

AD OF WETS FOUGHT

Veterans Say Text Misquotes Abraham Lincoln.

PRINTED PLEA DENOUNCED

Members of Summer Post, No. 12, G. A. R., Adopt Resolutions Declaring Anti-Prohibitionists Put Martyr in False Light.

Charges that Abraham Lincoln is being misquoted in the present campaign in the effort to keep the wets were made at last night's meeting of Summer Post No. 12, G. A. R., and a resolution was adopted protesting against such misrepresentation.

The quotation referred to appeared last week in Portland newspapers over the name of the Taxpayers and Wage-earners' League of Oregon. In a printed advertisement, bearing a large picture of Abraham Lincoln, under which was: "Lincoln, our revered leader, said about prohibition: 'Prohibition will work great injury to the cause of temperance. It is a species of intemperance within itself, for it goes beyond the temperance in that it attempts to control a man's appetite by legislation, and in making crimes out of things that are not crimes.'"

"A prohibition law strikes a blow at the very principles on which our Government was founded. I have always been found laboring to protect the weaker classes from the stronger and I never can give my consent to such a law as you propose."

"Until my tongue shall be silenced in death, I will continue to fight for the rights of man."

Under this he printed the advice to register and vote against prohibition. The resolution adopted last night by the veterans follows:

"Whereas, certain parties have, through the medium of an advertisement, placed the portrait, name and fame of Abraham Lincoln in a false light before the people of this commonwealth, therefore be it

"Resolved, by Summer Post No. 12, Department of Oregon, G. A. R., that we protest against this usurpation of the most famous name and exemplary citizen without giving the place and the occasion where these alleged sentiments were uttered. Be it further resolved

"That it is our solemn duty to protect and defend the name and character of our united country against any false accusations or impressions that may be formulated by any person, persons or organization."

Use in South Reported. Veterans of Summer Post declare that not only did Abraham Lincoln never say any such thing but that the statement is a crude and out words into his mouth. Students of the great War President, who have read all his writings, say the style does not resemble that of Lincoln.

It is said that this same quotation was circulated widely in a Southern state by means of hand-bills, upon which a large picture of Lincoln was printed, during a Prohibition election some years ago in an effort of the wets to capture the negro vote. The veterans said that although they have a picture upon it would appeal strongly to the negroes and it was circulated for that reason. It is supposed by members of Summer Post that this is the source of the campaign text.

21 INDICTMENTS FILED

SEPTEMBER GRAND JURY ORDEARS ONE TRIED FOR MURDER.

Ex-Deputy County Clerk A. Smith Among Defendants—Sevens of the Charges Are Kept Secret.

Twenty-one indictments were returned by the September grand jury, which met in session yesterday and adjourned. Chief in interest is the charge of murder in the first degree made against Giovanni Luciani for the killing of a woman, Mary Ann Bonifiglio, at the residence of the defendant's father at Fourth and Sheridan streets, on September 19. The shooting took place after a quarrel over a card game.

Seven of the indictments are secret and will not be disclosed until after the arrest of the persons involved. Six not true bills were returned. Two cases were referred to the October grand jury that will be drawn tomorrow morning. Witnesses examined numbered 132.

One indictment charges A. Smith, formerly chief deputy in the county tax department, with obtaining money by false pretenses. It is charged that he forged the name of A. Kachelman to an assignment for the refund of vehicle tax amounting to \$26.50, last December. Other indictments are:

TURKEY DECLARED WILD

PROPERTY OF ALIENS FORFEITED TO SUPPLY TROOPS.

A. Abrams Writes From Jerusalem to Son-in-Law in Portland, Asking United States to Aid Citizens.

That the government of Turkey is wild with military excitement and activity and is robbing alien residents of all their property indiscriminately is the assertion made in a letter received by S. Holzman, of 647 Fifth street, from his stepfather, A. Abrams, in Jerusalem. The letter was mailed five weeks ago and only reached him yesterday.

His stepfather urges him to appeal to the United States Government to take steps to protect the property and welfare of its citizens in Jerusalem, who number about 20,000. "All you can see in the Holy City is just troops, and troops, and troops," he says. "The Turkish government has erected an everybody between the ages of 18 and 45 years."

"The Jewish people are all in the churches from morning until evening, praying."

Mr. Abrams writes that the Turkish authorities, apparently thinking that the powers are too busy to protect their citizens in Jerusalem at this time, are taking the property of foreign residents indiscriminately. No foreign citizen is given recognition or courtesy at all unless he has a German or an Austrian. Mr. Holzman, the brother of Mr. Holzman of Portland, was twice deprived of his horse and carriage and succeeded in recovering it through the efforts of the American Consul. The third time it was taken the Turkish authorities declined to notice the efforts of the Consul to procure its return.

Flour mills were looted by the soldiers if the owners resisted their appropriation of their supplies. If the owners donated the flour the troops would leave sufficient for them to live on. Postoffices are closed and no money orders can be cashed, and the banks are all closed. Even on the most valuable jewelry, Mr. Abrams says that it is impossible for anyone to procure a loan.

"Stores in the city are deprived of everything they contain for the use of the army, payment being made in the Turkish money, which nobody at this time regards as of any value whatsoever, but they dare not refuse it."

Mr. Holzman has written the Representatives in Congress, asking that they take up the matter and endeavoring to arrange for some way to send money to his stepfather, although there seems little hope. Mr. Abrams was a resident of San Francisco until about 17 years ago, when he went to Jerusalem to make his home.

Mrs. P. G. As a result, Mrs. L. P. Clark, of the Buckman School, was appointed to serve on the plans committee.

Among those who spoke at the meeting were Mr. Curtis, of the Sunnyside School; Philip Esterly, E. L. Milliners and John E. Kelly.

FINAL VOTES NOW ASKED

CONFIRMATION OF ELECTION OF BISHOP NEXT STEP.

Oregon Episcopal Committee to Call Matter to 68 Committees of United States and House of Bishops.

Having received officially the formal acceptance of Very Rev. Walter T. Sumner of his election as Protestant Episcopal Bishop of Oregon, the standing committee of the diocese of Oregon early this week will notify the 68 standing committees of the United States of the results of the election held by the clergy and lay delegates of this diocese on September 16.

The members and officers of the local standing committee are as follows: President, Very Rev. H. M. Ramsey; Secretary, Horace D. Ramsdell; Rev. J. E. Simpson, Rev. Barr G. Lee, Dr. S. E. Joseph and Rodney L. Glesan.

While there is no doubt the election of Dean Sumner will be confirmed by the standing committee and bishops, it will be necessary for the Oregon committee to go through the formality of four separate processes in presenting the matter to the respective bodies for confirmation.

First a communication signed by President Ramsey, of the committee, will be sent to each standing committee asking its consent for the ordination and consecration of Dean Sumner as bishop. Then Secretary Ramsdell will address certificates recording the legal election of Dean Sumner by the clergy and lay delegates of the diocese of Oregon.

The third notice will certify to the fact that Dean Sumner is a deacon and a priest, and the final communication, which is called the canonical test, will be signed by the clergy and lay delegates of the diocese of Oregon who elected Dean Sumner certifying to his character in so far as they had opportunity to judge it.

When a majority of the standing committees have consented to the consecration of Dean Sumner as bishop of the diocese of Oregon the matter of election will be referred to the house

of bishops. As soon as a majority of the bishops pronounce their consent President Bishop Tuttle will set a date for the consecration and installation.

Rural Credits, Dental Bill and Memorial to W. T. Gardner, Topics.

The social workers of Portland held their first dinner meeting for the year at the Hazelwood Friday night, Mrs. Sarah Evans presiding. The principal speaker of the evening was Hector McPherson, of the extension department of the Oregon Agricultural College, who talked on the recent European survey of the Rural Credits Commission, which he accompanied last year.

Addresses in tribute to the work of the late W. T. Gardner, who was for many years head of the Boys and Girls' Aid Society, were made by Mrs. Millie R. Trumbull and the Rev. T. L. Elliot. The Rev. F. K. Howard gave for a motto for the coming year, "Let us individually and collectively try to be helpful without being officious."

Mrs. R. W. Raymond made a short appeal before the adjournment for the assistance of the social workers in the movement to defeat the dental bill at the coming election.
