WAR TAX TO COVER PARTY BLUNDERS

Diminishing Revenues Not Due Wholly to Unexpected Conditions in Europe.

CAMPAIGN GROWS LIVELY

Western Farmers Fail to Grasp Lightning Change of Mind in Washington-Tariff Law Has Effect on Industry.

CHICAGO, Aug. 30 .- Western voters read, with grim smiles, announcement from Washington that the Administration was extremely anxious to push through a war tax measure to replenish the rapidly dwindling surplus in the Treasury, but feared to take such action until after the Congressional elections, because of its

Positical effect.

Voters of the West are fully cognizant of the fact that the diminishing revenues of the United States are not wholly due to the European war, although this has been selzed upon middly by the Democrate and will be although this has been selzed upon avidly by the Democrats and will be used as a rack upon which to hang all their blunders. The diminishing recently began with the tariff bill and were augmented by similar legislation and Europe might fight until doomsday without concealing this fact.

Illinois Campaign Lively. The Congressional campaign in Illidate for his former seat, is stirring up the voters in his district. He has aiready spoken in 70 towns and has met with enthusiastic audiences. His diswith enthusiastic audiences. His dis-trict includes a number of big rail-road and industrial points, where hundreds of men are out of employment, not because of the European war, but because of the Democratic tariff. They were out of employment before the war broke out, and in a position to understand thoroughly that the crowned heads in Washington and not in Europe are responsible for their

Quick Change Dazes Farmers. Quick Change Dazes Farmers.

Illinois farmers are protesting the Democratic proposition to spend \$25,-600,000 for ships, after the Democrats raised such a howl against the repeal of the Panama Canal tolls, basing their objections on the ground that it really amounted to a ship subsidy. Western farmers do not exactly grasp the quick change of mind in Washington, except that an opportu-

Tariff Bill's Effect Bad.

The problem of the unemployed is becoming serious in the cities of the Middle West. Due to the tariff, which crippled many manufacturing plants and closed some and caused the railroads to reduce their forces, and the additional blow delivered by the European war, the army of idle men is growing to large proportions and will be a decided menace before the Winter is over. It has been estimated that 50,000 persons in various lines have been laid off weekly in Chicago for the last month and in smaller cities proportionately.

compelied to leave the ranch without his prisoner. Later in the day Starbuck's attorney visited the ranch and enticed Starbuck to accompany him to Myrtle Creek. There he was disarmed and brought to Roseburg.

Mrs. Starbuck yesterday secured a divorce from her husband in Judge Hamilton's court. It was on account of the outcome of the divorce suit that Starbuck is alleged to have uttered to kill his two sons, who testified in behalf of their mother. Starbuck owns considerable property and is well known here.

Women Command Attention. Account must be taken of the rising tide of women's votes in Western states in forthcoming campaigns. The influence of women is being felt in Illinois, particularly in the war against saloons, which are being wiped out at every opportunity. In Chicago they have forced Mayor Harrison to close two notorious dives that have defled law and order for many years. They dominate school affairs and are causing great apprehension among the grafters and four-flushers, who are in danger of being pried loose from the public crib none too gentle hand of the

The suffragettes expect to win three additional Northwest states this Fall. They are reasonably sure of victory in Montana and the Dakotas, and have a fighting chance in Nebraska, Years fighting chance in Nebraska, Years ago when suffrage was first put to the test of a vote in South Dakota it was defeated by the heavy Russian vote in the eastern part of the state. Since that time big colonies of Swedes and Norweglans have settled in the Black Hills district and they have swung public sentiment around so that suffrage now has a good chance to win.

California Labor Commissioner Estimates Number of "Agitators" Among Unemployed at One Per Cent of Total.

SAN FRANCISCO, Aug. 29 .- Testimony given before the Federal Industrial Relations Commission today was to the effect that a large per cent of the state's unemployed really are not desirous of labor and that the strength of the Industrial Workers of the World

of the industrial Workers of the World among California workmen has been greatly over-estimated.

Fifty per cent of the men who applied to the local Associated Charities for aid last Winter did not want work, Harry R. Bogart, the secretary, said.

"It was men of this type that formed the control of the co Kelly's army of unemployed," he testi-fied. "The 'no work, no food' plan which we put into effect cut our num-

EXPENSES, IS ANNOUNCEMENT.

Trade Is Obtained Without Difficulty and Salmon Usually Sent to Puget Sound Lines Is Procured.

Portland's Alaska steamship line is paying. Such is information made public yesterday by the Dodge interests, and the case of the steamer Quiault is cited, which sailed last week for the north. Revenues were not only in excess of operating expenses, but sufficlent to take care of the charter hire and pay the Alaska insurance, which is about 8 per cent above that charged

on the Coast. The line was originally inaugurated by Portland interests and capital, and about the middle of the season arrange ments were made for the Dodge Steam-

ports, as well as here and in California, all efforts were centered on increasing the business and decreasing expenses. Captain T. D. E. Wilson was sent to Portland from San Francisco as superintendent and J. B. Vaughn as aduitor. Recently L. S. Williams arrived as traffic manager and N. F. Titus, Portland manager, left for Alaskan cities to readjust a number of matters.

A letter from Mr. Titus, received yesterday, says that not only is patronage gaining in regular channels, but large shipments of salmon have been procured that in the past have been diverted to Puget Sound lines, and that after a personal investigation of the field and meeting shippers he is more optimistic than ever.

and meeting shippers he is more optimistic than ever.

It was felt by the pioneers of the
venture that if revenues were sufficlent to cover expenses the first season
they would be satisfied. It is shown
to them that the Alaskan trade can be
procured permanently as long as service and fair treatment is accorded
buyers in the North, and, with steamers
awared by the line, it is asserted that wned by the line, it is asserted that here will be handsome returns. Mr. Titus is returning on the steamer Stetson, which has a large cargo of salmon. The vessel will be in port to-morrow after having discharged some of its cargo at Seattle.
