GOVERNMENT COST

1913 and 1915 Budget Figures Show Commission Form Increases Expenditure.

SALARY ROLL IS HIGHER

Total of \$3,083,399 for Last Year of Councilmanic Rule Exceeded by \$244,000 in Estimates Recently Adopted by Council.

That the commission form of government costs more for operation than did the old councilmante form, which it succeeded in Portland in 1913, is shown by a comparative report completed yes-terday by City Auditor Barbur, showing the appropriations and the salary rolls for the last year of councilmanic government, as compared with the same items as provided in the city's Nortonia.

budget for next year.

It is shown that for the year 1913 It is shown that for the year 1913 there was provided in the budget a total of \$1,638,265.70 for salaries. This includes all the city's salary rolls except the water bureau salaries, which are not provided by taxation. For next year, under commission government, the total salary roll is \$1,778,522,50. While there naturally is an increase in personal service because of the growth of the city, the principal increase shown in these figures is said to be for new positions and for into be for new positions and for in-creased salaries, some of which were required under the commission charter and some of which have been provided by vote of the City Council.

Totals Are Contrasted. Of the total budget under the last year of councilmanic government 54.78 per cent of the amount was for salaries. Under next year's budget 53.44 per cent

Among the principal increases is the cost of the City Council. Under the old form there were 15 Councilmen, who received \$25 a month each, or \$4500 a year. Now there are four Commissioners who do this work. They each Rosarians, have written the committenestic \$5000 a year or a total of \$200. receive \$5000 a year, or a total of \$20,-000. This item shows an increase of \$15,500. This was provided in the commission charter as adopted by the

voters.

There was provided also in the com-

There was provided also in the commission charter a purchasing department which involves added expense of something like \$10,000 a year, a municipal garage, municipal shops, a municipal storehouse, public market and some other positions, all running the city's payroll upward.

Following is City Auditor Barbur's tabulation of the salary rolls of the city under the two forms of government, the figures shown under the 1913 column being the budget figures for the last year of councilmanic government and those under 1915 being the salaries for 1915 under commission govsalaries for 1915 under commission gov-

HOW TO PREVENT ACID STOMACHS AND FOOD FERMENTATION

By a Stomach Specialist.

As a specialist who has spent many years in the study and treatment of stomach troubles, I have been forced to the conclusion that most people who complain of stomach trouble possess stomachs that are absolutely healthy and normal. The real trouble, that which causes all the pain and difficulty, is excessive acid in the stomach, aggravated by food fermentation. Hyper-acidity irritates the delicate lining of the stomach and food fermentation causes wind which distends the stomach abnormally, causing that full bloated feeling. Thus both acid and fermentation interfere with and retard the process of digestion. The stomach is usually healthy and normal, but irritated almost past endurance by these foreign elements—acid and wind. In all such cases—and they comprise over 90 per cent of all stomach difficulties—the first and only step necessary is to neutralize the acid and stop the fermentation by taking in a little warm or cold water immediately after eating, from one to two teaspoonfuls of bisurated magnesia, which is doubtless the best and only really effective antacid and food corrective known. The acid will be neutralized and the fermentation stopped almost instantly, and your stomach will at once proceed to digest the food in a healthy, normal manner. Be sure to ask your druggist for the bisurated magnesia, as I have found other forms utterly lacking in its peculiarly valuable properties.—F. J. G.—Adv.

Be Neglected The most important organs of elim-

ination are the kidneys and they must be clean and active so they may remove the poisonous waste matter which otherwise returns to the circulation and finds it way to all parts of the body. If you're nervous, lack ambition and have backache and indigestion, it's almost certain that the functions of the kidneys, to remove impurities is impaired and should be remedied immediately. With its ability to keep the kidneys acting freely and in a healthy state Warner's Safe Kidney and Liver Remedy rids the body of many impurities which, if reabsorbed, would make life miserable, entailing great discomfort and suffering. It acts specifically upon the kidneys and liver in such a manner that it establishes a healthy condition and tones up these

vital organs if not taken too late. For over 37 years Warner's Safe Kidney and Liver Remedy has been the standard for kidney and liver diseases. Get it at your druggist's in 50c and \$1.00 sizes. Free sample if you write Warner's Safe Rem Dept. 265, Rochester, N. Y.
