OPENS CAMPAIGN

Roosevelt Expected to Aid Bull While Republicans Rely Upon Borah to Help Carry State Ticket.

BOISE, Idaho, Oct. 3 .- (Special.)-With a total of 54 candidates in the field, representing five different politfoal parties, the general election cam-paign for this state opened this week. As the election is but a month off, it gives promise of being one of intense interest, with the probability of a mixed result when the final canvass of the vote is made. There is reason to believe that there will be new surprises as the result of the election this year as compared to other elections, principally because there are five instead of four parties in the field and cause one of them, the Progressive, has taken some strength from the two dominant ones, the Republican and

Among leaders of all parties the real Among leaders of all parties the real question is as to the strength of the Progressive party. Because this party cast but approximately 2000 votes at the recent primary election, it is claimed by Republicans and Democrats the Bull Moosers are losing their strength and that they will fall far below their vote of two years ago in November of this year. Roosevelt then polled 25,621 votes and Martin, for Governor, polled 24,325.

ernor, polled 24,825.

The state ticket polled about 15,000 votes. Wilson carried the state by a plurality of 1111, receiving a vote of 33,821. The real strength of the Republican party was shown on the vote cast for state candidates other than for Governor, which ran about 41,000.

Progressives' Vote Light. At the recent primary election the Republican strength, shown in the vote cast for Governor, was 37,125. The Democratic strength on the same basis was 14,843, while the vote for Hugh E. LOGGING BUNKS ORDERED

Labor Commissioner Hoff Gives

SALEM, Or., Oct. 3.—(Special.)—Labor Commissioner Hoff announced today that he had notified logging companies that they must install logging bunks on cars by January 1. In his letter Mr. Hoff says:

"Investigations having shown that the majority of the accidents occurring during the unloading of cars can be avoided, it becomes the duty of this department, under the authority of the employers liability act, which directs this office to compel the adoption of all reasonable and possible safeguards by the employers for the proper protection of the lives and limbs of employes, to enforce the adoption of such remedies as will bring

about the desired results."

In a pamphlet mailed the companies are descriptions of various bunks, all of which are operated from the opposite side of the cars from which the logs are dumped. Mr. Hoff says the adoption of the safeguards will not only prevent accidents to employes, but will extend the life limit of cars.

RATE INCREASE ALLOWED

3 Per Cent Tariff Permit.

SALEM. Or. Oct. 3.—(Special.)—An order permitting the Rogue River Water Company to increase its rates about 3 per cent was issued by the State Railroad Commission today. Rates fixed by the city were declared by the Commission to be unjust. To reproduce the property of the company the Commission found would require an expenditure of approximately \$151,627, with a working capital of \$4000.

The authorized capital of \$4000.

The authorized capital stock is \$50,000, which was issued for cash when the company was organized, and is outstanding. Its bonded indebtedness, according to the order, consists of \$160,000 20-year 5 per cent bonds, negotiated at 90 per cent face value.

Classification of the various water-

tricts. They set their tents in most cases and waited to find employment. The influx of willing workers was steady, continuing for several days, inbound trains were crowded with pickers and occasionally the regular passenger service was delayed owing to the specials bringing pickers to their place of work. Most of the crews who came in seeking a place to pick hops were from Portland. It was estimated that 15,000 persons harvested the crop in the vicinities of Independence and Buena Vista, along the Williamette and Luckiamute rivers.

Although the picking season was somewhat short this year, pickers made good wages and left the fields well paid for the time spent there. The greatest number of boxes picked by one person in any one day in Polk County is said to have been 18½. The price paid was 50 cents a box.

Growers now fest confident that with the successful harvest of the hops already attained, and a good price in view, there will be no serious loss felt directly to the industry. The opinion is commonly expressed that the yield for the state will not exceed 110,000 bales. Little or no activity in the market is evident but the crop is being held for a high figure.

Acreage Increased and Many Improvements Are Made.

IDAHO LAND IS RESTORED Area of 2700 Acres on Salmon River Will Be Open to Entry Soon.

LEWISTON, Idaho, Oct. 3.—(Special.)
—The Commissioner of the General
Land Office at Washington has notified
the local land office here that 2760
acres of land on the Salmon River, formerly withdrawn from settlement for
power site purposes has been restored
to settlement and will be subject to
settlement November 1, and, where surveyed, subject to entry on December 1.

This order is of special importance
to a large number of homesteaders of
the Salmon River country because some
of their most valuable land adjacent
to the river was included in the withdrawal. A greater portion of the area
is valuable for stockraising only, while
about 400 acres are valuable for timber.

of the hops, precautions were taken concerning the proper kind of spray and the right amount of it at the needed time.

The continuous warm weather during the early Summer proved to be what was needed, but unusual length to the dry spell brought the hops to a rapid maturity. A few yards began picking on the last week in August, while the greater number began operations on September 1. At no time during the season was any fear exercised concerning shortage of pickers. In fact, there was an oversupply in some of the districts shortly after the picking commenced.

—The old Government treaty with the Quiniault tribe, negotiated by Major Isaac I. Stevens, who later became first Governor of Washington, in which the Indians ceded their land in exchange for hunting and fishing privileges, does not operate to allow them to catch salmon without licenses. Judge Claypool of the Thurston-Mason Superior Court has decided.

In the test case brought by Pete Williams, a member of the tribe, against the state of Washington, Judge Claypool holds that the state game laws take precedence over the treaty.

Re sure and read page 17.

The old Government treaty with the Democratic bailot for the name always being written in by both partiee. However, this year he was caught asleep at the switch, and a young man filed his petition for Justice, got his name printed on the primary ballot, and though many of the loyal ones wrote in Squire Holman's name. The Judge lacked two for three votes of receiving the customary Republican nomination. But the Democratic ballot for this office to such an extent that his nearest opponent was defeated more than two to one, regardless of the fact that his nearest opponent was one of the old

stalwart Democrats of this district, and the local Democratic newspaper had advocated his nomination, and had publicly requested the faithful to write

in his name.

As he has made the office of Justice of the Peace his sole and only business for over 16 years, and not being ready to hand it over to a successor at the present time. Mr. Holman strained a point and accepted the Democratic nomination, though he admits that he feels like a lost sheep.

Mr. Holman was born in Platt County, Missouri, on the 27th day of April, 1846. With his parents, James S. and Mary Holman, he crossed the plains by oxteam in 1847, arriving in Polk County in September of that year. In 1882 he was elected Sheriff of Polk County and moved to Dallas. He has resided in Dallas continuously since that time. that time
