The Oregon Congress of Mothers will also conduct a programme, and a musical programme will be given by Mrs. C. E. Wilson, Miss Emma Butler, Judge Earle Bronaugh, Dr. Mae Cardwell, Mrs. Millie Trumbull and others. All participate.

Parson's Orchestra to Play. Parson's orchestra, of Portland, is to give two concerts each day during the assembly in the main auditorium, and Stuart McDoune and other well-known reciters will be heard during the assembly.

On Thursday, the second day, the Lipton races will start; automobiles will be entered and line-ups will organize a state association; a fraternal and military pageant of 10,000 men will be held and

### 26 IN GARDEN CONTEST

#### BOYS TAKE KEEN INTEREST IN GROWING OF VEGETABLES.

Account Kept of Expenses and Receipts—New Plan Conducted by Normal School.

OREGON NORMAL (SPECIAL.)—A greater interest in the industries of the farm and valley, a spirit of keen competition and the development of the faculties of discrimination in the choice of plants are declared results of the garden contest, being conducted among the boys of the training school by the normal department of agriculture.

Encouraged by the garden experiments of last year, the department, under the direction of Professor E. G. Gilmore, early this season outlined plans for a contest under a new method, which is unique.

A tract of land, east of the normal building, was secured and pupils were assigned from one to three plots each, 10 by 12 feet, with instructions to plant two kinds of vegetables, and to keep the plan of the garden. Encouraging accounts of their own individual expenditures and the receipts from sales of garden truck, this in the principal feature of the contest.

Some pupils planted all peas, other beans and peas. A few thought cabbage the most profitable. They are marketing the earliest of the vegetables.

Twenty-six boys are in the contest. They are Edward Daniel, John Ostrom, Harold Johnson, Johnny Stump, James Higginbotham, Bruce Rogers, Earl Conkey, Wendell Van Loan, Russell Nicholson, Herbert Powell, Max Bowerson, Donald Moore, Everett Evans, John McNeil, Ward Haley, Clyde Dosslet, Manley Arant, Robert Henkle, Clay Moreland, Claire Vinegar, John Henkle, Joe Steaks, Floyd McClellan, Lyle O'Neil, Maurice Gentle and Russell McClellan.

### 200 AT SURPRISE PARTY

Neighbors Pay Honor to W. I. Coleman on His 87th Birthday.

EUGENE, Or., June 27.—(Special.)—Two hundred residents in the vicinity of Lorane, 18 miles south of Eugene, formed one of the largest surprise parties perhaps ever held in Lane County.

The surprise party was held in honor of the 87th birthday of W. I. Coleman, who has lived about Lorane for over half a century, settling there first in 1852.

With the exception of his sister, Mrs. Joseph Teal, in Portland, Mr. Coleman is the last of a large family of pioneers, the family of Nathan G. Coleman. It was on the old Coleman claim that the big surprise picnic was held.

### EXHIBIT HALL TO BE BUILT

La Grande to Provide Place for Display and Office for Agriculturalist.

LA GRANDE, Or., June 27.—(Special.)—Final decision to replace the old exhibit hall which was removed from Depot street, near the depot a year or so ago, was reached last night at a meeting of the Commercial Club directors.

The building will be of modern design and instead of standing at an angle to the street, as did the old one, will be set along the west side of Depot street and will not obstruct the view of Depot street from the trains.

An office will be provided for the county agriculturist who will have charge of the exhibit.

### COMPENSATION ACT MAY BE CHANGED

Washington Commission Considers Inclusion of Almost All Industries.

### FIRST AID CLAUSE IN SIGHT

Reduction in Number of Classifications and Revision of Rates Proposed and Imposition of Penalties on Employers.

OLYMPIA, Wash., June 27.—(Special.)—Sweeping changes in the workmen's compensation act, including extension of the act to cover practically all manual labor instead of confining it to occupations classed as "extra-hazardous," and addition of a so-called "first aid" clause that will guarantee injured workmen medical and hospital attendance, are being considered by the Industrial Insurance Commission for recommendation to the next Legislature.

In view of the many changes proposed, it is altogether likely that Governor Lister in the near future may name a special commission of employers and employes to work with the Industrial Insurance Commission on the amendments. The bill originally drafted by such a commission, nearly four years ago, but suffered considerable change while going through the Legislature.

The extension of the scope of the act proposed would take in all manual labor except agricultural, horticultural and household work.

In addition the Commission will recommend thorough overhauling of the rates charged various industries. The new rates to be recommended will be based on the experience of the Commission after three years' operation of the law. Data are being prepared showing the rates actually needed for each fund, as compared with the theoretical rates contained in the draft of the law.

A reduction of the number of different classes, now 42, to about one-third of that number, also will be recommended. The purpose of this change is to group all industries, providing differential rates commensurate with the risks of each, so that each class may keep on hand a sufficient working fund without entailing too great hardship on individual contributors.

### Employers' Penalty Proposed.

Another change proposed is the penalizing of employers who neglect to furnish the payroll to the Commission. No penalty is provided at present. The Commission's recommendation probably will be that such employers be adjudged in default until they furnish payrolls, and that during the period of default any workman suffering injury may elect to sue the employer at common law, instead of taking compensation on the act, the employer being deprived of the customary legal defenses during the default period.

Whether a special commission will be appointed to take up these and other proposed amendments probably will be determined in the fall. The "seven sisters" initiative bill, terminated, which will be soon after July 2, a "first aid" bill is one of these initiative measures. It falls to get on the ballot for vote of the voters, however, work on the program probably will have to be postponed until after the November election.

### PIONEERS HEAR BOOTH

#### ANNUAL ADDRESS IS MADE AT LINN COUNTY CELEBRATION.

Sons and Daughters' Day Is Observed. Members of Same Wagon Train in 1853 Renew Old Friendship.

BROWNSVILLE, Or., June 27.—(Special.)—Brownsville was just as busy today, the last day of the Linn County pioneers' reunion and picnic, as it was yesterday. The day was fine. There were many new visitors among the happy throngs.

Many who have attended the three-day reunion were meeting friends and renewing old acquaintanceships. Some friends met today for the first time in many years. One meeting took place between parties who crossed the plains in the same wagon train during the Summer of 1852.

This was Sons' and Daughters' day. They were well represented and shared the honors with their brave fathers and mothers who withstood many hardships in the early days.

The annual address was delivered by Robert A. Booth, of Eugene, Republican candidate for United States Senator, in an eloquent manner he depicted the trials and struggles of the pioneers and their ultimate triumphs over many obstacles.

A selection by the "Carolina Coons," a local quartet of young men; vocal solo by Miss Alice Skiff, of Salem, and a band selection were part of the musical programme.

George H. Himes, secretary and custodian of the Oregon Historical Society, delivered a short address. His words held his hearers spellbound. His tribute to the pioneers who have passed away brought tears to the eyes of many of his hearers. The afternoon programme included several addresses by prominent pioneers and sons of pioneers.

The ball game between Brownsville and Harrisburg resulted in a victory for Brownsville by a score of 11 to 1.

### ST. PAUL PICNIC SUCCESS

Third Annual Booster Event Takes Place Despite Rains.

ST. PAUL, Or., June 27.—(Special.)—Regardless of the heavy rains yesterday and today, St. Paul's third annual booster picnic was a success. Delegations from neighboring towns, particularly Woodburn, were present.

Judge P. H. D'Arcy presided. Judge William Galloway, chairman of the Supreme bench; D. C. Freeman, of the Oregon Electric; Dana H. Allen and Thomas Brown made talks. Just as the shower was at its height, J. E. Werlan, representing the Portland Commercial Club, was speaking. Although the field was wet the ball game was pulled off, St. Paul winning from Hopeville.

### BEDE WON'T RUN, HE SAYS

#### COTTAGE GROVE MAN DECLINES PROGRESSIVE NOMINATION.

Fearing Bull Moores Are Trying to "Get Even," Refusal to Enter Race Is Made Public.

COTTAGE GROVE, Or., June 27.—(Special.)—Elbert Bede has today mailed the following letter to Ben W. Olcott, Secretary of State, declining the nomination for the Legislature on the Progressive ticket:

"I notice by the morning papers that I have received the Bull Moose nomination for Representative in the Third District after having been tied with Walter B. Dillard.

"I fear that the Bull Moozers have figured out this method of getting even with me for the mean things said about Teddy two years ago. That is one reason why I can not accept this nomination.

"I was a candidate on the Republican ticket because of my candidacy and was fortunate enough to be defeated by a few votes. The voters were wise enough to see as wisely as I might have suggested, but I did not ask for a vote and have no sore to nurse because of the Bull Moose ticket.

"I intend to support those who I would have expected to have supported me had I been successful over them. That is a second reason why I can not accept a nomination on the Bull Moose ticket. It is merely one of the accidents that result from our expensive, somewhat freakish primary system. I can not accept this kind of a nomination.

"It will be far more pleasant for me to be in a position to suggest to legislators what they should do than to be in a position where I must expect me to do. I am not hunting trouble. That is a fourth reason why I must decline the nomination. I am not hunting trouble without the assurance of a kindly grin.

"I can not promise enough as editor of the Nationalist without the assurance of a political office.

"For these five reasons I wish, without prejudice or malice whatsoever, to allow the nomination on the Bull Moose ticket to go to Mr. Dillard, who was tied with me for the position."
