers of catarrh that seventeen years ago I was past work of any kind due to stomach trouble. I tried almost every known remedy without any results."  
"Finally I tried Peruna, and am happy to say I was benefited by the first bottle, and after using a full treatment I was entirely cured."  
"I am now seventy years old, and am in good health, due to having had Peruna at my command. I would not think of going away from home for any length of time without taking a bottle of Peruna along for emergency."  
"You are at liberty to use my picture and testimony if you think it will help any one who has stomach trouble."

## Mother Stanislaus Tells of Recovery

Neglected throat trouble and continued coughs and colds often weaken the system. Investigate reports of recoveries brought about by Eokman's Alternative. Here is one:  
"Convent of St. Anna, Sanford, Fla. "Gentlemen: In February, 1911, four doctors examined my throat and pronounced the necessity of an operation. Having heard of Eokman's Alternative, I determined to try it. After taking four or five bottles large pieces of diseased tissue came away. I continued the Alternative to my grateful and daily relief. In ten months I was restored to perfect health. I would like them to see and hear from my own lips if they so desire, all I would say of it."  
(Signed) MOTHER M. (Abbreviated)  
Eokman's Alternative is most efficacious in bronchial catarrh and raw throat and lung affections and subduing the system. Contains no harmful or habit-forming drugs. Accept no substitutes. Sold by the Owl Drug Co. and leading druggists. Write Eokman Laboratory, Philadelphia, Pa. for booklet of recoveries.
