

RECALL ELECTION PLANS UNDER WAY

City Auditor Makes Arrangements Without Awaiting Decision by Court.

MAYOR DENIES CHARGES

Mr. Albee and Mr. Dieck Prepare Statements to Go on Ballot at Mr. Barbur's Request—Polling Places Listed.

Without regard to the possibility of the recall being held by the Supreme Court in the Columbia County case now pending, City Auditor Barbur is going ahead with arrangements for the proposed recall election in Portland against Mayor Albee and City Commissioners Dieck and Brewster. A list of polling places was completed yesterday and will be published Monday, and the ballot form and other preliminary plans have been prepared.

The polling places for the special city election, which is scheduled for October 27, will be the same as those selected for the state and county election November 2. It is planned to have the booths fixed up for the special election so that they can be used also for the general election, without change and with but little additional cost. It is probable arrangements will be made so that the cost of preparing election booths can be distributed between the city and the county.

Two Statements Issued. Mayor Albee and Commissioner Dieck yesterday issued their statements to appear on the official ballot. They were requested by Auditor Barbur. Commissioner Brewster has not prepared his statement as yet.

The official statement of Mayor Albee in answer to charges made in recall petitions by the recallers reads as follows: "Reasons given as to why H. R. Albee should be recalled are that he has fulfilled his pledge to the people, given before his election, to devote his time, energy and talents to the best of his ability for the general public welfare. The city business has been so economically conducted that a large saving in operating expenses has been made and there will be lower taxes for municipal purposes next year as a result."

Mayor Answers Old Charge. In the recall petitions the Mayor is charged with retaining his position as general manager of a local insurance company. Mr. Albee says he has answered this upon many occasions. He says he has retained his name in connection with the company to protect his claim on renewal revenue, payable from time to time from insurance policies written while he was with the company.

He says he had expert legal advice from attorneys before he took office and this was declared by them to be within the law. He considers that it is the same as though he had property from which there was an income. As to the insurance company he says he has not been in the office since he became Mayor.

Mr. Dieck Makes Defense. Commissioner Dieck in his official statement says: "I am charged with the following: 1. Extravagance. 'From appropriations aggregating \$330,000 the department has completed all work intended and expects to return about \$50,000 to the general fund, as savings.' 2. Instability, inefficiency and indolence. 'The reply to the first charge seems to answer.' 3. Many competent and worthy employees have been discharged without just cause and contrary to the spirit of civil service.

Discharges Are Cited. "In the past 15 months there have been no discharges except the following: March 24, 1914, R. E. Chase, laborer, sewers, two months nine days, physically disqualified; March 30, 1914, Louis Brandt, office boy, on probation one day, indifferently lazy; June 30, 1914, C. B. Trotter, laborer on streets, on probation, unsatisfactory work; July 9, 1914, W. A. Kerr, draftsman on probation, extreme tardiness and continual violation of office rules."

ORIGINAL DIRECTOR OF "PAID IN FULL" TO ACT

Thomas Coffin Cooke, Who Staged Broadway Success Originally, Has Charge of Production Here as Stage Director of Baker Players.

INTERESTING in connection with the production of "Paid in Full" by the Baker Players this week, is the fact that Thomas Coffin Cooke, stage director of the company, was director of productions in New York for Wagnerhals & Kemper, and personally directed and rehearsed the original Broadway production of the play, which had a phenomenal run of two years, not even stopping for the hot summer season. "It is a fact," said Mr. Cooke, "that nothing unusual was expected of the play, and the surprising way in which the critics and public alike simply went mad over it fairly took away the breath of everyone connected with its production. It was the first success Eugene Walter had, and his greatest, also. It is not known just how the firm happened to produce it, as it was extremely difficult for an unknown author to get a hearing, but often an emergency arises which necessitates the keeping open of a playhouse (usually closed by a failure or a succession of failures) and with nothing promising on hand, a choice is made of plays that might never be considered otherwise. In this way Fate has often 'discovered' and smiled upon struggling playwrights whose fortune from that time became fixed. Walter is now one of our most successful playwrights and does not have to go to managers, begging to have his plays produced. There are bids for them before they are written. The success of his 'The Eastward Way,' 'The Wolf,' 'Fine Feathers' (which the Baker Players will be seen in soon), and others is well known. But to get back to 'Paid in Full,' note that two of the original company were people who had formerly played with the Baker Stock Company in this city,

estimated cost of reconstruction of the big pipe is \$19,600. The sewer which drains the Sunnyside district will built several years ago. Since then there has been extensive filling and other work along the lower end of the pipeline. As a result the big pipe is said to be wrecked in several places between a point 133 feet west of the east line of East Second street and the river.
