MADE BY MR. LEITER

Progressive Manager Asserts Senatorship Will Be Decided in Multnomah.

HANLEY WINNER, HE SAYS

Campaign Based on State's Prosper

Farming "Plank" Popular.

"Mr. Hanley's plan to procure 4 per cent money for the farmers through loaning the postal savings bank deposits direct to them and establishing a Government system of agricultural credist has made Mr. Hanley immensely popular in all agricultural communities, especially the Willamette Valley, and also the cities and towns that depend for their prosperity upon the success of the farmer. And what community, even Portiand, does not profit by the development of its surrounding territory?

"This is probably the last oppor-tunity I will have of speaking directly to the voters of Oregon and Mr. Han-ley's loyal supporters throughout the

"Mr. Hanley has made a remarkable and clean campaign. He has hewn straight to the line on the one main straight to the line on the one main issue in this campaign, prosperity, and his constructive programme for the development of Oregon. He has come out frankinly and squarely and stated his position in a signed platform telling what he proposes to do for the people of Oregon if elected to the United States Senate; how he proposes to proceed to get restored the \$6,000,000 reclamation fund lost to Oregon in the United States Senate; how he proposes to work for the development of the ports on the Oregon coast; how he stands for lending postal savings bank deposits directly to the farmers at 4 per cent; how he gon coast; how he stands for lending postal savings bank deposits directly to the farmers at 4 per cent; how he proposes that the great natural resources of forests and water power shall be made the basis of credit to build great public works, such as irrigation projects, good roads and electrical water power development, so as to prepare the way for thousands of new homes in the wast undeveloped in-

campaign is prosperity, and the balance of power is held by the progressive Edison Storage Batteries Eliminate Republicans. They will vote for the Hanley brand of prosperity because they favor his stand for a moderate protective tariff and for a nonpartisan

Election supplies consisting of ballots, various forms required at the polling places and ballot boxes were delivered to each precinct throughout the county by Chief Deputy Sheriff Government Takes Precaution to Martin Pratt yesterday. Inquiries already came to the Sheriff's office yesterday afternoon as to the location of the keys to the ballot boxes. Deputy Pratt wanted it to be known by election judges that the key

RESTRAINING ORDER STAND

Store Not to Rise in Alameda Park Till Restriction Trial Held.

Judge Kavanaugh yesterday sustained the injunction granted to the plaintiff in the suit of L. D. Roberts against B. M. Lombard and wife and D. G. Wilson to prevent an alleged infringement of building restrictions in Alameda Park.

Arguments were heard on a tempor-

ary injunction to prevent the erection of a store building, the contention be-ing made that such a building would injure adjacent property, intended to be of a high-class residence character. It was contended by the defense that the restrictions in question existed on some parts of the property but not on others. Judge Kavanaugh said he would allow the injunction to stand until the

ber and other lands in this state, and handle the same in accord and harmony with the Weyerhaeuser-Booth-Kelly holdings of some other hundreds of thousands of acres of land also located in this state, and I suggested that it was matter of interest to a whole lot of good people who would be called upon next Tueday to select a man to represent them in the Senate. This statement and the other one, to the effect that I had also been informed that Colonel Wood, the Corbetts and Hanley were in possession of good-sized tracts of the old wagonroad grant of 800,000 acres, 700,000 of which it seems is now owned by the Hill interests, and that it presented a picture of a happy family, brought forth from Colonel Wood a letter already published, in which he says that the statements made by me are "recklessly untrue," etc. The Colonel says that Mr. Louis Hill "refused" to break his inflexible rule "never to contribute to politics" and that the contribute to politics" and that the contribution which Mr. Hanley did receive from the Hill interests was made by Mr. Louis Hill's wicked partner, Mr. Davidson, and everyone must concede that that makes all the difference in Davidson, and everyone must concede that that makes all the difference in

campaign Based on State's Prosperity Declared to Have Won Favor of All and Chamberlain

Declared Weakening.

"Multnomah County will decide the United States senatorship," said Clarke Leiter, campaign manager for William Hanley, Progressive candidate for the United States Senate last night, when he issued a statement reviewing the course of the campaign, "and Multnomah County will vote for William Hanley. Chamberlain will be second and Booth third.

"Spontaneous sentiment arising for Mr. Hanley in Multnomah County has been openly manifested in many ways during the last few days. The fact of the matter is, Mr. Hanley has the people with him and he will beat Chamberlain in his own stronghold. In Eastern Oregon, where Chamberlain formerly was strong, Mr. Hanley is the leading candidate. He is strong in Southern Oregon, where Chamberlain formerly was strong, Mr. Hanley is the leading candidate. He is strong in Southern Oregon, where he formerly lived, and in Central Oregon, where the formerly lived, and in Central Oregon are well known. Chamberlain has lost great strength in this region where he is held responsible for losing to Oregon the reclamation millions.

Farming "Plank" Popular.

Will Compile It.

Election returns from all parts of to the voters of Oregon and Mr. Hanley's loyal supporters throughout the
state. I wish to assure them that careful analysis of reports received from
every county in the state assures Mr.
Hanley's election. The undercurrent of
public opinion and the silent vote has
been driving steadily toward Mr. Hanley for the last two months.

Campaign Based on Prosperity.

"Mr. Hanley has made a remarkable

"Mr. Hanley has made a remarkable

screen.

The Oregonian has made complete arrangements to obtain election re-

terior of the state. "After all, the only issue in this SUBMARINE TESTS ARE O. K

Danger of Suffocation.

WASHINGTON, Oct. 31.—Tests of storage batteries designed by Thomas A. Edison for use in submarine craft to eliminate danger of suffocation by Republican who may be regarded as the nominee of the old standpat machine."

ELECTION SUPPLIES READY

Many Esentials Are at County Precincts and Inquiries Continue.

WASHINGTON, Oct. 31.—Tests of storage batteries designed by Thomas A. Edison for use in submarine craft to eliminate danger of suffocation by gas generated by batteries now used will be concluded within a month at the New York Navy-Yard.

Navy Department officials here announced tonight that preliminary tests had been satisfactory. If final tests warrant, new submarines will be equipped with the Edison battery and whenever an old craft is repaired and its batteries removed the new ones will be substituted. WASHINGTON, Oct. 31.-Tests of

will be substituted.

CATTLE SHIPMENT HALTED

CHICAGO, Oct. 31.—As a precaution against spread of the foot and mouth disease among cattle the shipment of cattle and sheep from the stockyards here, except for slaughtering purposes, was prohibited by the Bureau of Anwill unlock the larger general ballot box supplied each voting place.

and fattened, or for use on dairy farms.

About 19,000 cattle and 51,000 sheep About 19,000 cattle and 51,000 sheet are shipped from here every week.

ROSEBURG WOMEN FIRST TO GRAD UATE AS NURSES FROM MERCY HOSPITAL.

Recommendations of the Taxpayers' League NOVEMBER 3d, 1914

The Taxpayers' League was organized many years ago. It has always taken an active interest in public affairs. Since the adoption of the Initiative and Referendum it has at each election made recommendations to the voters on the measures proposed.

As an earnest and consistent friend of the initiative and referendum the League protests against their indiscriminate use as a means of advancing some individual's peculiar views, or some special interest, or as a weapon to "get even" with some official who may perchance disagree with some one in the conduct of the affairs of his office. The initiative and referendum "were intended and can only be used as a safeguard by the public against misrepresentation by the Legislature and not as an original source of general legisla-

Twenty-nine measures appear on the ballot. Of these, fifteen are constitutional amendments, and fourteen are bills for proposed laws. The character and purpose of some of the measures merit most careful consideration.

The League would feel it were derelict in its duty if it did not emphasize the fact that this is not the time for revolutionary or experimental legislation. World-wide as well as local conditions should warn us to be on our guard. The constant submission of half-baked, illy-considered and often radical measures is unquestionably beginning to create distrust abroad, with the result, whether they pass or not, that everyone is a sufferer from it. The laborer, the mechanic, the merchant, the banker, and the propertyholder alike, are interested. In the interest of this state there is but one attitude for the citizen to take and that is to be sure he is

right, and that he understands a measure before he votes. At a 1913 city election every measure proposed was defeated. Such a result is far better than to inadvertently pass some law that will cause the people of this state untold loss before it can be repealed. Measures of far-reaching consequence are on the ballot. The single and graduated tax, although defeated by a vote of more than two to one two years ago, appear in a different guise but for the same purpose and backed by the same interests. Eight-hour laws that would make even the conduct of a farm or the household impossible are submitted; a bill levying a confiscatory tax on estates of not less than ten per cent and as much more as may be provided by law, and to create a department of industry and public works to furnish work for the unemployed is also proposed. State-wide prohibition is to be voted on. Abolishment of the Senate and proportional representation are also proposed.

These are but a few of the important measures upon which the people are called to take action. Under existing conditions we submit to the wage-earner, the home-owner and the capitalist alike that due consideration should be given before embarking upon experimental legislation and revolutionary changes. WE URGE THE VOTER WHEN IN DOUBT TO VOTE "NO." The League has studied the different measures proposed and submits the following advice and suggestions to voters for their consideration.

1. VOTE ON EVERY MEASURE.

WHEN IN DOUBT-VOTE "NO."

BETTER BE SURE THAN SORRY.

TAXPAYERS' LEAGUE, By L. J. Goldsmith, Secretary.

300 YES. VOTERS TO BE CITIZENS. 301 NO. A constitutional amendment

A constitutional amendment prescribing citizen-ship as a qualification for voting. An immigrant with first papers can vote now. In view of the important duties of a voter in this state, full citizenship is not too high a requirement. VOTERS ARE ADVISED TO VOTE "YES." 303 NO. To act as President of the Senate, and to receive \$10 a day during legislative session. To succeed the Governor in case the inter dies or is dis-

qualified. Would prevent log-rolling for Presidency of the Senate, and would provide a substitute for the Governor on Board of Control. The Secretary of State, in case he succeeds, as at present, has two votes, an absolute control VOTERS ARE ADVISED TO VOTE "YES." CONSOLIDATION OF CITY AND COUNTY GOV-305 NO.

cernment.

Gives the Legislature, or the people by the initiative, power to consolidate city and county government where a city has over 100,000 inhabitants. This would eliminate a large amount of duplication and needless expense and simplify government very materially.

VOTERS ARE ADVISED TO VOTE "YES."

INCREASE OF STATE DEBT LIMIT.

Prescribing a debt limit of not to exceed two per cent of assessed valuation for road building, and a like amount for the construction of irrigation, power projects and agricultural development. Appropriates no money, but authorizes it to be done if deemed advisable. It would authorize the state to issue bonds up to \$23,000,000.

This is excessive.

VOTERS ARE ADVISED TO VOTE "NO."

ABOLISHING UNIFORM TAXATION RULE. A constitutional amendment eliminating the present requirement that all taxation be equal and uniform. Briefly stated, the purpose of these proposed amendments is to authorize classification of property for taxation. A necessary change if we expect ever to have fair and equitable taxation, this state. tion in this state. Recommended by State Tax Commission. VOTERS ARE ADVISED TO VOTE "YES."

CLASSIFICATION FOR TAXATION PURPOSES.
Providing for general laws to govern the levy
of taxes; permitting classification of property for
taxation purposes, and also income and proportional or graduated taxes, and authorizing reasonable exemptions. This and the preceding measure go together and form a constitutional basis for rational and equitable tax reform in this state. This and the foregoing amendment are both sound and progressive and should not be confused with any other tax measure or measures, VOTERS ARE ADVISED TO VOTE "YES."

112 YES. THE ASHLAND NORMAL. Levying 1-40 of a mill on all taxable property in the state for the construction and support of a Normal School at Ashland. This presents a clear issue of whether the voters want more Normal Schools or not. NO RECOMMENDATION.

514 YES. MERGER OF CITIES.
A constitutional amendment authorizing a general law to allow a city to surrender its charter and be merged into an adjoining city, on vote of a majority of the electors of each of the cities affected. There being no way to effect such consolidation new, this measure is advisable. VOTERS ARE ADVISED TO VOTE "YES."

216 YES. EASTERN OREGON STATE NORMAL Levying 1-46 of a mill tax for a Normal School at Weston in Umatilla County. A measure similar to 312-313 above. NO RECOMMENDATION.

INCREASING PAY TO MEMBERS OF THE LEG-INCREASING PAY TO MEMBERS OF THE LEG-ISLATURE,
Legislative pay is \$3 a day, with a forty-day
limit. This increases it to \$5 a day for sixty
days. It is not apparent that a small increase
in pay would secure higher-class men, or that
lengthening the session, without providing for a
divided session, would be beneficial. The league
believes legislative reform should go deeper and
be more radical. be more radical. VOTERS ARE ADVISED TO VOTE "NQ."

320 YES, UNIVERSAL EIGHT-HOUR LAW, 321 NO. This measure provides UNIVERSAL EIGHT-HOUR LAW.
This measure provides that no one shall work more than eight hours per day in any employment whatsoever. It would disorganize and make impossible much of the business and work carried on in the state. Domestic help and farm labor would be particularly hard hit under it, VOTERS ARE ADVISED TO VOTE "NO."

322 YES. EIGHT-HOUR LAW FOR WOMEN.
323 NO. This prescribes an eight-hour day in most of the occupations in which women are employed. The State Industrial Weifare Commission is now in charge of the work, with ample authority to enforce any provisions of the sort it finds advisable. This law is superfluous, would needlessly complicate and confuse the situation and would work a positive hardship on many women at present employed. It is inflexible, and exceptions could not be made, as is now possible under the supervision of the Welfare Commission. VOTERS ARE ADVISED TO VOTE "NO."

324 YES. NON-PARTISAN JUDICIARY.
325 NO. This bill prohibits party nominations for judicial offices and provides for nominations by petition of one per cent of the legal voters in the district. Would prevent political designation on the ballot. Would make possible a choice of judges on the basis of fitness rather than party affiliations and party services. The Legislature or the people can provide for preferential voting if they desire. A non-partisan election should do much to keep the judiciary out of politics. VOTERS ARE ADVISED TO VOTE "YES."

326 YES. \$1500 TAX EXEMPTION. Exempting from taxation all personal property, dwelling houses, buildings and improvements on land, livestock, etc., up to \$1500, belonging to any one person, the land itself to be taxed. This is one of Mr. U'Ren's measures and is partial single tax. Single tax has been repudiated very decisively in this state. decisively in this state. It is not working satis-factorily anywhere eise, and this is a poor time for Oregon to experiment with it. VOTERS ARE ADVISED TO VOTE "NO."

PUBLIC DOCKS AND WATER-FRONTAGE.
An amendment prohibiting the sale of beds of navigable waters and subjecting the same to navigable waters and subjecting the same to public use. Providing for leasing to private parties for constructing wharves, docks, etc. Would revoke valuable wharfage rights claimed by riparian owners on which taxes have long been paid and in which the state has acquiesced. Adoption of the amendment would be followed by long litigation and uncertainty as to titles. Would remove much property from the tax rolls and unsettle conditions to an extent the state can ill afford at this time.

VOTERS ARE ADVISED TO VOTE "NO."

YES, MUNICIPAL WHARVES AND DOCKS. This measure follows the preceding one and authorizes the building of municipal wharves and docks on the land covered by that amendment. It should stand or fall with the preceding VOTERS ARE ADVISED TO VOTE "NO."

332 YES, PROHIBITION. This is a clear issue, on which the people are well advised, and on which it appears that any recommendation would be superfluous. NO RECOMMENDATION.

335 NO. This is another clear issue on wh This is another clear issue on which opinion is already well formed.

NO RECOMMENDATION.

336 YES. SUR-TAX. This levies a confiscatory tax on all owners of realty assessed at more than \$25,000. No argument is possible in support of this sort of provision. Is an attempt to impose burdensome taxation on lands and to reach single tax by in-direction. Would ruin the market for land and do inestimable harm to the state. It is in sub-stance the same bill as was proposed and over-whelmingly defeated two years ago as part of

the single tax programme. VOTERS ARE ADVISED TO VOTE "NO." 238 YES. CONSOLIDATING CORPORATION AND INSUR-ANCE DEPARTMENTS.
239 NO. This is a spite measure and an obvious abuse of the initiative. An attempt to legislate an officer out of office on personal grounds. It should be decisively defeated.

VOTERS ARE ADVISED TO VOTE "NO."

YES. DENTISTRY BILL.
NO. Another personal measure, obviously initiated for advertising purposes. Would put the standard of efficiency in the practice of dentistry lower than in almost any other state. An abuse of the

VOTERS ARE ADVISED TO VOTE "NO." 342 YES. INCREASING TERM OF COUNTY OFFICERS. Would give four-year terms to the officers elected at this election. If an officer has made good at the end of two years he will be re-elected. If not, the two-year term gives the people an opportunity to get rid of him, without the expense of a recall. This measure would not reduce the number of elections and would not cut down

VOTERS ARE ADVISED TO VOTE "NO." 344 YES. TAX CODE COMMISSION.
345 NO. The state now has a Tax Commission, and has heretofore had various special ones. No real tax reform is possible unless the constitutional amendments Nos. 398, 399 and Nos. 310, 311 are carried. The proposed commission is superfluvOTERS ARE ADVISED TO VOTE "NO."

(Pald Advertisement.)

346 YES. ABOLISHING DESERT LAND BOARD.

This measure abolishes the office of State Engineer and abolishes the Desert Land Board. The measure is ill-advised and would largely nullify the present Water Code, and hamper very seriously the co-operative work with the Federal Government in the serious of the co-operative work with the Federal Government in stream measurement, topographic map making, etc. The State Engineer is a necessary officer, and the office is doing excellent work. No reason appears why it should be stopped. VOTERS ARE ADVISED TO VOTE "NO."

YES. PROPORTIONAL REPRESENTATION. PROPORTIONAL REPRESENTATION.
Provides that each voter vote for one candidate for representative and the sixty in the state receiving the highest number be elected. Questionable if this would give us as representative legislators as we now have. A large proportion of votes would be wasted on very popular candidates, who would be elected anyhow, or others with no chance. With no eliminating process a large proportion would be elected with only a small plurality. Each legislator having one vote, a man elected by 25,000 votes and another by 1000 would have equal authority. A majority in the Legislature would not necessarily in any way represent the majority of the voters. And, unless that condition is to be attained, no change is justified. justified, VOTERS ARE ADVISED TO VOTE "NO."

YES. ABOLISHING STATE SENATE. Experience has shown that some check on legis-lative action is wise. The two-house system is approved by the experience of all parts of the world. This measure proposes to abolish the Senate, usually composed of the older and more experienced legislators, and to turn the whole work over to the House of Representatives.

VOTERS ARE ADVISED TO VOTE "NO."

352 YES. DEPARTMENT OF INDUSTRY AND PUBLIC WORKS, This is a measure initiated by the Socialist party, providing for a tax of not less than 10 per cent and as much more as the Legislature may name on all estates of deceased persons, amounting to \$50,000 or over, and for appropriations to be made for the support of a department to take care of the unemployed. It would draw the unemployed of the whole United States to Oregon to be supported by the people of this state.

VOTERS ARE ADVISED TO VOTE "NO."

354 YES, PRIMARY DELEGATE ELECTION BILL. This measure would add one election to the num-ber we now have, with the effect of getting us back to the old convention system. It is an attempt to knock out the present direct primary in a very expensive and cumbersome way. VOTERS ARE ADVISED TO VOTE "NO."

356 YES, TAXATION: TWO-THIRDS VOTE TO AMEND OR REPEAL.
This measure, if carried, would make permanent

the present defective and inadequate taxation system in this state by requiring a two-thirds vote to modify it. It is the more dangerous in that it would perpetuate any of the illy-considered or confiscatory tax measures that may pass at this election. It is strictly a "gag" measure. VOTERS ARE ADVISED TO VOTE "NO."
