An Urgent Piano Sacrifice

Unusual Conditions Create Unusual Opportunity

Best Upright Pianos, Best Player Pianos and Finest Baby Grands Included in Ruthless Price Slaughter

Representatives of Eastern factories take charge of big piano house; immense stock to be sold under special agreement.

A house full of brand new instruments—nothing shop worn—nothing second-hand—all regular high-quality stock. Nearly all to be sold at manufacturers' cost—some for even less.

Excellent new warranted pianos, only \$118; many for \$98. Finest \$550 and \$600 pianos \$333 and \$315.

Payments arranged to suit any customer's convenience; some for only \$1 a week, others \$5 a month, \$6 a month or \$8 a month; latest and best metal tube player pianos, with free music rolls service included, at corresponding reductions; payments \$10 a month; some for \$2 a week.

Music makes home what it should be. There is no home in Portland now that cannot have a choice piano.

Necessity Knows No Law

While business conditions everywhere are speedily resuming normal, it is well known that finished pianos in large quantities have accumulated in all of the Nation's piano factories. With a well-founded faith that the near future will verify, Eilers Music House has agreed to take the surplus of seven leading piano manufacturers, under a special agreement that these manufacturers assume all expense of disposing of every instrument in the establishment now.

We buy three new pianos for each two sold now. The factory's representatives, now here, do not care for profit. Their purpose is to have these pianos immediately out of the way, and commence shipping the surplus.

Hence this opportunity, this most unusual price offering, which will never come again because conditions which have combined to make this undertaking necessary can never again arise.

A Note From the Head of the House

"There have been many occasions in the past whereby we were in position to offer the finest makes of pianos at very substantial reductions. But never heretofore has there been such a combination of circumstances that has made possible, or, let me say, compelled, such low prices as have now been arranged for retail buyers in Portland by the factory representatives as stated in this announcement.

Eilers Music House has been established and has grown great because it solemnly assured positive satisfaction to every purchaser, or money back. The instruments in this sale are our regular stock, nothing reserved, and are offered upon this same definite and binding agreement on our part. No transaction will be considered as complete unless the purchaser is positively satisfied.

I do not know how to say this more emphatically. Every instrument sold in this sale must prove satisfactory to the buyer in every way—both as to quality and as to price—or no sale. Our unconditional service guarantee accompanies every instrument sold, no matter whether it is our costliest piano or player piano or our least expensive piano, and this guarantee will positively protect each and every purchaser against dissatisfaction.

For nearly twenty years we have carried out every obligation and every agreement to the letter. We do not propose to deviate from this proud record at this time, nor at any other time.

The sale prices will be plainly marked, the prices will be one and the same to each and all alike. A child may purchase as safely and as satisfactorily as can the shrewdest shopper."

Most respectfully,

J. Eilers

President.

No pianos will be sold to dealers except in the morning from 8 to 9 o'clock and no pianos will be sold if intended for shipment by dealers into other territory where these instruments are sold by merchants at the regular retail prices.

Special: The low sale prices of every instrument are subject to a further liberal and unusual discount to cash buyers.

Special: All player pianos are included in this sacrifice at corresponding reductions, irrespective of attempted price control by the manufacturer.

PORTLAND FEELS QUAKE

EARLY MORNING VIBRATIONS ARE REPORTED BY RESIDENTS.

Mrs. Ernest Tyroll Says Objects in Room Appeared to Be Rocking. Towns to North Report.

Faint vibrations caused by the earthquake reported from the north early yesterday were felt by various Portland residents. Mrs. Ernest Tyroll, 59 North Twentieth street, says she was awakened about 2 o'clock by the trembling of her residence. One light was on, and she said objects in the room appeared to be rocking.

Another woman, who lives in the Brown apartments, at Fourteenth and Taylor streets, telephoned to Thomas Gibson, of the United States Weather Bureau, yesterday asking if he had noticed an earthquake shock.

No seismograph is located in Portland, and none of the instruments in the weather office of the Weather Bureau registered the shock, although officials of the Bureau contend that the barograph and thermograph should have done so if there was any appreciable vibration in this vicinity.

RULER SAYS GOOD-BYE

PRINCE WILLIAM OF WIED SENDS FAREWELL TO ALBANIANS.

"Minds Blinded by Passion" and European War Blamed for Troubles of New Kingdom—Venice Visited.

PARIS, Sept. 5.—A Havas Agency dispatch from Venice says that Prince William of Wied, who has withdrawn from his new kingdom of Albania, has arrived at Venice on the Italian ship Misurata.

A proclamation issued by Prince William to the people when he left Albania is given in a Rome dispatch to the Havas Agency. It follows: "Albanians, when your delegates came to offer me the crown of Albania, I responded with confidence to the appeal of a noble, chivalrous people, who asked me to second them in the work of national revival.

"I came to you animated with the most ardent wish to aid you in this patriotic endeavor and you have seen me from the outset concentrate all my efforts to the reorganization of the country and desirous of giving you a good administration and justice for all. "However, inauspicious events have thwarted our common effort. Some minds, blinded by a passion not understood, opposed reforms and would not grant credit to the government. Besides, the war which has just broken out in Europe has complicated our situation.

"I have, therefore, no thought to leave the work to which I wish to consecrate my strength and my life. It will be useful that I go for some time to the accident, but whether far or near I shall have only one thought, that of working for the prosperity of the noble, chivalrous Albanian country. During my absence the international controlling commission will assure a government."
