IRRIGATION SPOT SOUGHT

SECRETARY LANE CASTS OUT FOR EASTERN OREGON PROJECT.

CHIEF OF APPROPRIATION COMMITTEE

Insists on Designation of Specific System for Development.

OREGONIAN NEWS BUREAU

Washington, Jan. 23.—Representative Sinnott, who has been conferring with Secretary Lane for several days with reference to securing an appropriation for irrigation in Eastern Oregon, today received a letter from the Secretary saying he had asked Director Davis, of the Reclamation Service, to determine whether it is possible at this time to select some prospective project in Eastern Oregon for which an appropriation of \$450,000 can be made profitably.

GOVERNMENT AID IS NEEDED

RAILROAD HEAD GIVES SOLUTION OF UNEMPLOYMENT PUZZLE.

Federal Co-operation in Restoration of Railway Construction and Opening New Lands An Answer.

NEW YORK, JAN. 23.—The

best possible solution of the unemployment question lies in Government encouragement or co-operation in the restoration of railroad construction and the opening up of new lands, said Benjamin F. Yoakum, chairman of the St. Louis & San Francisco Railroad Company, in a speech today before the Republican Club.

ART PRESERVATION IS AIM

Italians Ask Mr. Bryan to Take Action to Stop Ruin in Europe.

ROME, Jan. 23.—A group of well-known Italians has addressed a letter to Secretary of State Bryan conveying

an appeal that the United States take some action to the end that the monuments of art in the belligerent countries be preserved from ruin. It is the expectation of those who are launching this movement that it will find support in other neutral states, particularly Switzerland and Spain.

The letter is signed by Eleonora Duse, the actress; Gogginio Ferrero, the historian; Beato, the sculptor; Aristide Sartorio, the painter; and Giacomo Boni, the archaeologist. It says in part: "The art treasures in these countries must be considered as part of the patrimony of the civilized world, and not as the particular property of any country. If all great artists and influential people throughout the world join in this movement, much may be done to preserve these art treasures which otherwise will suffer irreparable loss. We look toward the United States as the Nation which today better than any other can undertake this task and which is best equipped to carry it out successfully."

The letter in conclusion asks Mr. Bryan to call the attention of President Wilson to the matter.

SECRETARY LANE CASTS OUT FOR EASTERN OREGON PROJECT.

CHIEF OF APPROPRIATION COMMITTEE Insists on Designation of Specific System for Development.

OREGONIAN NEWS BUREAU

Washington, Jan. 23.—Representative Sinnott, who has been conferring with Secretary Lane for several days with reference to securing an appropriation for irrigation in Eastern Oregon, today received a letter from the Secretary saying he had asked Director Davis, of the Reclamation Service, to determine whether it is possible at this time to select some prospective project in Eastern Oregon for which an appropriation of \$450,000 can be made profitably.

Chairman Fitzgerald, of the appropriation committee, has declared he will not favor any appropriation couched in general terms and unless the Secretary of the Interior designates a specific project the much-discussed appropriation of \$450,000 will be cut out of the bill and Oregon will receive appropriations only for the Umatilla and Klamath projects.

If the Secretary will designate a specific project, it is believed Mr. Fitzgerald will approve Secretary Lane's recommendation and include this appropriation in the sundry civil bill.

LASSEN ERUPTION VIOLENT

Tremors Felt 25 Miles Away and Ashes Carried 14 Miles.

REDDING, CAL. JAN. 23.—A

magnificently spectacular demonstration was given today by Lassen Peak, which early broke forth in what is perhaps the most violent eruption of the series that began last May.

Subterranean rumblings and tremors of the earth were heard clearly at Volta, 25 miles from the peak. Falling ashes covered the snow fields at Macomber Flat, 14 miles away. The plumed column of steam from the crater was visible at great distances.

The eruption started at 9 o'clock today and shows no signs of abatement. Rumblings were heard for an hour preceding the outbreak. The eruption appears to come from a new crater on the eastern slope. The main crater and the one at North Peak are quiet. The clouds of black smoke rise to a height of several thousand feet.

BAN ON POISONS NEEDED

Bryan Urges Bill to Curb Americans in Chinese Districts.

WASHINGTON, JAN. 23.—A bill to regulate sale of poisons in China by Americans resident in the consular districts there was favorably reported to the House today by the foreign affairs committee.

"Unless such a bill is enacted," Secretary Bryan had advised the committee, "it will be impossible for the American Consuls in China to regulate traffic in opium or other drugs by Americans there."

TO REGAIN HEALTH

CLEANSE THE BLOOD

When your blood is impure, weak, thin and debilitated, you cannot possibly enjoy good health.

Your system becomes receptive of any or all diseases, and germs are likely to lodge in some part of the body.

Put your blood in good condition, and do so at once.

Hood's Sarsaparilla acts directly and peculiarly on the blood—it purifies, enriches, and revitalizes it and builds up the whole system.

Hood's Sarsaparilla is not a cure-all. It is the best blood medicine on the market. It has stood the test of forty years and is used all over the world. Get it and begin treatment today. It will surely help you. All druggists.

GOVERNMENT AID IS NEEDED

RAILROAD HEAD GIVES SOLUTION OF UNEMPLOYMENT PUZZLE.

Federal Co-operation in Restoration of Railway Construction and Opening New Lands An Answer.

NEW YORK, JAN. 23.—The best possible solution of the unemployment question lies in Government encouragement or co-operation in the restoration of railroad construction and the opening up of new lands, said Benjamin F. Yoakum, chairman of the St. Louis & San Francisco Railroad Company, in a speech today before the Republican Club.

He said that railroad construction had been arrested since 1912 and that the prospects were that there would be no such work for two years more. Meanwhile the country has 3,000,000 additional mouths to feed without any additional products to feed them.

The cessation of railroad construction for four years, Mr. Yoakum said, would mean that the country had failed to invest more than \$1,000,000,000.

"Before all this important work of railroad construction can be resumed," he said, "a method must be found by which the Government, the bankers and the builders can co-operate. The Government must give material encouragement to this necessary work."
