

VILLA AND ZAPATA  
HARMONY  
Carranza in Talk With Diplo-  
mats Predicts Further  
Fighting Is Coming.

RAILWAY STILL BROKEN  
General Jesus Carranza and 18,000  
Men in Southern Part of Repub-  
lic Cut Off—Four Battle-  
ships Will Remain.

WASHINGTON, Sept. 26.—Further fighting in Mexico was predicted by General Carranza today to the diplomatic corps in Mexico City, according to official advices to the State Department.

The first chief explained to the diplomats, who gathered at his request, that Zapata had refused to attend or send delegates to the national convention called for October 1, and that his forces were active in the south. He also described in detail events leading up to the rupture with General Villa, but saying that the blame for further bloodshed would be Villa's, as his own troops would act only on the defensive.

Zapata and Villa conspiring. Official information has come to the Washington government from General Funston and others with a definiteness that is regarded beyond question that Zapata and Villa are working in harmony against Carranza, and expect the support of ex-federalists who had the capital because Carranza would give them no guarantee. One of Villa's chief demands has been that meritorious officers who supported Huerta be taken into the new national army, only those directly implicated in the overthrow of Huerta being barred.

Already it is reported that Francisco Carbajal, ex-provisional President, and General Felix Diaz are ready to support Villa.

Aged General's Profession Gone. General Hugh Scott, assistant chief of staff of the army, and formerly in command on the Mexican border, has received a pathetic letter in this connection from General Francisco Castro, the aged general just released with Mexican federal troops who crossed the border after the battle of Ojinaga and were interned in Texas. General Castro wrote that after 40 years' service in the Mexican army, during which he worked hard to gain every promotion and had not a blot on his record, he now found himself barred from the army of his country and without employment because of Carranza's order.

The American government has taken no steps as yet to mend the situation. Rear-Admiral Fletcher, commander of the Atlantic fleet, has recommended that four battleships be retained temporarily in Mexican waters while the remainder of the fleet goes north for target practice.

Funston's Report Received. The following report from General Funston was received today: "One of the two wires of the cable company to Mexico City is working. The present extent of the damage to the railway (Vera Cruz to Mexico City) is not yet fully known. Two freight trains have been turned loose, one in each direction, and the track torn up over considerable stretches. There is nothing definite as to the destruction of bridges, though such destruction is said to have occurred. If the bridges are not destroyed and no resistance is offered railway officials think they may be able to run trains in three or four days.

It is known that the destruction was the work of rebels, ex-federalists, under Elicenio Aguilar and Benjamin Argumedo. The size of this force is variously estimated at from 3000 to 6000 men. Cando Aguilar, the Carranza General, commands the forces on the side of Vera Cruz, has sent 1500 men, practically all he had at Soledad, on trains in that direction. Presumably they will be joined by others from Cordoba and Orizaba. Agents of Villa have been here recently conferring with ex-federal officers and furnishing them with funds.

Jesus Carranza Isolated. "If the break in the railway can be kept open it will have the important effect of isolating General Jesus Carranza and the 18,000 troops on the isthmus to garrison the state of the southwestern part of the republic."

In response to Admiral Fletcher's recommendations the battleships Texas, Minnesota and Rhode Island have been ordered to Vera Cruz. They probably will relieve the Arkansas, Delaware and North Dakota. Later it is proposed to withdraw the Kansas and Virginia, leaving the Texas, Minnesota, Rhode Island and Vermont in Mexican waters.

An optimistic view of the situation was expressed in a statement issued tonight by Gustave Mirles, one of Carranza's private secretaries, who arrived here recently from Mexico City. It says, in part:

"I think the delegates who will attend the national convention to be held in Mexico City next Thursday will peacefully compose the difficulties now existing between Carranza and General Villa. At this convention all the divisions of the constitutional army, namely, the northwest, northeast, eastern, first and second divisions of the center and all other constitutionalist commanders will be present, representing more than 100,000 men."

LANE OPPOSES LEASING  
Oregon Senator Says Government  
Should Operate Alaska Mines.

OREGONIAN NEWS BUREAU, Wash-  
ington, Sept. 26.—Senator Lane today  
voiced strong opposition to the Alaska  
coal land leasing bill and indicated his  
purpose to vote against it. He con-  
tended the government should develop  
and operate all the coal mines in  
Alaska. Only under Government operation  
of coal mines, he said, would the  
consumer get fuel at a reasonable price.  
Moreover, under a leasing system,  
Senator Lane said, there would be later  
troubles in Alaska. The leasing sys-  
tem he contended to be generally be-  
neficial and sure to lead to extravagance  
and waste. Lessees, he said, would gut  
mines, taking only the best coal, and  
would leave mines in dilapidated shape,  
after half the coal had been removed.  
He contended that under the bill as it  
stands there is no way the government  
can compel lessees to sell coal at a rea-  
sonable price.

covery of rich iron ore deposits on the  
Copper River in the New Hazelton  
district, about 40 miles south of Rupert,  
British Columbia, has created addi-  
tional interest in mining circles in the  
Province. The full extent of the ore is  
unknown, but 10,000,000 tons are re-  
ported to have been blocked out on  
the surface, and cuttings show it to be  
at least 45 feet deep.

GOULD SUIT IS AIRED  
NAME USED TO EXPLOIT MOVIES OF  
SISTER MARRIED TO CHINESE.

Ex-Wife of Howard Gould Has China-  
town Guide Arrested on Charge  
of "Misdemeanor Libel."

SAN FRANCISCO, Sept. 26.—Charges  
of criminal libel made by Mrs. Kath-  
erine Clemons Gould against Harry  
Lewis, a Chinatown guide, materialized  
today in the arrest of Lewis, who was  
released upon a \$500 bond. Lewis is  
technically charged with "misdemeanor  
libel."

PAPER KISS IS ADVISED  
INFECTION IS THUS AVOIDED, SAYS  
EUGENIC WORKER.

Old Method of Osculation Is Declared  
as Dangerous as the Roller  
Towel.

PHILADELPHIA, Sept. 26.—(Special.)  
—All eugenically inclined sweethearts  
who wish to adhere faithfully to the  
teachings of their cult must abolish  
kissing from their courtesies. Despite  
its harmless appearance, kissing is a  
dangerous practice, it is said, and like  
cups, it spreads disease.

HUMPHREY WOULD AMEND  
Five Million Dollar Harbor Appro-  
priation Is His Idea.

OREGONIAN NEWS BUREAU, Wash-  
ington, Sept. 26.—There will be ob-  
jection to the House Commerce Com-  
mittee, moves to concur in the  
Senate \$20,000,000 substitute for the  
river and harbor bill, opposition coming  
both from those who want larger ap-  
propriations and from those who will  
seek further to reduce the appropri-  
ations. Representative Humphrey, of  
Washington, will offer an amendment  
cutting the lump appropriation to \$5,-  
000,000, on the ground that the measure  
as it stands is purely an emergency  
measure, designed to continue work un-  
til April, by which time it is expected  
another river and harbor bill will be  
passed.

It is believed by some that if the \$20,-  
000,000 sum is appropriated, Southern  
Congressmen will bring pressure to  
bear on the War Department to have  
practically all that amount allotted to  
Southern projects, on the plea that work  
cannot be carried on in Northern states  
during the winter.

EXPLOSIVE'S WORK DEADLY  
Word From Firing Line Confirms  
Effect of Turpentine.

SAN FRANCISCO, Sept. 26.—Confir-  
mation of the deadly effect of turpentine,  
the new French explosive, is contained  
in a letter received here by Miss Ethel  
Crocker, from her cousin, Cassimir  
Poniatowski, who is fighting with the  
French.

Sixteen hundred Germans, whose  
lives had been instantly stopped by  
the action of a turpentine shell that fell  
in a trench they were holding, were  
found dead on their feet, M. Poniatow-  
ski writes, their rifles in their hands,  
in the attitude of taking aim.

DEATH IS SUDDEN

Sir James P. Whitney Expires  
Before Physician's Arrival.

COUSIN LIVES IN PORTLAND

Mrs. John E. Aitchison Tells of Re-  
cent Letter From Ontario Premier  
Discussing War and Paper  
Pays Glowing Tribute.

TORONTO, Ont., Sept. 26.—Sir James  
P. Whitney, Premier of Ontario, is dead.  
Although Sir James had been con-  
fined to his home since August 1, his  
death was unexpected and sudden. A  
physician, hastily summoned, reached  
the house a few minutes after Sir  
James was stricken, but the Premier

Sir James P. Whitney, Premier of Ontario, Who Died Yesterday.

was dead. Cerebral hemorrhage, caused  
by hardening of the arteries, was the  
immediate cause of death.

Sir James Whitney was one of the  
chief leaders in Canada in opposition  
to the reciprocity plan proposed by  
President Taft. Sir James' illness began  
in New York last December and was  
primarily due to nervousness and  
overwork. He was nearly 71 years  
old.

Mrs. John E. Aitchison, 711 Multnomah  
street, Portland, is a cousin of  
Sir James P. Whitney and received a  
letter from him in his own hand-  
writing, dated August 10, last, in which  
he discussed the European war and  
Canada's preparedness to give aid.

Appeals to Canada Published. In one of the Toronto papers Sir  
James' statement on Canada's duty to  
the empire in the existing crisis was  
published a few weeks before he died.  
In it the Premier said, among other  
things:

"The momentous crisis we now face  
makes plain what Canada's course  
must be. That course is to exert her  
whole strength and power at once in  
behalf of our empire. We are part of

the empire in the fullest sense and we  
share in its obligations as well as in  
its privileges. And now that  
we have an opportunity of repaying in  
some measure the heavy debt we owe  
the mother country, we will do so with  
cheerfulness and courage.

Never before in our history has the  
call of duty and of honor been so clear  
and imperative, and Canada will nei-  
ther quail nor falter at the test. The  
British government has done every-  
thing possible to avoid war and has  
sought peace with an earnestness  
worthy of responsible statesmen. But a  
dishonorable peace would prove disas-  
trous to the empire."

Newspaper Praise Given. The Toronto Sunday World recently  
published a full-page story and layout  
of Premier Whitney, in which he was  
hailed as "Ontario's most progressive  
Premier, the best-known man in Ontario  
and the most popular." His plain,  
every-day manners and his ordinary  
humanity, it said, brought him close to  
the people's hearts.

In politics Sir James was known as  
a Liberal-Conservative, having been  
trained in the school of Sir John Sand-  
field Macdonald. He was held, however,  
to be a little more liberal than con-  
servative and a good deal more liberal  
than Ontario opposition.

'SECTION 16' AMENDED

SENATE REPEALS "PORK BARREL"  
PHASE OF RECLAMATION ACT.

Change Made Through Alaska Coal  
Leasing Bill at Suggestion of  
Senator Borah of Idaho.

OREGONIAN NEWS BUREAU, Wash-  
ington, Sept. 26.—Senator Borah after  
a spirited debate today secured the  
adoption by the Senate of an amend-  
ment to the Alaska coal leasing bill  
repealing section 16 of the reclama-  
tion extension bill passed by Congress  
last month. The effect of the amend-  
ment is to restore to the Secretary of  
the Interior the right to apportion  
money in the reclamation fund. Section  
16 transfers this power to Con-  
gress.

"That section," said Senator Borah,  
"enlarges the scope of the pork barrel  
system."

Senators Walsh, of Montana, and  
Jones of Washington objected to  
placing Senator Borah's amendment on  
the Alaska bill, though favoring the  
repeal of section 16. They contended  
the amendment might defeat the entire  
leasing bill.

The amendment was adopted with-  
out rollcall. Senator Borah will make  
every effort to have the House ac-  
cept it.

Senator Chamberlain was not present  
when the Borah amendment was dis-  
cussed and agreed to.

War Drives Idaho Man Insane.

NEZ PERCE, Idaho, Sept. 26.—(Special.)  
—Worry, caused by the war, has  
caused Henry Siehms, a prosperous  
rancher, who resides near this city, to  
become mentally unbalanced, and he  
has been taken to a sanitarium in  
Portland. Both Mr. Siehms and his  
wife have many relatives in Germany  
and Austria, but owing to the censor-  
ship they have been unable to hear  
anything of their people, which preyed  
upon Mr. Siehms' mind.

Farmer's Son Alleged Bootlegger.

LEBANON, Or., Sept. 26.—(Special.)  
—Oscar Chambers, the son of a farmer,  
was fined in the Municipal Court yes-  
terday \$150 and given 30 days in the  
City Jail of Lebanon on a charge of  
bootlegging. A special officer raided  
the house where he has been staying  
and found a large quantity of beer and  
whisky, which he had stored away be-  
hind the ceiling and the upper floor.

Your battle is probably  
in the field of business; you  
doubtless have more use for  
a pen than a sword—"the  
pen is mightier . . ."—and  
your uniform ought to be  
one of these stylish

Hart Schaffner & Marx  
suits, at \$25 or more; or less  
if you say so; some special  
values at \$18 and \$20.

You'll have every advan-  
tage that comes from being  
stylishly dressed if you come  
to us; there are no smarter  
fashions nor better qualities  
than these.

SOCIETY ISLANDS QUIET  
E. T. ALLEN SAYS TRADE IN  
FRENCH POSSESSIONS IS DEAD.  
Early in War Arrangements Made for  
Protection and Later German  
Vessel Is Captured.

That the European war will prac-  
tically destroy the commerce of the  
Society Islands, most of which is  
transacted in Europe, is the assertion  
of E. T. Allen, a forester in the West-  
ern Forestry and Conservation Asso-  
ciation, who has just returned from a  
trip there. The products of the islands,  
he says, consist chiefly of pearls, shells,  
vanilla and copra, or dried coconut.

"Early in August the islands began  
to get fragmentary reports of the war  
in Europe," said Mr. Allen. "We knew  
that somebody was fighting, but we did  
not know if France, to whom the is-  
lands belong, was involved or not. But  
the islanders supposed that she would  
soon get mixed up in it and they began  
drilling.

"One day, shortly after we found out  
the true state of affairs in the other  
country, we saw smoke on the horizon.  
The commander of the garrison be-  
lieved that it was a German cruiser.

He began dismantling a little obsolete  
gunboat that lay in the harbor with  
the intention of mounting her guns on  
the shore and sinking her in the  
entrance to the harbor. Just as they  
were about to scuttle her, the vessel  
came in sight and they saw that she  
was a French steamer.

"A few days later the commander  
heard that the German tramp Walkure  
was at one of the neighboring islands.  
They mounted one gun on the old gun-  
boat and started off to capture her.  
The captain of the Walkure did not  
know that war had been declared, so  
he allowed them to come aboard with-  
out protest. Then they covered him  
with a revolver and forced him to sur-  
render.

"The French soldiers arrested  
all the Germans on the islands and put  
them out on a coral reef as prisoners  
of war.

"All business in the islands has been  
suspended. The banks have stopped  
payments. The islands have been using  
quite a bit of lumber from the North-  
west, but that trade will cease now.

"I waited 10 or 12 days after I was  
ready to come home, because I could  
not get passage back. The steamer line  
that regularly calls at the islands had  
been laid off. Finally I sailed on the  
cargo steamer Maila. The captain was  
afraid of the German cruiser Leipzig.  
He ran off his usual course and headed  
for San Diego. We ran in there and  
came up the coast inside the three-  
mile line. We were 15 days making

the trip, although it ordinarily takes  
only 11 days and a half."

### \$60,000 DEAL IS CLOSED

Ninth and Everett Street Quarter-  
Block Sold to A. Olson.

The largest recent deal in inside  
Portland property was closed yester-  
day when Harrison R. Kincaid, of Eug-  
ene, ex-Secretary of State, sold the  
quarter block at the northeast corner of  
Ninth and Everett streets to A. Olson  
at a valuation of \$60,000. As part pay-  
ment Mr. Kincaid took a handsome  
residence located on the northwest cor-  
ner of East Twenty-fourth street and  
East Broadway, valued at \$25,000; a  
quarter block of ground at East Seven-  
teenth and Brazee streets, valued at  
\$7000, and a home located in Williams-  
avenue Addition, near Union avenue,  
worth about \$5000. Cash was paid to  
balance the transaction, which was  
handled by J. G. Gustaf, a Portland  
real estate man.

As soon as Mr. Olson can procure a  
tenant he will improve the property at  
Ninth and Everett streets with a build-  
ing.

England is ahead of the United States in  
the development of the automatic telephone  
service, and contracts for automatic ex-  
changes of the total value of nearly half  
a million dollars have been placed.

This mark on a woman's shoe is  
your GUARANTEE of Honor,  
Quality, Strength and Service

The Queen Quality Trade-Mark on a shoe means that a manufacturing  
organization second to none in the world stands behind every pair.  
It is the World's Largest Factory, making Women's Shoes only

The style of Queen Quality  
is always the best. The  
designers search the world's  
fashion centers for the lat-  
est and most beautiful  
models. You are assured  
of correct style in season.

The fitting quality of Queen  
Quality shoes is well known  
to every woman who has  
been properly fitted with a  
pair. Because the shoes are  
made on scientific lines  
they fit from the first try-  
ing on.

There is foot comfort in Queen Quality  
shoes because the makers consider com-  
fort one of the first essentials. A shoe  
that hurts the foot is never a satisfac-  
tory one, no matter how beautiful it  
may be. Wearers of Queen Quality  
shoes know—and you will know when  
you try them—"Comfort from the first  
day's wearing."

The prices of Queen Quality shoes are  
fair and equitable. The manufacturers  
desire to maintain always the highest  
degree of perfection in women's shoes  
at the lowest range of prices consistent  
with good workmanship. You cannot  
buy a better shoe for the money any-  
where on earth. "A price for every  
purse—a fit for every foot."
