

ZAPATA PUSHES CRIME IN CAPITAL

Order Is Maintained in Mexico City and People Gain Confidence Rapidly.

VILLA'S ARRIVAL DELAYED

Tampico, as Attacking Forces Draw Near, Is Only Point Disturbed, but Peaceful Entry of Troops Is Probable.

WASHINGTON, Nov. 28.—Except for a few isolated cases of robbery and violence, which resulted in severe punishment to the offenders as soon as detected, the Zapatista forces have maintained good order in Mexico City, according to advices from the Brazilian Minister to the State Department today.

As no mention was made by the Minister of any injury to Spanish subjects, officials here do not credit the rumor that several Spaniards were killed, though telegrams of inquiry have been dispatched to Mexico City for definite information.

Zapata Levies Property Tax.
The Brazilian Minister declared in his dispatches that the people of Mexico City were rapidly gaining confidence and that the situation in the city was being well handled. The Zapatista military commander has issued a decree levying a tax of one-half the regular property tax, which he says is needed to pay troops and expenses of police and government because the Carranza administration left the treasury empty.

The Zapatista commander, in his proclamation, explained that the method of raising money by taxation was preferred to the indiscriminate confiscations and levies which the Carranza officials had practiced.

Tampico Alone Disturbed.
Nothing was known by the Brazilian Minister at the time he filed his dispatch late yesterday as to the time when General Villa or his forces would arrive. Previously he telegraphed that agents of Villa and the convention were working in perfect harmony with the Zapatista officials.

The situation in other parts of Mexico is described in other reports as quiet, with the exception of Tampico, where the approach of Villa forces from San Luis Potosi has terrorized some people. Reports are current that General Lucio Caballero, Military Governor of the State of Tamaulipas, who commanded the situation at Tampico, is now aligned with the confederates, and if this materializes a peaceful entry of the Villa troops is likely.

Wireless reports from Tampico received today said the situation outside the city was disturbed, as bands belonging to no faction of the Mexican controversy have apparently obtained control of Panuco. While they have looted many Mexican stores, they have not injured Americans or their interests, so far as reported.

The American consular and naval authorities at Tampico are arranging to care for any refugees who may come into Tampico from the Panuco oil district.

GENERAL BLANCO IS ARRESTED

Carranza General Awaits Trial on Unruled Charges.

VERA CRUZ, Nov. 28.—General Venustiano Carranza is in Jalapa tonight and is expected to remain there for two or three days to become acquainted with the people of that district. He was accompanied by Generals Obregon and Aguilar.

General Heriberto Jara was left in command of the garrison here. General Lucio Blanco, who was the last of the constitutionalist leaders to evacuate Mexico City, is now here as a prisoner at the disposition of the military authorities.

John R. Silliman, President Wilson's representative in Mexico, will not join General Carranza here but will remain in Mexico City, where he will conduct his work in conjunction with the Brazilian legation. His dealings as Washington Government may have with General Carranza while he is here will be carried on through Consul W. W. Canada.

Dispatches received Friday night from Vera Cruz carried a report that General Blanco here had been arrested by his own officers and was being conducted to Vera Cruz. No explanation was given of the events that led to his arrest.

TRAIN WRECK DELAYS VILLA

Twenty-Five Killed, 37 Injured, on Advance to Mexico City.

EL PASO, Texas, Nov. 28.—General Villa's advance toward Mexico City has been delayed by a railroad wreck. Twenty-five soldiers and 37 injured yesterday when Villa's train collided near Tula with the train of General Manuel Chao. The latter leader was slightly injured.

It was understood in Juarez that Villa would not enter the national capital until he had been joined by Provisional President Gutierrez and by General Zapata. This, it was pointed out, would prevent any comment on which leader first entered the capital.

It was denied today by Carranza officials here that General Caballero had turned over his territory on the West Coast to the convention party. The Villa officials followed this with the circulation of a report that Governor G. Sanchez, Michoacan, had joined the convention government. Conditions at Guadalajara, which has been attacked by Villa troops, were not divulged although both sides claimed victories.

TROOPER ON BOUNDARY SHOT

Unusual Number of Shells and Bullets Land in United States.

NACO, Ariz., Nov. 28.—Stray bullets from the Naco, Sonora, siege struck two more persons in the American side today. A trooper of the Ninth Cavalry was shot in the thigh and a Mexican woman was shot in the leg.

An unusual number of shells and rifle bullets came to the American side during the renewal of the attack on General Hill's Carranza garrison by Governor Maytorena's troops.

Hill's men set up a one-pounder 60 feet from the United States Customhouse. This drew much of the Maytorena fire with the result that the shower of lead and iron was divided between the Mexican and the American towns with impartiality.

LOVE-LAW KNOT TIED

NEW THOUGHT CEREMONY UNITES WEST SIDE COUPLE.

"I Accept" Replaces "I Will" in Vows Taken by Julia Rhode and William Winkler at 684 Everett.

"I love you dearly and with your consent I accept you, to live with according to the law of love."

These words, Julia Rhode and William Winkler plighted their troth in a New Thought marriage ceremony at the home of the couple at 684 Everett street last evening.

"Dear friends, we come together here at the call and command of love, for the purpose of uniting lovers in wedlock," was the salutation of the minister, Rev. Perry Joseph Green, of the New Thought Temple of Truth.

Saying, "This ring is the emblem of love, the emblem of the beginning," the minister instructed the bridegroom to place the ring upon the finger of his bride. With the same words he asked the bride to seal her vow by placing a ring upon the finger of her sweetheart.

The exhortation followed: "Brother and sister, I exhort you to remember that the law of a happy marriage is the law of courtship. In courtship you hold each other in the love and respect for each other's happiness. God (love) is the only power that can bind two hearts together so that the unity cannot be broken."

Love can be cultivated but not coerced. "I desire you to continue carefully the practice of courtship and so perform the will of God. What man hath joined together, man can put asunder. What God hath joined together, no man can put asunder," for God is the law of love.

The closing benediction of the minister was: "In the name of the Father, the creative cause, in the name of the son, the radiant source of truth and light, in the name of the holy spirit, the source of love and power, and in accordance with the laws of God, I pronounce you happy wedded husband and wife. Amen."

The ceremonies opened and closed with the singing of hymns by the bride and groom. Flowers and greenery composed the decorations. Supper was served by the guests after the ceremony.

The couple will not go on a honeymoon at present, but intend to remain in Portland as practitioners of their faith.

CITY AX TO HIT MANY

TWENTY EMPLOYEES UNDER DICK TO BE LET OUT TOMORROW.

Others Likely to Face Dismissal Under Retrenchment Plan—Water Bureau to Drop Sixteen Soon.

As a result of the retrenchment plan adopted by the City Council in its recent consideration of the budget of expenses for the fiscal year of 1915, commencing December 1, there will be a general shakeup in the city's force tomorrow. A long list of employees will be dropped, and a number of changes in positions will be made following reduction of the city's force.

Tomorrow's shakeup will be supplemented by the dismissal of about 16 employees in the water bureau January 1.

The public works department under Commissioner Dick will be the hardest hit. In the highways and surveys divisions 20 men may be discharged. In the highways division those deemed to be mostly laborers and inspectors who have been engaged in highway and paving repairs or inspecting paving on streets and at the mixing plants. In the survey division those let out will include instrument men and chainmen engaged in surveys for the proposed sewer system in the Peninsula district. Computers and clerks also may be dismissed.

In the Auditor's office two stenographers will be let out, and in the City Hall bureau one janitor will be dropped.

In the water bureau there will be no change in January 1, when it is proposed to drop five or six inspectors and about ten clerks. These reductions have been made possible by reason of the adoption of the quarterly billing system, which entails less work in handling bills.

Although the full extent of the dismissals which are to take place between now and January 1 has not been decided, it is estimated that the total saving in salaries for the year will be close to \$40,000.
